Carol Stabile

Prime Time Animation Carol Stabile,2013-09-13 In September 1960 a television show emerged from the mists of prehistoric time to take its place as the mother of all animated sitcoms. The Flintstones spawned dozens of imitations, just as, two decades later, The Simpsons sparked a renaissance of primetime animation. This fascinating book explores the landscape of television animation, from Bedrock to Springfield, and beyond. The contributors critically examine the key issues and questions, including: How do we explain the animation explosion of the 1960s? Why did it take nearly twenty years following the cancellation of The Flintstones for animation to find its feet again as primetime fare? In addressing these questions, as well as many others, essays examine the relation between earlier, made-for-cinema animated production (such as the Warner Looney Toons shorts) and television-based animation; the role of animation in the economies of broadcast and cable television; and the links between animation production and brand image. Contributors also examine specific programmes like The Powerpuff Girls, Daria, Ren and Stimpy and South Park from the perspective of fans, exploring fan cybercommunities, investigating how ideas of 'class' and 'taste' apply to recent TV animation, and addressing themes such as irony, alienation, and representations of the family.

**Television and American Culture** Jason Mittell,2010 Exploring television at once as a technological medium, an economic system, a facet of democracy, and a part of everyday life, this landmark text uses numerous case studies to demonstrate the past, immediate, and far-reaching effects of American culture on television - and television's influence on American culture. Arranged topically, the book provides a broad historical overview of television while also honing in on such finer points as the formal attributes of its various genres and its role in gender and racial identity formation. Replete with examples, this pedagogically rich text includes many end-of-chapter case studies and narratives with suggestions for further reading - and, appropriately, viewing. Illustrations and photographs - primarily DVD grabs - contextualize historical footage and older television programs that may not be familiar to younger students. --Book Jacket.
