**Applied Decision Support with Soft Computing** Xinghuo Yu, 2012-12-06 Soft computing has provided sophisticated methodologies for the development of intelligent decision support systems. Fast advances in soft computing technologies, such as fuzzy logic and systems, artificial neural networks and evolutionary computation, have made

available powerful problem representation and modelling paradigms, and learning and optimisation mechanisms for addressing modern decision making issues. This book provides a comprehensive coverage of up-to-date conceptual frameworks in broadly perceived decision support systems and successful applications. Different from other existing books, this volume predominately focuses on applied decision support with soft computing. Areas covered include planning, management finance and administration in both the private and public sectors.

**The State of the States in Developmental Disabilities** David L. Braddock, 1995  
This project is based on the Third National Study of Public Spending for Mental Retardation and Developmental Disabilities. The first section is an overview of the study itself, including methodology, results, and analysis. The second part consists of state profiles, while the third deals with supplementary financial and programmatic data. The overall objective of the project is to determine how and why exemplary service systems have evolved in certain settings and not in others. The study addresses this goal from a fiscal stand point.
