Law, Policy and the Internet Lilian Edwards,2018-11-29 This comprehensive textbook by the editor of Law and the Internet seeks to provide students, practitioners and businesses with an up-to-date and accessible account of the key issues in internet law and policy from a European and UK perspective. The internet has advanced in the last 20 years from an esoteric interest to a vital and unavoidable part of modern work, rest and play. As such, an account of how the internet and its users are regulated is vital for everyone concerned with the modern information society. This book also addresses the fact that internet regulation is not just a matter of law but increasingly intermixed with technology, economics and politics. Policy developments are closely analysed as an intrinsic part of modern governance. Law, Policy and the Internet focuses on two key areas: e-commerce, including the role and responsibilities of online intermediaries such as Google, Facebook and Uber; and privacy, data protection and online crime. In particular there is detailed up-to-date coverage of the crucially important General Data Protection Regulation which came into force in May 2018.

Activist Media Gino Canella,2022-05-23 Now more than ever, activists are using media to document injustice and promote social and political change. Yet with so many media platforms available, activists sometimes fail to have a coherent media and communication strategy. Drawing from his experiences as a documentary filmmaker with Black Lives Matter 5280 and Service Employees International Union (SEIU) Local 105 in Denver, Colorado, Gino Canella argues that activist media create opportunities for activists to navigate conflict and embrace their political and ideological differences. Canella details how activist media practices—interviewing organizers, script writing, video editing, posting on social media, and hosting community screenings—foster solidarity among grassroots organizers. Informed by media theory, this book explores how activists are using media to mobilize supporters, communicate their values, and reject anti-union rhetoric. Furthermore, it demonstrates how collaborative media projects can help activists build broad-based coalitions and amplify their vision for a more equitable and just society.

Church Marketing Manual for the Digital Age Bryan Foster,2020-06-30 GOD is Jesus & Mahomad. God revealed to the author that now is the time to share and help explain this Revelation. It was initially revealed to author, Bryan Foster, in the early morning on 28th, May 2016 while camping on the plains of Mt Warning in Murwillumbah. This is the fifth book published in the 'GOD Today' Series. It highlights three Revelations from God that you will love or hate. Key concepts covered in this book's series of articles are: God/Allah is Jesus & Mahomad; the Truth was revealed by God through 21 Revelations received by the author in 2016 and November, 2018; the various Revelations not explained in the first four books are explained now; the prophecy of the author and Tears from God help prove the Incarnations of God as Jesus and Mahomad.God needs the religious leaders, scriptural scholars, theologians, etc., from both Islam and Christianity to explain these Revelations as each applies to them. Other religions should also be included through the offer to become an integral part of God's place in today's world by helping with the explanations, and the theology of One God only, the same God, for all time etc.. Book 4, primarily a photobook companion for Book 3, helps the reader appreciate the Truth from God through some spectacular and original images of the sun's rays, flares, clouds and a double rainbow. Many manifesting as sun arrows, flares and a giant Easter Cross. The author believes that these are shared by God to help both the author and readers alike believe in their accuracy, through the Revelations, images and explanations.The final two books in this Series of seven are about LOVE in our world and ABSOLUTE LOVE from God for each one of us throughout history and into the future until the end of time.GOD LOVES each of us equally and encourages us all to live a life in strong relationships with God and our neighbours throughout the world past, present and future.

Routledge Handbook of Media Geographies Paul C Adams,Barney Warf,2021-10-27 This Handbook offers a comprehensive overview of media geography, focusing on a range of different media viewed through the lenses of human geography and media theory. It addresses the spatial practices and processes associated with both old and new media, considering media not just as technologies and infrastructures, but also as networks, systems and assemblages of things that come together to enable communication in the real world. With contributions from academics specializing in geography and media studies, the Routledge Handbook of Media Geographies summarizes the recent developments in the field and explores key questions and challenges affecting various groups, such as women, minorities, and persons with visual impairment. It considers geographical aspects of disruptive media uses such as hacking, fake news, and racism. Written in an approachable style, chapters consider geographies of users, norms, rules, laws, values, attitudes, routines, customs, markets, and power relations. They shed light on how mobile media make users vulnerable to tracking and surveillance but also facilitate innovative forms of mobility, space perception and placemaking. Structured in four distinct sections centered around control and access to digital media, mass media, mobile media and surveillance and media and the politics of knowledge, the Handbook explores digital divides and other manifestations of the uneven geographies of power. It also includes an overview of the alternative social media universe created by the Chinese government. Media geography is a burgeoning field of study that lies at the intersections of various social sciences, including human geography, political science, sociology, anthropology, communication/media studies, urban studies, and women and gender studies. Academics and students across these fields will greatly benefit from this Handbook.

Google and the Law Aurelio Lopez-Tarruella,2012-02-22 Google’s has proved to be one of the most successful business models in today’s knowledge economy. Its services and applications have become part of our day-to-day life. However, Google has repeatedly been accused of acting outside the law in the development of services such as Adwords, Googlebooks or YouTube. One of the main purposes of this book is to assess whether those accusations are well-founded. But more important than that, this book provides a deeper reflection: are current legal systems adapted to business models such as that of Google or are they conceived for an industrial economy? Do the various lawsuits involving Google show an evolution of the existing legal framework that might favour the flourishing of other knowledge-economy businesses? Or do they simply reflect that Google has gone too far? What lessons can other knowledge-based businesses learn from all the disputes in which Google has been or is involved? This book is valuable reading for legal practitioners and academics in the field of information technologies and intellectual property law, economists interested in knowledge-economy business models and sociologists interested in internet and social networks. Dr. Aurelio Lopez-Tarruella is Senior Lecturer in Private International Law at the University of Alicante, Spain.
