**Senegal** Sean Connolly,2015-11-05 Stroll, shop, dine and dance in fashionable Dakar. Reflect and recharge among the pastel-hued streets of tranquil Gorée. Seek out crumbling 19th-century mansions in Saint-Louis. Look out for rare birds in the wetlands of the Parc National des Oiseaux du Djoudj. Paddle upstream in a pirogue at Niokolo-Koba National Park, where lions still run wild. Bordered by the waves of the Atlantic, the deserts of Mauritania and the impenetrable forests of Guinea, Senegal packs in remarkable diversity – it's perfectly possible to trek the green Fouta Djallon foothills, catch some world-class surf and watch a sandstorm blow in from the Sahara within a day's journey of each other. Yet the country's greatest treasure is the hospitality extended everywhere, whether you've come to dance to mbalax beats in Dakar, loll in a hammock somewhere along the Petite Côte or escape to an island lost in the rivers of Casamance. In this, the very first standalone guide to Senegal, Sean Connolly provides you with all of the background information and practical advice you will need in this superlative and surprising nation at Africa's westernmost edge.

**The Great Fragmentation** Steve Sammartino,2014-06-26 Doing business in the digital age The Great Fragmentation: And Why the Future of All Business is Small is a business survival manifesto for the technology revolution. As the world moves from the industrial era to the digital age, power is shifting and fragmenting. Power is no longer about might and ownership; power in a digital world is about access. Existing businesses need to understand this shift and position themselves to survive and thrive in an environment where entrepreneurs and start-ups enabled by access to technology are genuine threats. Author Steve Sammartino is widely regarded as a thought leader on the subject of technology and business, and helps companies transition from industrial-era thinking to the mindset and processes required to compete in today's digital marketplace. The Great Fragmentation shows how technological changes such as Big Data, gamification, crowdfunding, Bitcoin, 3D printing, social media, mashup culture and artisanal production will forever change business and the way we live our lives. Examine how the digital era has altered where we work, how we work, where we live and what we do Discover how the digital era has impacted social and economic structures, including educational systems, financial systems and government policy Understand that the social media and collecting 'friends' is just the tip of the iceberg in a digital business environment Weaving together insights from business, technology and anthropology, The Great Fragmentation provides both corporations and entrepreneurs with a playbook for the future of work, life and business in the digital era.
