Entrepreneurship Programs and the Modern University Michael H. Morris, Donald F. Kuratko, Jeffrey R. Cornwall, 2013-08-01 At IUs Kelley School of Business, we believe in the power of entrepreneurial thinking, with a relentless pursuit of excellence in the research and teaching of entrepreneurship and innovation across our entire campus. This book on academic entrepreneurship offers one of the most comprehensive approaches to understanding the framework and strategies for building effective entrepreneurship programs within universities today. I truly believe all universities, regardless of their current stage of development of their entrepreneurship programs, will materially benefit from the ideas in this book. Daniel C. Smith, former Dean, Kelley School of Business, Indiana University and current CEO, Indiana University Foundation, US I am a believer in the concept of the entrepreneurial university, and think our institutions of higher learning must learn to think and act in more entrepreneurial ways. The kind of entrepreneurial culture which this book champions can transform student lives, invigorate university campuses, and make a fundamental difference in our communities. Burns Hargis, President, Oklahoma State University, US After more than 30 years of impressive growth, what have we learned about building world-class entrepreneurship programs within universities? After tracing the evolution of entrepreneurship within institutions of higher learning, the authors explore the key elements that constitute a comprehensive entrepreneurship program. Best practices at leading universities and differing kinds of academic environments are highlighted. They examine multiple aspects of program management and infrastructure, including curriculum

and degree program development, where entrepreneurship is administratively housed, how it is organized, and approaches to staffing and resource acquisition. The perspectives shared in the book enable university presidents, entrepreneurship students, provosts, deans, entrepreneurship program directors, faculty members, and others to better capitalize upon the empowering and transformative potential of entrepreneurship.

Corporate Social Entrepreneurship Christine A. Hemingway, 2013-05-23 Business ethics teaching appears to have had little impact, particularly in the light of continued malpractice and misdemeanour in the form of financial scandals, environmental disasters and adverse consequences for communities. This timely book directly addresses a central question: is it that the existence of an ethical or an unethical climate influences behaviour, or, does the presence or absence of a moral character and personal values have the greatest influence on behaviour at work? Hemingway proposes four modes of individual moral commitment to corporate social responsibility (CSR) and sustainability: the Active Corporate Social Entrepreneur, the Concealed Corporate Social Entrepreneur, the Conformist and the Disassociated. Hemingway posits that the Conformists represent the majority of people in organisations, adhering to the prevailing ethical climate, whatever that might be. However, it is the discovery of the corporate social entrepreneur which offers students and scholars a critical, alternative and optimistic perspective for the future of

ethical business.

Jesus' Son Denis Johnson, 2009-02-17 Jesus' Son is a visionary chronicle of dreamers, addicts, and lost souls. These stories tell of spiraling grief and transcendence, of rock bottom and redemption, of getting lost and found and lost again. The raw beauty and careening energy of Denis Johnson's prose has earned this book a place among the classics of twentieth-century American literature.

The New Evolution Diet Arthur De Vany, 2011-12-20 Believe it or not, our DNA is almost exactly the same as that of our ancestors. While scientific advances in agriculture, medicine, and technology have protected man, to some degree, from dangers such as starvation, illness, and exposure, the fact remains that our cave-dwelling cousins were considerably healthier than we are. Our paleolithic ancestors did not suffer from heart disease, diabetes, high blood pressure, or obesity. In fact, a good deal of what we view as normal aging is a modern condition that is more akin to disease than any natural state of growing older. Our predecessors were incomparably better nourished than we are, and were incredibly physically fit. And certainly none of them ever craved a doughnut, let alone tasted one. In fact, the human preference for sweet tastes and fatty textures was developed in an environment where such treats were rare, and signaled dense, useful energy. This once-helpful adaptation is the downfall of many a dieter today. It's what makes it hard to resist fats and sweets, especially when they are all around us. We are not living as we were built to live. Our genes were forged in an environment where activity was mandatory—you were active or you starved or were eaten. This created strong selective pressure for genes encoding a smart, physically adept individual capable of very high

activity levels. Humans are among the most active of species, and we carry energetically expensive brains to boot. Our energy expenditures rank high among all animals. At least they once did. The New Evolution Diet by Arthur De Vany, PhD is a roadmap back to the better health our ancestors once enjoyed. By eliminating modern foods, including carbohydrates, dairy, and all processed foods from our diets, we can undo much of the damage caused by our modern food environment. The plan is based on three simple principles: 1. Enjoy the pleasure of food and do not count or restrict calories. Eat three satisfying meals a day filled with non-starchy vegetables, fruits, and high-quality, lean proteins 2. Do not starve yourself, but do go hungry episodically, for brief periods, to promote a low fasting blood insulin level and increase metabolic fat-burning. 3. Exercise less, not more, but with more playfulness and intensity. The goal is to create a strong body with a high resting metabolism and a large physiologic capacity to move through life easily—not to burn calories.

Small Victories Anne Lamott, 2014-11-10 The New York Times bestseller from the author of *Help, Thanks, Wow, Hallelujah Anyway, Almost Everything, and Dusk, Night, Dawn*. Lamott's long-awaited collection of new and selected essays on hope, joy, and grace. Anne Lamott writes about faith, family, and community in essays that are both wise and irreverent. It's an approach that has become her trademark. Now in *Small Victories*, Lamott offers a new message of hope that celebrates the triumph of light over the darkness in our lives. Our victories over hardship and pain may seem small, she writes, but they change us—our perceptions, our perspectives, and our lives. Lamott writes of forgiveness, restoration, and transformation, how we can turn toward love even in the most hopeless situations, how we find the joy in getting lost and our amazement in finally being found. Profound and hilarious, honest and unexpected, the stories in *Small Victories* are proof that the human spirit is irrepressible.

Public Policies for Fostering Entrepreneurship João Leitão, Rui Baptista, 2009-06-10
39 One of the main challenges facing the member states of the European Union (EU) is 40
the fundamental need to accept the strategic importance of entrepreneurship as a force 41
for regional development and economic growth. Definition of this urgent objective 42 is set

in the context of the European Council in Lisbon in March 2000, where there 43 was focus on other operational goals directed to improving performance in European 44 regions in terms of different variables indicating the level of economic activity, 45 particularly employment, real convergence, economic reform, and social cohesion. 46 In 2003, the European Commission (EC) initiated the public debate around the 47 need to strengthen entrepreneurship in the European Union, through publication of 48 the “Green Paper on Entrepreneurship” in Europe which raised two fundamental 49 questions for reflection by policymakers, entrepreneurs, and individuals: (a) why 50 do so few Europeans set up their own business? and (b) why are so few European 51 businesses growing? 52 Later, in the context of the 2004 Spring European Council, the European 53 Commission launched the “Entrepreneurship Action Plan” which aimed fundamen- 54 tally to: (1) change the way society views entrepreneurs, (2) create conditions to 55 encourage more individuals to become entrepreneurs, (3) allow SMEs and entre- 56 preneurs to be more competitive and assume a more important role in determining 57 growth, (4) improve conditions for access to finance by SMEs and entrepreneurs, 58

Socrates Paul Johnson, 2012-11-27 “Spectacular . . . A delight to read.” —The Wall Street Journal From bestselling biographer and historian Paul Johnson, a brilliant portrait of Socrates, the founding father of philosophy In his highly acclaimed style, historian Paul Johnson masterfully disentangles centuries of scarce sources to offer a riveting account of

Socrates, who is often hailed as the most important thinker of all time. Johnson provides a compelling picture of Athens in the fifth century BCE, and of the people Socrates reciprocally delighted in, as well as many enlightening and intimate analyses of specific aspects of his personality. Enchantingly portraying the sheer power of Socrates's mind, and its unique combination of steel, subtlety, and frivolity, Paul Johnson captures the vast and intriguing life of a man who did nothing less than supply the basic apparatus of the human mind.

How We Got to Now Steven Johnson, 2015-09-22 This book is a celebration of ideas: how they happen and their sometimes unintended results. Johnson shows how simple scientific breakthroughs have driven other discoveries through the network of ideas and innovations that made each finding possible. He traces important inventions through ancient and contemporary history, unlocking tales of unsung heroes and radical revolutions that changed the world and the way we live in it

Entrepreneurial Failure Dean A. Shepherd, 2013 Entrepreneurs act in environments of great risk and high uncertainty, and as a result, failure is a common occurrence. For this volume, Professor Shepherd has made a judicious selection of published articles, which explore the antecedents to and potential outcomes of entrepreneurial failure. By understanding these causes and consequences, entrepreneurs may become better able to manage failure, to reduce its costs and to capitalize on its benefits. With an insightful original introduction by the editor, the book provides an authoritative guide to current scholarly debate in this topical area and lays a foundation for future study.

Sick in the Head Judd Apatow, 2015-06-16 NEW YORK TIMES BESTSELLER • NAMED ONE OF THE BEST BOOKS OF THE YEAR BY THE A.V. CLUB • Includes new interviews! From the writer and director of *Knocked Up* and the producer of *Freaky and Geeks* comes a collection of intimate, hilarious conversations with the biggest names in comedy from the past thirty years—including Mel Brooks, Jerry Seinfeld, Jon Stewart, Sarah Silverman, Harold Ramis, Seth Rogen, Chris Rock, and Lena Dunham. Before becoming one of the most successful filmmakers in Hollywood, Judd Apatow was the original comedy nerd. At fifteen, he took a job washing dishes in a local comedy club—just so he could watch endless stand-up for free. At sixteen, he was hosting a show for his local high school radio station in Syosset, Long Island—a show that consisted of Q&As with his comedy heroes, from Garry Shandling to Jerry Seinfeld. They talked about their careers, the science of a good joke, and their dreams of future glory (turns out, Shandling was interested in having his own TV show one day and Steve Allen had already invented everything). Thirty years later, Apatow is still that same comedy nerd—and he’s still interviewing funny people about why they do what they do. *Sick in the Head* gathers Apatow’s most memorable and revealing conversations into one hilarious, wide-ranging, and incredibly candid collection that spans not only his career but his entire adult life. Here are the comedy legends who inspired and shaped him, from Mel Brooks to Steve Martin. Here are the contemporaries he grew up with in Hollywood, from Spike Jonze to Sarah Silverman. And here, finally, are the brightest stars in comedy today, many of whom Apatow has been fortunate to work with, from Seth Rogen to Amy Schumer. And along the way, something kind of magical happens: What started as a lifetime’s worth of conversations about comedy becomes something else entirely. It

becomes an exploration of creativity, ambition, neediness, generosity, spirituality, and the joy that comes from making people laugh. Loaded with the kind of back-of-the-club stories that comics tell one another when no one else is watching, this fascinating, personal (and borderline-obsessive) book is Judd Apatow's gift to comedy nerds everywhere. Praise for *Sick in the Head* "I can't stop reading it. . . . I don't want this book to end."—Jimmy Fallon "An essential for any comedy geek."—Entertainment Weekly "Fascinating . . . a collection of interviews with many of the great figures of comedy in the latter half of the twentieth century."—The Washington Post "Open this book anywhere, and you're bound to find some interesting nugget from someone who has had you in stitches many, many times."—Janet Maslin, The New York Times "An amazing read, full of insights and connections both creative and interpersonal."—The New Yorker "Fascinating and revelatory."—Chicago Tribune "Anyone even remotely interested in comedy or humanity should own this book."—Will Ferrell

Technology Entrepreneurship Thomas N. Duening, Robert A. Hisrich, Michael A. Lechter, 2009-10-21 Recognizing the unique needs of the technology startup, Duening focuses on intellectual property development, funding, and marketing/selling more than other texts in this market. Extensive use of technology examples, case studies, and assignments keeps the book relevant and motivating for engineering students. Rich in case studies, examples, and in-chapter elements that focus on the challenges of launching and operating a technology venture In-depth examination of intellectual property development, valuation, deal structuring, and equity preservation, issues of most relevance to technology start-ups Extensive discussion of technology management and continuous innovation as a

competitive advantage Addresses the issue of leading, managing, motivating, and compensating technical workers More time on the fundamentals of marketing and selling, as these are elements of entrepreneurship commonly most neglected by engineers and scientists

The Surrender Experiment Michael A. Singer, 2016-09-22 Michael A. Singer, author of *The Untethered Soul*, tells the extraordinary story of what happened when, after a deep spiritual awakening, he decided to let go of his personal preferences and simply let life call the shots. As Singer takes you on this great experiment and journey into life's perfection, the events that transpire will both challenge your deepest assumptions about life and inspire you to look at your own life in a radically different way. Spirituality is meant to bring about harmony and peace. But the diversity of our philosophies, beliefs, concepts, and views about the soul often leads to confusion. To reconcile the noise that clouds spirituality, Michael Singer combines accounts of his own life journey to enlightenment - from his years as a hippie-loner to his success as a computer program engineer to his work in spiritual and humanitarian efforts - with lessons on how to put aside conflicting beliefs, let go of worries, and transform misdirected desires. Singer provides a road map to a new way of living not in the moment, but to exist in a state of perpetual happiness.
