The Mental Game of Poker 2 Jared Tendler, Barry Carter, 2023-03 Imagine the edge you would have if you consistently played poker in the zone. You make all the right decisions, know instinctively when to bluff, and are unfazed by a losing hand. You're locked in and feel unbeatable. It's shocking how many poker players stumble into this elusive state of mind. As quickly as that euphoric feeling of invincibility arrives, it's gone. And no matter how hard they try, they can't get back there. Until now. In *The Mental Game of Poker 2*, author and renowned poker mental game coach Jared Tendler breaks down the zone and delivers actionable steps to help players get there consistently. He demystifies the zone, and for the first time, brings logic and order to this previously misunderstood concept. Above all, Tendler's straightforward, client-tested approach will have you playing at higher levels than you ever thought possible. This book provides proven strategies to: *Consistently play in the zone. *Play poker longer and across more online tables. *Improve decision making. *Learn faster. *Eliminate C-game mistakes. *Increase focus and discipline. Poker is constantly evolving and is as cutthroat as ever. Whether you're at the top of the game or just starting out, you should be looking for new and better ways to keep up and outpace your opponents. *The Mental Game of Poker 2* arms you with the tools to thrive in today's increasingly competitive environment. It expands on the psychological strategies and theories from Tendler's groundbreaking book, *The Mental Game of Poker*, which cracked the code on managing tilt and has helped thousands of players eliminate mental leaks from their games. Like the first book, *The Mental Game of Poker 2* is a must have resource for every poker player who is serious about improving their game.

World Series Poker Powerball Secrets, World Poker, 2018-04-21 PROVEN METHODS And Strategies To Winning WORLD Series Texas HOLD'EM Poker Tournament! The beginning When playing Texas Hold'em poker, every player is dealt two cards face down - these are called your 'hole cards'. Then there is a round of betting where you can Check, Bet or Fold. This stage of the game is known as pre-flop and what you should do is dependent on those hole cards, or starting hand. When all the betting has finished three shared cards are dealt face up in the middle of the table. This is called the flop. The flop The middle After this there is another round of betting, then a fourth shared card - called the turn - is dealt. The turn There is another round of betting then a final shared card - called the river - and a final round of betting. The river Your best Texas Hold'em hands will be made by using your hole cards and the five cards in the middle to make the best possible five card poker hand. Not sure what the best Texas Hold'em poker hands are? You can visit the poker hand rankings page for more information! So, for example, if you have 9-9 and the shared cards are 9-9-A-5-2 you have four-of-a-kind. If the shared cards were J-Q-K-7-2 you would only have two nines. Sometimes the best Texas hold'em hand is made by the five shared cards on their own. If they were 10-10-10-10-A and you had 9-9 your hole cards would not play as there is a four-of-a-kind of higher value already showing. The end There are two ways a hand can end. One is when the players in a hand turn over their hole cards and the player with the best hand wins. This is known as a showdown. The other is that someone will bet enough that everyone else folds. This is how most hands end in Texas Hold'em and that's the magic of the game - you don't always need the best hand to win. Now let's recap... Okay, let's go over how a Texas Hold'em poker hand works using only poker slang and see if you can keep up. Firstly, you are dealt your hole cards. Then there is a round of betting. Then the players remaining see a flop. Then there is another round of betting. Then you see a turn card. Then another round of betting. Then a final river card. Then one more round of betting. The best five card hand wins. Clear? Excellent. If not, have a read of our Poker Glossary. Comfortable with the rules so far? Ok Then Here's a few Tips; To be a truly great Texas Hold 'Em Poker player, you need to be able to read your opponents, ascertaining when they are bluffing and then they really have a solid hand. But learning some basic strategies and general rules will go a long way toward making sure you can at least hold your own in a friendly game. Two Things to Always Remember It may seem silly to be reminded of the following fundamental facts, but it's surprising how often players get swept up in the excitement of the game and forget the basics. 1. The two cards you hold are the only cards that set you apart from the other players and give you the chance to win. 2. All of the face-up cards are community cards, shared by

you and every other player. It's vital that you focus on what those cards could mean to someone else at least as much as you focus on what they mean to you. In particular, keep your eyes open for your opponents' straight and flush possibilities. Usually, the first decision you make in a hand of Texas Hold 'Em Poker happens with your only knowledge being what your two cards are. When you look at your cards, be careful not to reveal anything with your reaction -- facial or otherwise. Taking a sharp breath, no matter how quietly you do it, can tell a wily opponent all he needs to know to have an advantage over you. . How do you know if your cards are good?
