**The Loneliest Polar Bear** Kale Williams, 2021-03-23 “A moving story of abandonment, love, and survival against the odds.”—Dr. Jane Goodall The heartbreaking and ultimately hopeful story of an abandoned polar bear cub named Nora and the humans working tirelessly to save her and her species, whose uncertain future in the accelerating climate crisis is closely tied to our own Six days after giving birth, a polar bear named Aurora got up and walked away from her den at the Columbus Zoo, leaving her tiny squealing cub to fend for herself. Hours later, Aurora still hadn't returned. The cub was furless and blind, and with her temperature dropping dangerously, the zookeepers entrusted with her care felt they had no choice: They would have to raise one of the most dangerous predators in the world by hand. Over the next few weeks, a group of veterinarians and zookeepers worked around the clock to save the cub, whom they called Nora. Humans rarely get as close to a polar bear as Nora's keepers got to their fuzzy charge. But the two species have long been intertwined. Three decades before Nora's birth, her father, Nanuq, was orphaned when an Inupiat hunter killed his mother, leaving Nanuq to be sent to a zoo. That hunter, Gene Agnaboogok, now faces some of the same threats as the wild bears near his Alaskan village of Wales, on the westernmost tip of the North American continent. As sea ice diminishes and temperatures creep up year after year, Agnaboogok and the polar bears—and everyone and everything else living in the far north—are being forced to adapt. Not all of them will succeed. Sweeping and tender, *The Loneliest Polar Bear* explores the fraught relationship humans have with the natural world, the exploitative and sinister causes of the environmental mess we find ourselves in, and how the fate of polar bears is not theirs alone.

When the Blue-green Waters Turn Red , 1996

*PENGUINS: Evanescent Light* Ian Parker, 2016-02-17 A lavish compilation of photographs taken during three months on the Antarctic Peninsula, South Georgia and the Falkland Islands. Nine species of penguins are featured (Adele, African, Chinstrap, Gentoo, King, Macaroni, Magellanic, Rockhopper and Yellow-Eyed), capturing their fascinatingly diverse behaviors within the spectacular landscapes of their natural environments.

**The Nature Fix: Why Nature Makes Us Happier, Healthier, and More Creative** Florence Williams, 2017-02-07 Highly informative and remarkably entertaining. —Elle From forest trails in Korea, to islands in Finland, to eucalyptus groves in California, Florence Williams investigates the science behind nature's positive effects on the brain. Delving into brand-new research, she uncovers the powers of the natural world to improve health, promote reflection and innovation, and strengthen our relationships. As our modern lives shift dramatically indoors, these ideas—and the answers they yield—are more urgent than ever.

**On Beauty and Being Just** Elaine Scarry, 2013-03-21 Have we become beauty-blind? For two decades or more in the humanities, various political arguments have been put forward against beauty: that it distracts us from more important issues; that it is the handmaiden of privilege; and that it masks political interests. In *On Beauty and Being Just* Elaine Scarry not only defends beauty from the political arguments against it but also argues that beauty does indeed press us toward a greater concern for justice. Taking inspiration from writers and thinkers as diverse as Homer, Plato, Marcel Proust, Simone Weil, and Iris Murdoch as well as her own experiences, Scarry offers up an elegant, passionate manifesto for the revival of beauty in our intellectual work as well as our homes, museums, and classrooms. Scarry argues that our responses to beauty are perceptual events of profound significance for the individual and for society. Presenting us with a rare and exceptional opportunity to witness fairness, beauty assists us in our attention to justice. The beautiful object renders fairness, an abstract concept, concrete by making it directly available to our sensory perceptions. With its direct appeal to the senses, beauty stops us, transfixes us, fills us with a surfeit of aliveness. In so doing, it takes the individual away from the center of his or her self-preoccupation and thus prompts a distribution of attention outward toward others and, ultimately, she contends, toward ethical fairness. Scarry, author of the landmark *The Body in Pain* and one of our bravest and most creative thinkers, offers us here philosophical critique written with clarity and conviction as well as a passionate plea that we change the way we think about beauty.

**The Grand Canyon** Eliot Porter,1992

**Cool for America** Andrew Martin,2020-07-07 Expanding the world of his classic-in-the-making debut novel *Early Work*, Andrew Martin's *Cool for America* is a hilarious collection of overlapping stories that explores the dark zone between artistic ambition and its achievement. The collection is bookended by the misadventures of Leslie, a young woman (first introduced in *Early Work*) who moves from New York to Missoula, Montana to try to draw herself out of a lingering depression, and, over the course of the book, gains painful insight into herself through a series of intense friendships and relationships. Other stories follow young men and women, alone and in couples, pushing hard against, and often crashing into, the limits of their abilities as writers and partners. In one story, two New Jersey siblings with substance-abuse problems relapse together on Christmas Eve; in another, a young couple tries to make sense of an increasingly unhinged veterinarian who seems to be tapping, deliberately or otherwise, into the unspoken troubles between them. In tales about characters as they age from punk shows and benders to book clubs and art museums, the promise of community acts—at least temporarily—as a stay against despair. Running throughout *Cool for America* is the characters' yearning for transcendence through art: the hope that, maybe, the perfect, or even just the good-enough sentence, can finally make things right.

**It Must Be Art** Michael Fishel,Nigel Suckling,2018-07-28 Throughout the 1960s and 70s, London-based Big O Posters helped define the new and democratic art medium of the psychedelic poster, a vehicle for rebellion against the old order that went hand in hand with the music, literature, and film of the time. This is a comprehensive collection of works published by Big O artists, astonishingly creative folks whose artistry developed almost completely outside the influence of the art establishment. Included in more than 300 images are works by 19 artists, including Martin Sharp, Roger Dean, H.R. Giger, Robert Venosa, and Vali Myers whose signature styles include sci-fi, fantasy, visionary, botanical, and surrealism. In addition to hundreds of original works, this book digs below the surface to offer insights and anecdotes about the era, the artistic process, and reveals connections to artists from the past (Aubrey Beardsley, Alphonse Mucha, Kay Nielsen) whose spirit chimed with the age of Big O Posters.

**They Can't Kill Us Until They Kill Us** Hanif Abdurraqib,2017-11-14 \* 2018 12 best books to give this holiday season —TODAY (Elizabeth Acevedo) \* A Best Book of 2017 —Rolling Stone (2018), NPR, BuzzFeed, Paste Magazine, Esquire, Chicago Tribune, Vol. 1 Brooklyn, CBC, Stereogum, National Post, Entropy, Heavy, Book Riot, Chicago Review of Books, The Los Angeles Review, Michigan Daily \* American Booksellers Association (ABA) 'December 2017 Indie Next List Great Reads' \* Midwest Indie Bestseller In an age of confusion, fear, and loss, Hanif Abdurraqib's is a voice that matters. Whether he's attending a Bruce Springsteen concert the day after visiting Michael Brown's grave, or discussing public displays of affection at a Carly Rae Jepsen show, he writes with a poignancy and magnetism that resonates profoundly. In the wake of the nightclub attacks in Paris, he recalls how he sought refuge as a teenager in music, at shows, and wonders whether the next generation of young Muslims will not be afforded that opportunity now. While discussing the everyday threat to the lives of Black Americans, Abdurraqib recounts the first time he was ordered to the ground by police officers: for attempting to enter his own car. In essays that have been published by the New York Times, MTV, and Pitchfork, among others—along with original, previously unreleased essays—Abdurraqib uses music and culture as a lens through which to view our world, so that we might better understand ourselves, and in so doing proves himself a bellwether for our times.

**Deception Point** Dan Brown,2019-07-30 From the #1 New York Times bestselling author of *The Da Vinci Code*, *Angels & Demons*, and *Inferno* and the “master of smart thrills” (People) comes a “rocket-fast thriller” (Vince Flynn) about an astonishing NASA discovery that unravels a deadly conspiracy that leads all the way to the White House. When a NASA satellite spots evidence of an astoundingly rare object buried deep in the Arctic ice, the floundering space agency proclaims a much-needed victory—one that could have profound implications for US space policy and the impending presidential election. With his re-election hanging in the balance, the President sends White House Intelligence analyst Rachel Sexton to the Milne Ice Shelf to verify the authenticity of the find. Accompanied by a team of experts, including the charismatic academic Michael Tolland, Rachel uncovers the unthinkable: evidence of scientific trickery. Before she can contact the President, she and Michael are attacked by a deadly team of assassins controlled by a mysterious power broker who will stop at nothing to hide the truth. Fleeing for their lives in an environment as desolate as it is lethal, their only hope for survival is to find out who is behind this masterful ploy. The truth, they will learn, is the most shocking deception of all in this “taut, fast-paced, barn-burner of a book” (St. Petersburg Times).

*Earth Is My Witness* Art Wolfe,2017-10-31 Art Wolfe’s definitive opus, *Earth Is My Witness* represents forty years of expeditionary photography. For the first time, Wolfe presents the three subjects at the heart of his work—landscapes, wildlife, and cultures on the edge of extinction—in a single masterpiece that takes us through the world’s ecosystems and geographical regions in a vivid display of the fragility and interconnectivity of life on Earth, while simultaneously exploring his evolution as an artist and the techniques he uses to capture the nuances and rhythms of nature. *Earth Is My Witness* is the most extensive collection of Art Wolfe photography ever compiled. This lavishly produced work spans the globe, bringing the beauty of the planet’s fast-disappearing landscapes, wildlife, and cultures into stunning focus. Containing unpublished work from throughout Wolfe’s widely celebrated career, *Earth Is My Witness* offers a riveting and comprehensive look at the world’s ecosystems and geographical regions. Here Wolfe presents an encyclopedic selection of his photography along with intimate stories that exemplify his boundless curiosity. From the rich sights and smells of the Pushkar Camel Fair to the exact moment when a polar bear and her cubs leave their Arctic den, these images represent what Wolfe has lived for: moments when circumstance, light, and subject miraculously collide to form an iconic image. These photographs and the stories behind them explore the delicate interconnectivity of life across our planet. Setting the stage for this fascinating journey is award-winning author Wade Davis. Together, photographer and author present a world that borders on the fantastic but is all the more precious for its fragility. At the heart of Wolfe’s work is the appeal for environmental, cultural, and wildlife preservation, which he makes with beautiful, far-reaching precision in this definitive opus.

*Intimate Landscapes* Eliot Porter,1979 Intimate Landscapes, an exhibition of fifty-five color photographs by Eliot Porter, is the first one-man exhibition of color photographs ever presented at The Metropolitan Museum of Art. Works by Eliot Porter entered the Museum's collection as far back as 1949, when Georgia O'Keeffe presented from the Estate of Alfred Stieglitz an important collection of photographs assembled by Stieglitz himself. This collection included three early black and white prints by Eliot Porter, one of which is reproduced in this catalogue. All the photographs in the present exhibition brilliantly reflect the standards of excellence that are Eliot Porter's greatest contribution to the field of color photography. Upon seeing these photographs, the viewer is immediately struck by the artist's distinctly individual and intimate interpretation of the natural world.
