How to Paint Like the Impressionists Susie Hodge,2004-08-17 Impressionism has captured the imagination of people the world over since its first exhibition in Paris in 1874. People have long sought to understand how and why the Impressionists created their paintings and how their techniques might be replicated. Susie Hodge reveals the answers to these questions by assessing the techniques and styles of the great masters of Impressionism and showing how artists today can use their methods. An informative introduction explains how the Impressionist movement came about, explores its historical context, and defines the style and inspiration of the artists involved. The heart of the book, however, focuses on eight major Impressionist painters -- Monet, Pissarro, Renoir, Cassatt, Degas, Cezanne, Seurat and Van Gogh -- revealing how they worked and analyzing their well-known paintings. Each case includes step-by-step demonstrations that show the reader exactly how to re-create Impressionist painting details in appropriate style.

Impressionism Véronique Bouruet Aubertot,2017-10-10 A comprehensive, accessible, and richly illustrated guide to impressionism—the perennially popular artistic movement that led to the radical renewal of Western art. Monet, Renoir, Degas, Rodin, Cezanne, Van Gogh, and the other Impressionist artists burst onto the art scene in the second half of the nineteenth century, creating shock waves with their rebellious rejection of the academy's strict rules dictating subject matter, style, and even color. Their art, labeled impressionism, coincided with the Industrial Revolution, when the world was suddenly jettisoned into modernity. The young artists who gave rise to the movement confronted public disdain and oppression in Europe, but were applauded overseas for their radically

contemporary aesthetic. This complete and accessible guide renews and refreshes conventional views on impressionism by placing this seminal moment in art in its historical context. Emblematic masterpieces are examined with a focus on each detail, allowing a deeper understanding and appreciation of the artworks. Biographies of all the major artists of the movement provide insight about their life and significant works, and period photographs illustrate this incredibly rich and exciting time in art history. Organized thematically, the guide includes chapters on photography, fashion, female impressionists, exhibitions, galleries and dealers, writers, the movement's influence on later artists, and recurrent impressionist themes including leisure activities, the garden, the city, and industry. Replete with illustrations and numerous firsthand accounts and quotations, this book recounts a story of emancipation.

The Age of American Impressionism Judith A. Barter, 2011 The Art Institute of Chicago, although renowned for its holdings of works by the French Impressionists, also houses a wealth of superb examples by American proponents of this distinctive style. The breadth of the museum's collection of American Impressionism is rich, with a substantial body of paintings and watercolors by Winslow Homer, who is seen today as a precursor to Impressionism, as well as impressive portfolios of work by Americans living in Europe, such as James McNeill Whistler and John Singer Sargent, and the only American who was officially part of the French group, Mary Cassatt. In addition, important paintings and watercolors by notable artists such as Cecilia Beaux, William Merritt Chase, Childe Hassam, George Inness, Mauric Prendergast, and John Twachtman are included, along with handsomely reproduced images by lesser-known artists who worked in the Impressionist vein. Distributed for the Art Institute of Chicago

Impressionists Side by Side Barbara Ehrlich White, 1996 Examines the personal and professional relationships between seven pairs of Impressionist artists such as Degas, Renoir, and Monet.

Monet Claude Monet, 1992

Birth of Impressionism Krista Brugnara, 2010 This volume contains a collection of one hundred works by the masters of nineteenth-century French painting telling the story of the Impressionist movement that changed the way artists view the world and the way the world views art. This book tells the story of the beloved Impressionist movement, focusing on the tumultuous period of the 1860s and 1870s and the emergence of the New Painting out of the Paris Salon. Reproductions of French painting masterpieces from the canvases of Bouguereau to the landscapes and peasant scenes of Millet and Courbet set the stage for a rich visual narrative that recounts the incubation and evolution of the Impressionist movement. The range of subject matter and techniques reflects the stylistic diversity of the artists who were part of this revolution. This work includes paintings by Manet, Monet, Renoir, Pissarro, Cezanne, Morisot, and Degas, among others. The paintings have been selected and thematically grouped to prompt discussion of Impressionism's many facets, including France's turbulent social and political climate at the time, the state-run Salon system and the artistic rivalries it fostered, and aspects of daily life during the Belle Epoque.

Impressionism and the Modern Landscape James H. Rubin, 2008-04-03 The examples convey not only these major themes but also the painters' belief in the progress of civilization through science and industry. The book thus expands the scope of Impressionist celebrations of modernity to include what might be called Impressionism's other landscape and proposes that in the Impressionists' effort to forge a modern landscape art, those signs of modernity defined their vision most clearly.--BOOK JACKET.

Mary Cassatt Nancy Mowll Mathews, Pierre Curie, 2018 During her lifetime, Mary Cassatt (1844-1926) achieved great fame in both France and America. But while she is still highly regarded in the United States, she is now somewhat overlooked in France, where she lived and worked for more than sixty years and where she became the only American artists to exhibit with the Impressionists in Paris. The exhibition 'Mary Cassatt: An American Impressionist in Paris', held in the Musée Jacquemart-André, is the first retrospective dedicated to the painter in France since her death. The exhibition will bring together around fifty major works on loan from museums and institutions ... Oils,

pastels, and prints retrace Cassatt's entire career, explore the modernity of her approach, and show how she became one of the leading figures of the avant-garde movement of her day. This catalogue, which complements the exhibition, presents the various facets of an artist who had a complex career: a classically trained painter who became an Impressionist, the brilliant creator of the 'Modern Madonna', and a tireless experimenter, Cassatt was also an ardent supporter of women's suffrage. This catalogue aims to restore Cassatt to her rightful place in the history of modern art.

Growing Up with the Impressionists Julie Manet, 2017-08-24 Julie Manet, the niece of Edouard Manet and the daughter of the most famous female Impressionist artist, Berthe Morisot, was born in Paris on 14 November 1878 into a wealthy and cultured milieu at the height of the Impressionist era. Many young girls still confide their inner thoughts to diaries and it is hardly surprising that, with her mother giving all her encouragement, Julie would prove to be no exception to the rule. At the age of ten, Julie began writing her 'memoirs' but it wasn't until August 1893, at fourteen, that Julie began her diary in earnest: no neat leather-bound volume with lock and key but just untidy notes scribbled in old exercise books, often in pencil, the presentation as spontaneous as its contents. Her extraordinary diary - newly translated here by an expert on Impressionism - reveals a vivid depiction of a vital period in France's cultural history seen through the youthful and precocious eyes of the youngest member of what was surely the most prominent artistic family of the time.
