Life Cycle Networks Frank-Louthar Krause,G. Seliger,2012-12-06 The globalisation of markets and the expansion of product responsibility into the entire product life cycle lead to an increasing competitive situation for nationally and internationally operating companies. Therefore, to win this competition the use of the most effective and efficient resources regarding the whole product life cycle is necessary. Since these resources are globally distributed the different tasks both within a phase of product life cycle and those spread over different phases are distributed as well. The global interference of these tasks requires a close multilateral co-operation of the companies concerned. Current information- and communication technologies and modern management concepts offer high potentials to meet these requirements. The international seminar of CIRP on Life Cycle Engineering titled Life Cycle Networks was a forum for the presentation and discussion of current research work and recent advancements on these strategic issues for current and future engineering. Complex requirements and innovative solutions to support and realise Life Cycle Networks has been revealed and summerised. The employment of information technology to support both specific phases of product life cycle and holistic approaches will be the main focus. This volume contains the papers presented at the seminar which provide opportunities to identify the state-of-the-art and address future needs. The parts in this volume correspond to the sessions of the seminar and are presented under the following headings: Life Cycle Management; Life Cycle Design; Design for Environment; Design for Recycling; Life Cycle Assessment; Disassembly; IT-Networks.

Trik Mengawasi PC Orang Lain ,

90 Trik Rahasia Browser Papan Atas Dunia Jubilee Enterprise,2013-03-14 Mungkin Anda sudah terbiasa menggunakan web browser untuk menjelajah internet. Namun, apakah Anda telah benar-benar memanfaatkan secara maksimal fasilitas-fasilitas dan fitur-fitur yang ada di dalam web browser

Эффективный Интернет. Трюки и эффекты Баловсяк Надежда Васильевна,Болушевский Сергей Владимирович,2009-04-30 Интернет — «среда обитания» человека, в которой просто жизненно необходимо работать эффективно. А это порой очень трудно — среди сотен новых программ и постоянно совершенствующихся сервисов. Данная книга является посредником между разработчиками программного обеспечения и пользователями. Она сориентирует вас во всем многообразии программ, подскажет неочевидные решения обыденных задач, нетривиальные подходы к проблемам, что позволит вам сэкономить свое драгоценное время. В книге описываются практически все аспекты Глобальной сети: от эффективного подключения и выбора браузера до развлечения и зарабатывания денег. Учитывая постоянно возрастающую мобильность современного общества, особое внимание уделяется использованию Интернета через мобильный телефон, а также новому веянию в моде программного обеспечения — портативному софту. Кроме того, в книге рассматриваются некоторые полезные и уникальные сервисы, а также приводятся интересные факты, касающиеся психологии пользователей Сети.

Knowledge Intensive CAD Martti Mäntylä,Susan Finger,Tetsuo Tomiyama,2013-03-19 Computer Aided Design (CAD) technology plays a key role in today's advanced manufacturing environment. To reduce the time to market, achieve zero defect quality the first time, and use available production and logistics resources effectively, product and design process knowledge covering the whole product life-cycle must be used throughout product design. Once generated, this intensive design knowledge should be made available to later life-cycle activities. Due to the increasing concern about global environmental issues and rapidly changing economical situation worldwide, design must exhibit high performance not only in quality and productivity, but also in life-cycle issues, including extended producer's liability. These goals require designers and engineers to use various kinds of design knowledge intensively during product design and to generate design information for use in later stages of the product life-cycle such as production, distribution, operation, maintenance, reclamation, and recycling. Therefore, future CAD systems must incorporate product and design process knowledge, which are not explicitly dealt with in the current systems, in their design tools and design object models.

Most Wanted Untuk Media USB ,

Альтернативные браузеры Сергей Топорков,2022-01-29 С каждым годом число пользователей Internet растет. Однако в ответ на вопрос «Какие браузеры вам известны?» большинство из них назовет в лучшем случае четыре-пять программ. Как правило, первым вспоминается Microsoft Internet Explorer – обозреватель Web-страниц, встроенный в систему Windows и потому завоевавший огромную популярность.Но, к сожалению, наиболее широко распространенные программы чаще всего становятся «мишенью» для хакеров, спаммеров и создателей вирусов. Поэтому нелишне познакомиться с продуктами, которые представляют неплохую альтернативу «классическому» IE. В данной книге вы найдете подробное описание программ Opera, Mozilla, Mozilla Firefox со всеми их достоинствами и недостатками. Ну, а тем, кто не хочет отказываться от работы с Internet Explorer, предлагается познакомиться с надстройками, значительно расширяющими набор функций этого браузера.

Distributed Applications and Interoperable Systems Kostas Magoutis,Peter Pietzuch,2014-05-22 This book constitutes the proceedings of the 14th IFIP International Conference on Distributed Applications and Interoperable Systems, DAIS 2014, held in Berlin, Germany, in June 2014. The 12 papers presented in this volume were carefully reviewed and selected from 53 submissions. They deal with cloud computing, replicated storage, and large-scale systems.

Работа в Интернете. Энциклопедия Ташков П А, С помощью этой книги вы освоите широкие возможности Интернета. Энциклопедия расскажет вам об Интернете все!

Cloud Computing Nick Antonopoulos,Lee Gillam,2017-06-02 This practically-focused reference presents a comprehensive overview of the state of the art in Cloud Computing, and examines the potential for future Cloud and Cloud-related technologies to address specific industrial and research challenges. This new edition explores both established and emergent principles, techniques, protocols and algorithms involved with the design, development, and management of Cloud-based systems. The text reviews a range of applications and methods for linking Clouds, undertaking data management and scientific data analysis, and addressing requirements both of data analysis and of management of large scale and complex systems. This new edition also extends into the emergent next generation of mobile telecommunications, relating network function virtualization and mobile edge Cloud Computing, as supports Smart Grids and Smart Cities. As with the first edition, emphasis is placed on the four quality-of-service cornerstones of efficiency, scalability, robustness, and security.

Strategic Decision Making in Modern Manufacturing Harinder Singh Jagdev,Attracta Brennan,J. Browne,2013-06-29 Strategic Decision Making in Modern Manufacturing introduces and explains the AMBIT (Advanced Manufacturing Business ImplemenTation) approach, which has been developed to bridge the gap between strategic management considerations and the operational effects of technology investment decisions on the manufacturing organisation, so that the likely impact of new manufacturing technology and/or programme implementations can be evaluated, anticipated and accurately predicted. The AMBIT approach focuses specifically on the non-financial aspects of such investment decisions and offers an approach that allows a manager, or more frequently a management team, to understand the impacts of a new technology or a new programme on the manufacturing organisation in terms of manufacturing performance.

Advances in Blended Learning Elvis Wai Chung Leung,Fu Lee Wang,Lanfang Miao,Jianmin Zhao,Jifeng He,2008-12-02 The Second Workshop of Blended Learning (WBL 2008), as part of the 7th Inter- tional Conference on Web-Based Learning (ICWL 2008), was held in Zhejiang N- mal University, Jinhua, Zhejiang, China during August 20–22, 2008. WBL 2008 provided an international forum for the dissemination of original results in the design, implementation, and evaluation of blended learning systems and related areas. In particular, the aim of WBL 2008 was to bring together researchers from academia as well as commercial developers from industry to explore ideas, exchange and share experiences, and further build the blended learning research network. The inspirations and new ideas were expected to emerge from intensive discussions during formal sessions and social activities. The main focus of WBL 2008 was on the most critical areas of blended learning, namely, ‘e-Learning Platforms and Tools,’ ‘Design, Model and Framework of e- Learning Systems,’ ‘Practice and Experience Sharing,’ and ‘Pedagogical Issues.’ In total, the workshop selected 17 papers from authors of different countries for presen- tion and publication, a task which was not easy due to the high quality of the subm- ted papers. Using stringent selection criteria, submissions were rigorously reviewed based on their originality, significance, relevance, and clarity of presentation by an international Program Committee from Germany, Spain, UK, Italy, Ireland, Romania, Hong Kong, Japan, Taiwan, and Macao.

Advances in Digital Forensics X Gilbert Peterson,Sujeet Shenoι,2014-10-09 Digital forensics deals with the acquisition, preservation, examination, analysis and presentation of electronic evidence. Networked computing, wireless communications and portable electronic devices have expanded the role of digital forensics beyond traditional computer crime investigations. Practically every crime now involves some aspect of digital evidence; digital forensics provides the techniques and tools to articulate this evidence. Digital forensics also has myriad intelligence applications. Furthermore, it has a vital role in information assurance -- investigations of security breaches yield valuable information that can be used to design more secure systems. Advances in Digital Forensics X describes original research results and innovative applications in the discipline of digital forensics. In addition, it highlights some of the major technical and legal issues related to digital evidence and electronic crime investigations. The areas of coverage include: - Internet Crime Investigations; - Forensic Techniques; - Mobile Device Forensics; - Forensic Tools and Training. This book is the 10th volume in the annual series produced by the International Federation for Information Processing (IFIP) Working Group 11.9 on Digital Forensics, an international community of scientists, engineers and practitioners dedicated to advancing the state of the art of research and practice in digital forensics. The book contains a selection of twenty-two edited papers from the 10th Annual IFIP WG 11.9 International Conference on Digital Forensics, held in Vienna, Austria in the winter of 2014. Advances in Digital Forensics X is an important resource for researchers, faculty members and graduate students, as well as for practitioners and individuals engaged in research and development efforts for the law enforcement and intelligence communities.
