

# Greenpeace 1

Paul Driessen

**Greenpeace** Rex Weyler, 2004 Greenpeace - the uniting of the 'green' and the 'peace' movements - is a pressure group that has changed the world and changed our perceptions of protest. Greenpeace founder Rex Weyler reveals what went on behind the epic Greenpeace protests.

**The Greenpeace to Amchitka** Robert Hunter, 2005-04-01

Greenpeace is known around the world for its activism and education surrounding environmental and biodiversity issues. With a presence in more than 40 countries across Europe, the Americas, Asia and the Pacific, Greenpeace is undoubtedly a dominant force in the realm of environmental activism. This is the story of how Greenpeace came to be. In September 1971, a small group of activists boarded a small fishing boat in Vancouver, Canada, and headed north towards Amchitka, a tiny island west of Alaska in the Aleutian Islands, where the US government was conducting underground nuclear tests. At that time, protests against nuclear testing were not common, yet the US tests raised genuine concerns: Amchitka is not only the last refuge for endangered wildlife, but is also located in a geologically unstable region, one of the most earthquake-prone areas in the world. The threat of a nuclear-triggered earthquake or tsunami was real. Among the people sardined in the fishing boat were Robert Hunter and Robert Keziere. The boat, named the Greenpeace by the small group of men aboard, raced against time as it crashed through the Gulf of Alaska, braving the oncoming winter storms. Three weeks was all they had to reach Amchitka in an attempt to halt the nuclear test. Ultimately, the voyage—beset by bad weather, interpersonal tensions and conflicts with US officials—was doomed. And yet the legacy of that journey lives on. In this visceral memoir, based on a manuscript

originally written over 30 years ago, Robert Hunter vividly depicts the peculiar odyssey that led to the formation of the most powerful environmental organization in the world. Features 40 black and white photographs taken during the voyage by Robert Keziere.

Warriors of the Rainbow Robert Hunter, 1979 The first complete account of Greenpeace, a movement initiated in 1970 when a handful of Canadian activists founded an organization devoted to improving ecological conditions and denouncing nuclear weaponry. Today thousands of people on every continent continue to support the cause. These participants in the crusades to prevent unnecessary mass killings of whales and seals and in the atomic bomb testing debacles at Amchitka and Mururoa have risked their lives, their careers, their marriages, and their freedom in what has become one of the most active and vocal crusades of the twentieth century--back cover.

**The Greenpeace Guide to Anti-environmental Organizations** Greenpeace USA., Carl Deal, 1993 Since most Americans today consider themselves environmentalists, ecologically destructive industries are now creating elaborate front groups that masquerade as environmental organizations. In this ground-breaking book, Greenpeace writer Carl Deal lists these groups, their real agendas and, where possible, their corporate sponsors. An eye-opener for anyone who's concerned about the environment.

*Don't Trust, Don't Fear, Don't Beg* Ben Stewart, 2013-09-10 The true story of Greenpeace activists imprisoned in Russia—and the fight to free them: “A gripping story of tremendous courage that reads like a thriller” (Naomi Klein). “The most important prison motto is hope for the better, but every moment, literally every moment, be prepared for the worst. Don’t hope, don’t fear, don’t beg.” —Roman Dolgov, one of the Arctic 30 With rising temperatures, a military

arms race, and a multi-national rush to exploit resources at any cost, the Arctic is now the stage on which our future will be decided. As the ice melts, Vladimir Putin orders Russia's oil rigs to move further north. But one early September morning in 2013, thirty men and women from eighteen countries—the crew of Greenpeace's Arctic Sunrise—decided to draw a line in the ice and protest Arctic drilling. Thrown together by a common cause, they are determined to stop Putin and the oligarchs. But their protest is met with brutal force as Russian commandos seize the Arctic Sunrise. Held under armed guard by masked men, they are charged with piracy and face fifteen years in Russia's nightmarish prison system. Journalist and activist Ben Stewart spearheaded the campaign to release the Arctic 30. Now he tells their astonishing story—a tale of passion, courage, brutality, and survival. With wit, verve, and candor, Stewart chronicles the extraordinary friendships the activists made with their often murderous cellmates, their battle to outwit the prison guards, and the struggle to stay true to the cause that brought them there. “With its colorful dialogue, moral dilemmas, and scenes of physical danger, Stewart's book would make a great movie . . . the prison life the book reveals is eye-opening, and Stewart describes it with great verve.”

—Foreign Affairs

**Make It a Green Peace!** Frank Zelko, 2013-04-03 The emergence of Greenpeace in the late 1960s from a loose-knit group of anti-nuclear and anti-whaling activists fundamentally changed the nature of environmentalism--its purpose, philosophy, and tactics--around the world. And yet there has been no comprehensive objective history of Greenpeace's origins-until now. *Make It a Green Peace!* draws upon meeting minutes, internal correspondence, manifestos, philosophical writings, and interviews with former members to offer the first full

account of the origins of what has become the most recognizable environmental non-governmental organization in the world. Situating Greenpeace within the peace movement and counterculture of the 1960s, Frank Zelko provides a much deeper treatment of the group's groundbreaking brand of radical, media-savvy, direct-action environmentalism than has been previously attempted. Zelko traces the complex intellectual and cultural roots of Greenpeace to the various protest movements of the 1950s and 1960s, highlighting the influence of Quakerism--with its practice of bearing witness--Native American spirituality, and the non-violent resistance of Gandhi. Unlike the more strait-laced, less confrontational Sierra Club and Audubon Society, early Greenpeacers smoked dope, dropped acid, wore their hair long, and put their bodies on the line--interposing themselves between the harpoons of whalers and the clubs of seal-hunters--to save the animals and achieve what they hoped would be a lasting transformation in the way humans regarded the natural world. And while it may not have achieved its most revolutionary goals, Greenpeace inarguably created a heightened awareness of environmental issues that endures to this day. Narrating the key campaigns and arguments among the group's early members, *Make It a Green Peace!* vividly captures all the drama, pathos, and occasional moments of absurd comic relief of Greenpeace's tumultuous first decade.

*Warrior* Pete Wilkinson, Julia Schofield, 1994 Pete Wilkinson, one time Director of Greenpeace UK and leading environmental campaigner, is the Warrior of the title. He largely created the crusade that brought Green issues to the minds of the nation - and the world - through a series of imaginative demonstrations and direct actions with Friends of the Earth and Greenpeace. This book is a personalised

history of the development of environmental activism, but it does not confine itself to the glorification of the achievements of the major forces within the Green Lobby. The dramatic action of those early campaigns is here, but so is a revealing warts-and-all inside look at Greenpeace - its origins, its early history and current dilemmas. This is compulsive reading, exposing the politics and power-struggles within the environmental movement, and cutting through the red tape and bureaucracy that beset the Green movement today. The author brings to life the eye-catching campaigns that characterised the early days of Greenpeace: dressing up as giant plastic bottles; climbing the tower of Big Ben; dumping radioactive mud outside the Department of the Environment. All these stories are conveyed with humour and incisive (sometimes biting) wit. In powerful prose, the author carries us over the oceans to Antarctica, to marvel at this most beautiful and little-known continent - a region which has become a veritable dump for the rubbish left by explorers and generated by the permanent bases there. The drama and excitement of the battles between Greenpeace vessels and Japanese whaling ships is conveyed here, in a way that makes *Warrior* as involving as it is informative. *Warrior* is essentially a personal account of a life spent within a movement which represents the outstanding preoccupation - and perhaps the most important impulse for survival - of our era.

**Greenpeace Captain** Peter Willcox, Ronald Weiss, 2016-04-19 A Man. A Mission. GREENPEACE CAPTAIN PETER WILLCOX has been a Captain for Greenpeace for over 30 years. He would never call himself a hero, but he is recognized on every ocean and continent for devoting his entire life to saving the planet. He has led the most compelling and dangerous Greenpeace actions to bring international attention to the destruction of our environment. From the globally

televised imprisonment of his crew, the Arctic 30, by Russian Commandos to international conspiracies involving diamond smuggling, gun-trading and Al-Qaeda, Willcox has braved the unimaginable and triumphed. This is his story--which begins when he was a young man sailing with Pete Seeger and continues right up to his becoming the iconic environmentalist he is today. His daring adventures and courageous determination will inspire readers everywhere.

**Confessions of a Greenpeace Dropout** Patrick Albert Moore,2010  
Dr. Moore shares an engaging firsthand account of his many years spent as the ultimate Greenpeace insider, a co-founder, and leader in the organization's top committee. Moore explains why, 15 years after co-founding it, he left Greenpeace to establish a more sensible, science-based approach to environmentalism.

**Hairy Hippies and Bloody Butchers** Juliane Riese,2017-05-01  
In the popular imagination, no issue has been more closely linked with the environmental group Greenpeace than whaling. Opposition to commercial whaling has inspired many of the organization's most dramatic and high-profile "direct actions"—as well as some of its most notable failures. This book provides an inside look at one such instance: Greenpeace's decades-long campaign against the Norwegian whaling industry. Combining historical narrative with systems-theory analysis, author Juliane Riese shows how the organization's self-presentation as a David pitted against whale-butchered Goliaths was turned on its head. She recounts how opponents successfully discredited the campaign while Greenpeace struggled with internal disagreements and other organizational challenges, providing valuable lessons for other protest movements.

**Greenpeace** Rex Weyler,2004-10-06  
The founder of Greenpeace

brings readers the story of the creation, adventures, clashes, objectives, and heroics of the world's largest direct-action environmental group and describes the influence of such legends as Gandhi, Einstein, Rachel Carson, and Martin Luther King, Jr., on the organization. 25,000 first printing.

**Green to Gold** Daniel C. Esty, Andrew Winston, 2009-01-09 From the Publishers Weekly review: Two experts from Yale tackle the business wake-up-call du jour-environmental responsibility-from every angle in this thorough, earnest guidebook: pragmatically, passionately, financially and historically. Though no company the authors know of is on a truly long-term sustainable course, Esty and Winston label the forward-thinking, green-friendly (or at least green-acquainted) companies WaveMakers and set out to assess honestly their path toward environmental responsibility, and its impact on a company's bottom line, customers, suppliers and reputation. Following the evolution of business attitudes toward environmental concerns, Esty and Winston offer a series of fascinating plays by corporations such as Wal-Mart, GE and Chiquita (Banana), the bad guys who made good, and the good guys-watchdogs and industry associations, mostly-working behind the scenes. A vast number of topics huddle beneath the umbrella of threats to the earth, and many get a thorough analysis here: from global warming to electronic waste take-back legislation to subsidizing sustainable seafood. For the responsible business leader, this volume provides plenty of (organic) food for thought.

*Rainbow Warrior* Sunday Times of London Insight Team, 1986

**Eco-Imperialism Green Power, Black Death** Paul Driessen, 2007-03

**Greenpeace Captain** Peter Willcox, Ronald Weiss, 2016-04-19 A Man. A Mission. GREENPEACE CAPTAIN PETER WILLCOX has been a Captain for Greenpeace for over 30 years. He would never call

himself a hero, but he is recognized on every ocean and continent for devoting his entire life to saving the planet. He has led the most compelling and dangerous Greenpeace actions to bring international attention to the destruction of our environment. From the globally televised imprisonment of his crew, the Arctic 30, by Russian Commandos to international conspiracies involving diamond smuggling, gun-trading and Al-Qaeda, Willcox has braved the unimaginable and triumphed. This is his story--which begins when he was a young man sailing with Pete Seeger and continues right up to his becoming the iconic environmentalist he is today. His daring adventures and courageous determination will inspire readers everywhere.

Greenpeace Views Delius Klasing, 2021-12-17 - Exceptional illustrated book on 50 years of Greenpeace: fascinating photos of the history of the biggest environmental organization - Numerous large-sized, moving photos of the greatest and most important Greenpeace campaigns and demonstrations worldwide - Short text with background information on selected Greenpeace actions At sea, on land or from the air - spectacular and oftentimes dangerous actions make Greenpeace world-famous and successful. Non-violent and uncompromising: For five decades the environmental activists take a stand for the wonders of our planet, fight for climate protection and develop solutions for the most imminent environmental problems of our time. This illustrated book documents the greatest and most important Greenpeace actions of all times: from the first protests against nuclear tests in Alaska to today's campaigns against deforestation of the rainforest and over-fishing of the oceans. Short, concise texts and numerous large-sized photos focus on the visual effect and enormous power of the environmental movement.

Thrilling, rousing, outstanding! Their story reminds one of David and Goliath: Greenpeace activists demand and foster the protection of nature and mankind and do not shy away from conflicts with politicians, major corporations and destroyers of the environment. With thrilling photos, this book shows how groundbreaking their actions really are. Pictures of environmental pollution and destruction contrast photos that show the outstanding campaigns against it. Large-format photos put you close to the action and give you a first-hand experience of the greatest actions for environment protection all around the world. Unique insights into 50 years of Greenpeace history!

**Beyond the Rainbow Warrior** Michael Morpurgo, Michael Foreman, 1996 A collection of nine illustrated stories by a variety of authors and illustrators that draw on themes of taking care of the world's resources and its inhabitants.

**Seeds of Science** Mark Lynas, 2018-04-05 'Mark Lynas is a saint' Sunday Times 'Fluent, persuasive and surely right.' Evening Standard Mark Lynas was one of the original GM field wreckers. Back in the 1990s – working undercover with his colleagues in the environmental movement – he would descend on trial sites of genetically modified crops at night and hack them to pieces. Two decades later, most people around the world – from New York to China – still think that 'GMO' foods are bad for their health or likely to damage the environment. But Mark has changed his mind. This book explains why. In 2013, in a world-famous recantation speech, Mark apologised for having destroyed GM crops. He spent the subsequent years touring Africa and Asia, and working with plant scientists who are using this technology to help smallholder farmers in developing countries cope better with pests, diseases and droughts.

This book lifts the lid on the anti-GMO craze and shows how science was left by the wayside as a wave of public hysteria swept the world. Mark takes us back to the origins of the technology and introduces the scientific pioneers who invented it. He explains what led him to question his earlier assumptions about GM food, and talks to both sides of this fractious debate to see what still motivates worldwide opposition today. In the process he asks – and answers – the killer question: how did we all get it so wrong on GMOs? 'An important contribution to an issue with enormous potential for benefiting humanity.' Stephen Pinker 'I warmly recommend it.' Philip Pullman

Dear Greenpeace Simon James, 2016-03 Worried that the whale living in her pond is unhappy, Emily writes to Greenpeace, who, though offering the best of advice, insist that it is impossible for a whale to live in a pond. Undeterred, Emily continues to seek the best course of action for her beloved whale, finally setting him free. 25th anniversary edition of this contemporary classic. ; An inventive addition to the library of picture books... This is a book that will appeal to readers of all ages. The School Librarian ; From the author of *Baby Brains*, overall winner of the 2005 Red House Children's Book Prize, voted for by 25,000 children!

**The Green Belt Movement** Wangari Maathai, 2003 Wangari Maathai, founder of The Green Belt Movement, tells its story including the philosophy behind it, its challenges, and objectives.

This is likewise one of the factors by obtaining the soft documents of this **Greenpeace 1** by online. You might not require more get older to spend to go to the book foundation as skillfully as search for them. In some cases, you likewise complete not discover the notice Greenpeace
