The Freelance Writer's E-Publishing Guidebook Anne

Hart, 2001-06-24 Your Mentor's Complete Guide to 25+ Freelance Writing and Digital Video Businesses and Other Home-based Online Businesses in E-Publishing and the Digital Media. Also part two is writing skills techniques.

How to Make Money Organizing Information Anne

Hart, 2002-07-15 How to Make Money Organizing Information is about preparing, packaging, writing, creating, developing, producing, designing, locating, navigating, selling, and marketing information. It's also about writing scripts, producing videos with your camcorder, and using your personal computer hooked to your camcorder with a cable to transfer information or videos, sound, or other content to your computer. This book gives you practical information about working online at home with flexible hours either part or full time. How to Make Money Organizing Information is for

all ages and all situations. It doesn't matter whether you're home-based, have a disability, are over age 60 or a young student who wants to work part time, or need a full-time business to support yourself and your family. More than 26 businesses described can be operated using either a computer or camcorder or both linked together to transfer text, graphics, or sound at the same or different times. The guidebook is about how to start on a tight budget and operate many low-capital businesses dealing with the creation, development, and dissemination of information of all kinds for a variety of businesses and purposes. Part Two of the book is about writing for the new media/digital media and how to sell or launch your freelance writing in the media before it is published. The chapters focus on how to create, promote, and sell your information and how to research your intended markets. You can start many types of businesses at home part time from gift baskets to making dolls for medical offices, but these business-based homes work with information online and on disk, in print, and sent through e-mail attachments. Check out the associations and training programs information in the appendices.

35 Video Podcasting Careers & Businesses to Start Anne

Hart, 2005-12-05 Launch your career or business in video

podcasting. Are you looking for a job in video podcasting? Anyone with a digital video camcorder, microphone, computer and some technical savvy can launch an Internet video podcast show to inform, direct or enlighten. You can offer foresight, insight, or hindsight. Open a business or find a job creating and delivering digital video recordings-usually free-as podcasts. If you want to make money with video podcasting, offer to sell a sponsor's publicity and advertising on your video, or an author's creative works, interviews, or sermons. You can even show people how to fill out tax forms using a video podcast for instruction on most any subject people can learn independently. People who subscribe to video podcasts usually want to view for free. You can charge for a course to train or teach a class by video lecture and/or demonstration, but what if you want an actual paid job in video podcasting? And can you make more money in video than in the older, audio MP3 file 'radio' podcasting? Careers in video podcasting are beginning to bloom as seen by a variety of podcasting associations, news publications, and career information. Even job listings unrelated to podcasting are 'broadcast' by RSS feeds. Create your own job in podcasting by showing others how to find new trends and applications in their careers. Make

informational, how-to, and motivational video podcasts. What if you want to use video podcasting to actually get hired? Are there jobs right now in video podcasting? Or is the field still primarily for trade publication publishers, syndicators, and video entrepreneurs on the Web?
