**Police Custody in Ireland** Yvonne Daly,2024-03-19 Police Custody in Ireland brings together experts from policing studies, law, criminology, and psychology, to critically examine contemporary police custody in Ireland, what we know about it, how it operates, how it is experienced, and how it might be improved. This first-of-its-kind collection focuses exclusively on detention in Garda Síochána stations, critically examining it from human rights and best practice perspectives. It examines the physical environment of custody, police interview techniques, existing protections, rights, and entitlements, and experiences of specific communities in custody, such as children, ethnic minorities, non-English speakers, the Mincéir/Traveller community, and those with intellectual disabilities or Autism Spectrum Disorder. Police Custody in Ireland gives a snapshot of garda custody as it is now and makes important recommendations for necessary future improvements. An accessible and compelling read, this book will be of interest to those engaged in policing and criminology, as well as related areas of interest such as human rights, youth justice and disability studies.

Counterterrorism and Cybersecurity Newton Lee,2013-04-15 Imagine James Bond meets Sherlock Holmes: Counterterrorism and Cybersecurity is the sequel to Facebook Nation in the Total Information Awareness book series by Newton Lee. The book examines U.S. counterterrorism history, technologies, and strategies from a unique and thought-provoking approach that encompasses personal experiences, investigative journalism, historical and current events, ideas from great thought leaders, and even the

make-believe of Hollywood. Demystifying Total Information Awareness, the author expounds on the U.S. intelligence community, artificial intelligence in data mining, social media and privacy, cyber attacks and prevention, causes and cures for terrorism, and longstanding issues of war and peace. The book offers practical advice for businesses, governments, and individuals to better secure the world and protect cyberspace. It quotes U.S. Navy Admiral and NATO's Supreme Allied Commander James Stavridis: "Instead of building walls to create security, we need to build bridges." The book also provides a glimpse into the future of Plan X and Generation Z, along with an ominous prediction from security advisor Marc Goodman at TEDGlobal 2012: "If you control the code, you control the world." Counterterrorism and Cybersecurity: Total Information Awareness will keep you up at night but at the same time give you some peace of mind knowing that "our problems are manmade — therefore they can be solved by man [or woman]," as President John F. Kennedy said at the American University commencement in June 1963.

*The Book of Unconformities* Hugh Raffles, 2020-08-25 From the author of the acclaimed *Insectopedia*, a powerful exploration of loss, endurance, and the absences that permeate the present When Hugh Raffles's two sisters died suddenly within a few weeks of each other, he reached for rocks, stones, and other seemingly solid objects as anchors in a world unmoored, as ways to make sense of these events through

stories far larger than his own. A moving, profound, and affirming meditation, *The Book of Unconformities* is grounded in stories of stones: Neolithic stone circles, Icelandic lava, mica from a Nazi concentration camp, petrified whale blubber in Svalbard, the marble prized by Manhattan's Lenape, and a huge Greenlandic meteorite that arrived with six Inuit adventurers in the exuberant but fractious New York City of 1897. As Raffles follows these fundamental objects, unearthing the events they've engendered, he finds them losing their solidity and becoming as capricious, indifferent, and willful as time itself.
