Master Bombers Sean Feast,2012-09-26 The wartime exploits and experiences of an RAF bomber pathfinder squadron are recounted in this WWII history—"A stunning war book" (Oxford Times, UK). Formed in July 1942, the Pathfinder Force was the corps d'élite of the Royal Air Force's Bomber Command. The Squadrons of the PFF were tasked with marking targets and leading bomber formations to the right place at the right time. And the best of the force formed the crews of the master bombers, the aircraft in charge of the whole attack. It took nerves of steel for the crew to linger high over the target area, often for hours, in constant fear of attack from fighters or flak. In Master Bombers, aviation historian Sean Feast shares the wartime stories of the men and women of No. 582 Squadron. This bomber pathfinder squadron was formed in April of 1944 and began operations with a night raid on Occupied France a week later. The aircrew and supporting staff of No. 582 distinguished themselves in numerous operations, with one pilot, Ted Swales, winning a posthumous Victoria Cross over Pforzheim.

Way of the Turtle: The Secret Methods that Turned Ordinary People into Legendary Traders Curtis Faith,2007-03-30 "We're going to raise traders just like they raise turtles in Singapore." So trading guru Richard Dennis reportedly said to his long-time friend William Eckhardt nearly 25 years ago. What started as a bet about whether great traders were born or made became a legendary trading experiment that, until now, has never been told in its entirety. Way of the Turtle reveals, for the first time, the reasons for the success of the secretive trading system used by the group known as the "Turtles." Top-earning Turtle Curtis Faith lays bare the entire experiment, explaining how it was possible for Dennis and Eckhardt to recruit 23 ordinary people from all walks of life and train them to be extraordinary traders in just two weeks. Only nineteen years old at the time-the youngest Turtle by far-Faith traded the largest account, making more than \$30 million in just over four years. He takes you behind the scenes of the Turtle selection process and behind closed doors where the Turtles learned the lucrative trading strategies that enabled them to earn an average return of over 80 percent per year and profits of more than \$100 million. You'll discover How the Turtles made money-the principles that guided their trading and the step-by-step methods they followed Why, even though they used the same approach, some Turtles were more successful than others How to look beyond the rules as the Turtles implemented them to find core strategies that work for any tradable market How to apply the Turtle Way to your own trades-and in your own life Ways to diversify your trading and limit your exposure to risk Offering his unique perspective on the experience, Faith explains why the Turtle Way works in modern markets, and shares hard-earned wisdom on taking risks, choosing your own path, and learning from your mistakes.

Canada and the First World War, Second Edition David MacKenzie,2018-12-03 The First World War is often credited as being the event that gave Canada its own identity, distinct from that of Britain, France, and the United States. Less often noted, however, is that it was also the cause of a great deal of friction within Canadian society. The fifteen essays contained in Canada and the First World War examine how Canadians experienced the war and how their experiences were shaped by region, politics, gender, class, and nationalism. Editor David MacKenzie has brought together some of the leading voices in Canadian history to take an in-depth look into the tensions and fractures the war caused, and to address the way some attitudes about the country were changed, while others remained the same. The essays vary in scope, but are strongly unified so as to create a collection that treats its subject in a complete and comprehensive manner. Canada and the First World War is a tribute to esteemed University of Toronto historian Robert Craig Brown, one of Canada's greatest authorities on the Great War World War One. The collection is a significant contribution to the on-going re-examination of Canada's experiences in war, and a must-read for students of Canadian history.

Trading, Sex & Dying Juel E. Anderson,1998 Game theory is hot, says the Wall Street Journal, and many of today's most successful traders are using it to make crucial-more profitable-buying and selling decisions. Denmark in the Thirty Years' War, 1618-1648 Paul Douglas Lockhart,1996 Although Denmark, under the leadership of the dynamic King Christian IV (1596-1648) was truly one of Europe's great powers in the early seventeenth century, historians have generally neglected its role in the Thirty Years' War.

Navies and Foreign Policy (Routledge Revivals) Ken Booth,2014-06-27 First published in 1977, this study offers a comprehensive, systematic and integrated survey of the important relationship between navies and the making and execution of foreign policy. Ken Booth explains the functions navies can perform in both war and peace, the influence they have on particular situations, and how the relevant organisations can affect the character of naval actions.
