**High-Table Diplomacy** Kjell Engelbrekt, 2016-06-10 The proliferation of "minilateral" summits is reshaping how international security problems are addressed, yet these summits remain a poorly understood phenomenon. In this groundbreaking work, Kjell Engelbrekt contrasts the most important minilateral summits—the G7 (formerly G8) and G20—with the older and more formal UN Security Council to assess where the diplomacy of international security is taking place and whether these institutions complement or compete with each other. Engelbrekt's research in primary-source documents of the G7, G8, G20, and UN Security Council provides unique insight into how these institutions deliberate on three policy areas: conflict management, counterterrorism cooperation, and climate change mitigation. Relatively informal and flexible, GX diplomacy invites more countries to take a seat at the table and allows nontraditional security threats to be placed on the agenda. Engelbrekt concludes, however, that there is a continuing need for institutions like the UN to address traditional security problems. High-Table Diplomacy will provoke discussion and further research on the role of

minilateral summits among scholars of international relations, security studies, and international organizations.

The Peacemakers Robert L Wilson, 2015-11-10 Beginning with Native American primitive weaponry, The Peacemakers presents a comprehensive panorama from Lewis and Clark and their historic expedition, through subsequent trailblazing explorers, traders and mountain men, to the Army, the gold and silver miners, gunfighters, gamblers, outlaws, frontier madams and their soiled doves, to peace officers, cowboys and ranchers, as well as sodbusters, shopkeepers and the agents of Wells Fargo, hunters and gentlemen-sportsmen, Wild West showmen and women, to the Western stars of stage, screen, radio, and television. A final chapter provides insights and revelations on collecting arms and related treasures of the frontier. Designed as a companion volume to the bestselling Winchester: An American Legend and Colt: An American Legend, The Peacemakers matches those award-winning books with a fresh and breathtaking look at the extraordinary variety of Western arms. In stark contrast to the primitive Native American weapons of the time, the mechanical marvels of the time changed the course of history. These weapons were created by Colt, Winchester, Smith & Wesson, Remington, Marlin, Sharps, Henry Deringer, Hawken, the U.S. armories and subcontractors, and small-shop private gunmakers. This book also includes other weapons of the era, like the ubiquitous Bowie knife, and more-many elegantly embellished knives including some by Tiffany & Co. Skyhorse Publishing is proud to publish a broad range

of books for hunters and firearms enthusiasts. We publish books about shotguns, rifles, handguns, target shooting, gun collecting, self-defense, archery, ammunition, knives, gunsmithing, gun repair, and wilderness survival. We publish books on deer hunting, big game hunting, small game hunting, wing shooting, turkey hunting, deer stands, duck blinds, bowhunting, wing shooting, hunting dogs, and more. While not every title we publish becomes a New York Times bestseller or a national bestseller, we are committed to publishing books on subjects that are sometimes overlooked by other publishers and to authors whose work might not otherwise find a home.

*Designed by Adventure* Topher Donahue, 2012-02-01 Thirty years ago a frustrated physicist from Seattle named Ron Gregg was retreating from an aborted attempt at a new alpine style route on Denali. His partner had been evacuated by helicopter, but Ron chose to ski back to the highway solo. In the process, Ron found a new direction in life. At that time, outdoor gear left much to be desired. Many of the best climbers and alpinists designed their own equipment out of necessity. They fashioned climbing harnesses, backpacks and entire kits in basements and garages. Nobody cared what the gear looked like. For a mountaineer with a penchant for design, the 70s and 80s were an era of extreme entrepreneurial opportunity and epic adventure. *Designed by Adventure: 30 Years of Outdoor Research* follows Ron Gregg's seminal early years as he bootstraps what would become an iconic company known for relentless commitment to functionality and durability. His intense passion for making better products in his own factory establishes Outdoor Research as an outdoor industry leader, yet Ron's devotion to his Seattle factory eventually imperils the company as globalization changes the game. His sudden and tragic death in the mountains of British Columbia creates a

crisis as his family and the management team struggle to find a solution to keep the company going. Ultimately a new team comes together to build on Ron's legacy and principles, building Outdoor Research into one of the fastest growing companies in its industry.

*A Long Time Gone* Karen White, 2015-04-07 From the New York Times bestselling author of the Tradd Street novels comes an enthralling southern gothic saga about one woman's quest for the truth... When Vivien Walker left her home in the Mississippi Delta, she swore never to go back. But in the spring, nine years to the day since she'd left, Vivien returns, fleeing from a broken marriage and her lost dreams for children. What she hopes to find is solace with her dear grandmother who raised her, a Walker woman with a knack for making everything all right. Instead Vivien is forced into the unexpected role of caretaker, challenging her personal quest to find the girl she once was. But things will change again in ways Vivien cannot imagine. A violent storm has revealed the remains of a long-dead woman buried near the Walker home, not far from the cypress swamp that is soon to give up its ghosts. Vivien knows there is now only one way to rediscover herself--by uncovering the secrets of her family and breaking the cycle of loss that has haunted them for generations. READERS GUIDE INCLUDED

*Black Canary: Breaking Silence* Alexandra Monir, 2021-12-21 THE NEW YORK TIMES BESTSELLING SERIES! DC Icons continues with the first-ever YA origin story of superhero Black Canary, from the internationally bestselling author Alexandra Monir. In this thrilling novel, Dinah Lance's voice is her weapon. And in a near-future world where women have no rights, she won't hesitate to use everything she has--including her song--to fight back. Dinah Lance was eight years old when she overheard the impossible: the sound of a girl

singing. It was something she was never meant to hear--not in her lifetime and not in Gotham City, taken over by the vicious, patriarchal Court of Owls. The sinister organization rules Gotham City as a dictatorship and has stripped women of everything--their right to work, to make music, to learn, to be free. Now seventeen, Dinah can't forget that haunting sound, and she's beginning to discover that her own voice is just as powerful. But singing is forbidden--a one-way ticket to Arkham Asylum. Fighting to balance her father's desire to keep her safe, a blossoming romance with mysterious new student Oliver Queen, and her own need to help other women and girls rise up, Dinah wonders if her song will finally be heard. And will her voice be powerful enough to destroy the Court of Owls once and for all?

**It's About Skiing and Not the Skis** Jay Eacker, 2010-12-06 People have been skiing--and no doubt teaching others to do the same--for thousands of years. The earliest evidence for it is a picture on the wall of a cave in Norway that was drawn sometime around 4500 BC. Skiing is something that we do. It is a behavior. Teaching others to ski is also something that we do. It, too, is a behavior. Pavlov and his dog helped to demonstrate that behavior is lawful and orderly. Various forms of conditioning as well as reinforcement, generalization, discrimination, punishment, and extinction change behavior. But why do we ski and teach others to do the same? These behaviors can also be accounted for, but no one has done it--until now. Develop a better

understanding of why we ski and become a better skier or ski instructor in the process. You'll gain a greater appreciation of the sport once you discover *It's About Skiing and Not the Skis*.

*A complete guide to Alpine Ski touring Ski mountaineering and Nordic Ski touring* Henry Branigan; Keith Jenns, 2014-01-13 There is something extraordinarily special about sliding on snow that has excited generations of snow sports enthusiasts. Add to this the dimension of travelling through the mountains and the result is a recipe for some of the best outdoor activity days you could ever imagine. I have been fortunate to share some of these adventures with Henry Branigan: Skiing off the summit of Mount Blanc at dawn or, equally enjoyable, skiing under the northern lights from hut to hut in Norway, still my all-time favourite way of travelling through the mountains. *A complete guide to alpine ski touring, ski mountaineering and nordic ski touring* sets out to provide the fundamentals about going off piste and then journeying through mountain terrain, in a logical, easy to read format. Adapting ski technique for various off piste conditions is an essential skill that makes all the difference between surviving and savouring adventures off piste. The book also covers the fundamental mountaineering knowledge including navigation, weather and avalanches that are essential before venturing beyond the confines of a ski area. Equipment and planning a tour are covered, whether it is in an Alpine or Nordic environment. All in all this is a very comprehensive and valuable resource for anyone aspiring to venture into the mountains on skis. Bob Kinnaird Principal Glenmore Lodge National Outdoor Training Centre
