Dictionary of Lexicography R. R. K. Hartmann,Gregory James,2002-01-04 Dictionaries are among the most frequently consulted books, yet we know remarkably little about them. Who makes them? Where do they come from? What do they offer? How can we evaluate them? The Dictionary of Lexicography provides answers to all these questions and addresses a wide range of issues: * the traditions of dictionary-making * the different types of dictionaries and other reference works (such as thesaurus, encyclopedia, atlas and telephone directory) * the principles and concerns of lexicographers and other reference professionals * the standards of dictionary criticism and dictionary use. It is both a professional handbook and an easy-to-use reference work. This is the first time that the subject has been covered in such a comprehensive manner in the form of a reference book. All articles are self-contained, cross-referenced and uniformly structured. The whole is an up-to-date and forward-looking survey of lexicography.

Dictionary of the Ben cao gang mu, Volume 1 Zhibin Zhang,Paul U. Unschuld,2014-12-12 The Ben cao gang mu, compiled in the second half of the sixteenth century by a team led by the physician Li Shizhen (1518-1593) on the basis of previously published books and contemporary knowledge, is the largest encyclopedia of natural history in a long tradition of Chinese materia medica works. Its description of almost 1,900 pharmaceutically used natural and man-made substances marks the apex of the development of premodern Chinese pharmaceutical knowledge. The Ben cao gang mu dictionary offers access to this impressive work of 1,600,000 characters. This first book in a three-volume series analyzes the meaning of 4,500 historical illness terms.

Dictionary of Minor Planet Names Lutz D. Schmadel,2013-03-09 According to a long-standing astronomical tradition, the naming of minor planets in the solar system is the privilege of the discoverers. Contrary to most other kinds of celestial objects which receive complex alpha-numerical designations, the names of minor planets often say more about the discoverers than about the object in question. There is a rich and colourful variety of ingenious names, from those of heavenly goddesses in the nineteenth century, to the more prosaic and sometimes very specific names of observatories, towns and mountains, computers and persons, given by present-day discoverers. Commission 20 of the International Astronomical Union, under whose auspices the naming of minor planets falls, has long been concerned with the need to establish a complete catalogue of these names, as well as of the interpretation of their meanings. For this purpose, a Study Group on the Origin of Minor Planet Names was set up at the time of the IAU General Assembly in Baltimore in August 1988. The Working Group immediately started to collect information about these matters from all available sources, including some earlier, incomplete compilations made in the U.S. and in Europe, and also by personal interaction with living discoverers of minor planets.

Specialised Dictionaries for Learners Pedro Antonio Fuertes Olivera,2010 The need for constructing a lexicographical theory with a particular focus on specialised dictionaries for learners is well documented in recent publications. This will imply paying attention to, at least, four basic lexicographic categories: learners; the learner's situation; the learner's needs; dictionary assistance. In one or other way, these categories are analysed in this book, whose eleven chapters are grouped into three parts. Part 1 reflects on some of the main ideas defended by the function theory of lexicography, perhaps the theoretical framework that has paid more attention to specialised lexicography. Part 2 presents some proposals that have already being explored in the field of general learner's dictionary and must be incorporated into specialised metalexicography: cultural aspects; figurative meaning; the inclusion of grammatical information; the use of corpora. Part 3 introduces the state of play regarding specialised dictionaries in China and offers some ideas for coping with the proliferation of terminological glossaries in Internet. The book also describes Enrique Alcaraz's academic achievements, together with some personal anecdotes, and a personal short tribute to his memory.

Bole-English-Hausa Dictionary and English-Bole Wordlist Alhaji Maina Gimba,Russell G. Schuh,2014-11-19 This is a dictionary of Bole, a little documented language of the Chadic family, spoken in northeastern Nigeria. This is one of the most comprehensive dictionaries of any Chadic language other than Hausa. All entries for Bole are fully marked for tone and vowel length. The Bole-English-Hausa section has full definitions and explanations of meaning in English with numerous examples of use. Each entry has a Hausa gloss. The English-Bole section is intended mainly as an index to the Bole-English-Hausa section. There are appendices of flora and fauna terms, cultural terms, pronouns, and comprehensive paradigms of verb forms.

A General Index to Hazlitt's Handbook and His Bibliographical Collections (1867-1889) George John Gray,1893

Dictionary Visions, Research and Practice Henrik Gottlieb,Jens Erik Mogensen,2007-12-12 This book is about dictionaries and dictionary making. In six thematic sections it presents nineteen contributions covering a wide field within lexicography: Online Lexicography, Dictionary Structure, Phraseology in Dictionaries, LSP Lexicography, Dictionaries and the User, plus Etymology, History and Culture in Lexicography. Some chapters focus on theoretical aspects, others report on dictionary work in the making, and still others compare and analyze existing dictionaries. Common to all authors, however, is the concern for the dictionary user. Trivial as it may seem, the fact that dictionaries are meant to fulfill the needs of specific user groups has only recently achieved widespread recognition in the lexicographical literature. This volume shows the many ramifications of this functional approach to lexicography by presenting twenty-two authors representing the state of the art in eleven countries: Canada, Denmark, Germany, Great Britain, Iceland, Israel, Latvia, The Netherlands, Poland, South Africa and Spain.
