The Autobiography of the Working Class: 1790-1900 John Burnett, David Vincent, David Mayall, 1984

Design and Truth in Autobiography Roy Pascal, 2015-08-20 Originally published in 1960. Is there an art of autobiography? What are its origins and how has it come to acquire the form we know today? For what does the autobiographer seek, and why should it be so popular? This study suggests some of the answers to these questions. It takes the view that autobiography is one of the dominant and characteristic forms of literary self-expression and deserves examination for its own sake. This book outlines a definition of the form and traces its historical origins and development, analyses its 'truth' and talks about what sort of self-knowledge it investigates.

Automata, Languages and Programming Michael S. Paterson, 1990 In subvolume 27C1 magnetic and related properties of binary lanthanide oxides have been compiled. This subvolume covers data obtained since 1980 and can therefore be regarded as supplement to volume III/12c. While in the previous volume the majority of magnetic data was obtained either from magnetometric measurements or from neutron diffraction, for the present data the main emphasis is devoted to 'related' properties without which, however, the understanding of classical magnetic properties is impossible. A second part 27C2 will deal with binary oxides of the actinide elements.

History, Historians, and Autobiography Jeremy D. Popkin, 2005-05-09 Though history and autobiography both claim to tell true stories about the past, historians have traditionally rejected first-person accounts as subjective and therefore unreliable. What then, asks Jeremy D. Popkin in *History, Historians, and Autobiography*, are we to make of the ever-increasing number of professional historians who are publishing stories of their own lives? And how is this recent development changing the nature of history-writing, the historical profession, and the genre of

autobiography? Drawing on the theoretical work of contemporary critics of autobiography and the philosophy of Paul Ricoeur, Popkin reads the autobiographical classics of Edward Gibbon and Henry Adams and the memoirs of contemporary historians such as Emmanuel Le Roy Ladurie, Peter Gay, Jill Ker Conway, and many others, he reveals the contributions historians' life stories make to our understanding of the human experience. Historians' autobiographies, he shows, reveal how scholars arrive at their vocations, the difficulties of writing about modern professional life, and the ways in which personal stories can add to our understanding of historical events such as war, political movements, and the traumas of the Holocaust. An engrossing overview of the way historians view themselves and their profession, this work will be of interest to readers concerned with the ways in which we understand the past, as well as anyone interested in the art of life-writing.

On The Corinthian Spirit D J Taylor, 2010-08-31 In January 1929, before 20,000 spectators, Norwich City of the Third Division South went down 0-5 in the third round of the FA Cup to an amateur side composed of ex-public school boys who disdained professional tactics in favour of instinct and teamwork. Within a decade, the Corinthians, the club that for forty years had supplied the entire English national side, had all but ceased to exist. The world was changing. By the time of the last 'Gentleman vs. Players' cricket match in 1962 a whole era in English sport had come to an end. But the passing of amateur sportsmen - footballers, cricketers, golfers, tennis players - had implications beyond the playing field. A century ago 'amateur' was a compliment to someone who played a game simply for love of it. A hundred years later it is a byword for cack-handed incompetence. In this brilliant study of the patterns of sporting and cultural life, D J Taylor examines the process that led to professionalism's triumph and the long rearguard action fought by sportsmen - and literature - on amateurism's behalf. On the Corinthian Spirit has many heroes - from 'Charlie

Bam', the legendary Corinthian defender, who once played a game with a broken leg, to the boys' school story hero Strickland of the Sixth, Old Etonian cricket-lover George Orwell and the 14th Norwich Cub Scout XI of the early 1970s. Drawing on his own experiences of 'amateurism', D J Taylor describes a changing moral universe with profound consequences both for sport and the world beyond it.

Life Writing and Victorian Culture David Amigoni, 2017-09-29 In this collection of interdisciplinary essays, experts from Britain and the United States in the fields of nineteenth-century literature, and social and cultural history explore new directions in the field of Victorian life writing. Chapters examine a varied yet interrelated range of genres, from the biography and autobiography, to the relatively neglected diary, collective biography, and obituary. Reflecting the rich research being conducted in this area, the contributors link life writing to the formation of gendered and class-based identities; the politics of the Victorian family; and the broader professional, political, colonial, and literary structures in which social and kinship relations were implicated. A wide variety of Victorian works are considered, from the diary of the Radical Samuel Bamford, to the diary of the homosexual George Ives; from autobiographies of professional men to collective biographies of eminent women. Embracing figures as diverse as Gandhi, Wilde, and Bradlaugh, the collection explores the way in which narratives contested one another in a society that devoted an abundance of cultural energy to writing about, and reading of, lives.

Sport and the English, 1918-1939 Mike Huggins, Jack Williams, 2006-05-02 Annotation Sport and the English, 1918-1939 is a comprehensive, accessible and innovative analysis of sport as an expression of the values and social relations of a nation. Bringing the central place of sport in English life between the wars into sharp focus, this insightful history provides us with a fresh

perspective on issues of gender, class, religion and identity, and ideas of morality, continuity and change.--BOOK JACKET. Title Summary field provided by Blackwell North America, Inc. All Rights Reserved.

The Victorians and Sport Mike Huggins, 2004-12-17 Many of the sports that have spread across the world, from athletics and boxing to golf and tennis, had their origins in nineteenth-century Britain. They were exported around the world by the British Empire, and Britain's influence in the world led to many of its sports being adopted in other countries. (Americans, however, liked to show their independence by rejecting cricket for baseball.) *The Victorians and Sport* is a highly readable account of the role sport played in both Victorian Britain and its empire. Major sports attracted mass followings and were widely reported in the press. Great sporting celebrities, such as the cricketer Dr W.G. Grace, were the best-known people in the country, and sporting rivalries provoked strong loyalties and passionate emotions. Mike Huggins provides fascinating details of individual sports and sportsmen. He also shows how sport was an important part of society and of many people's lives.

Childhood, Memory and Autobiography in Holland R. Dekker, 2019-06-12 Between the 17th and 19th centuries auto-biographers and diarists invented new ways to write about childhood and children. At the same time, pedagogical ideas about child-rearing changed. This book looks at the connection between these developments. Egodocuments can bring the past alive, and allow us to sketch six intimate portraits. The second part of the book concentrates on the changes. Childhood became more highly valued as a phase of life. Children were taken more seriously. This is shown in chapters on child's play, punishment, wet-nursing and independence. Around 1800, in diaries, parents more openly grieved about the loss of a child, which indicates both a change of literary conventions and changes in the way emotions were felt and expressed. Finally, autobiographers

wrote more and differently about their early years, and developed new memory strategies. Autobiographical texts are discussed within a wider cultural setting, using paintings, poetry, pedagogical tracts and novels. This book makes clear how changes in autobiographical style, the concept of childhood and the working of human memory are connected.

The Contemporary History Handbook Brian Brivati, Julia Buxton, Anthony Seldon, 1996 This guide should be useful to those studying and researching modern history. International and up to date, it covers sources and controversies in the subject area and includes a section of useful addresses. The volume is divided into three main sections which together comprise a reference work for contemporary historians.

The Flight of Icarus, 1998-08 Exploring autobiographical texts written by European urban craftsmen from the 15th to the 18th centuries, this book studies memoirs, diaries, family chronicles, travel narratives, and other forms of personal writings from Spain, France, Italy, Germany, and England. In the process, it reveals the significance of written self-expression in early modern popular culture.

Touching the World Paul John Eakin, 1992-04-15 Paul John Eakin's earlier work *Fictions in Autobiography* is a key text in autobiography studies. In it he proposed that the self that finds expression in autobiography is in fundamental ways a kind of fictive construct, a fiction articulated in a fiction. In this new book Eakin turns his attention to what he sees as the defining assumption of autobiography: that the story of the self does refer to a world of biographical and historical fact. Here he shows that people write autobiography not in some private realm of the autonomous self but rather in strenuous engagement with the pressures that life in culture entails. In so demonstrating, he offers fresh readings of autobiographies by Roland Barthes, Nathalie Sarraute, William Maxwell,

Henry James, Ronald Fraser, Richard Rodriguez, Henry Adams, Patricia Hampl, John Updike, James McConkey, and Lillian Hellman. In the introduction Eakin makes a case for reopening the file on reference in autobiography, and in the first chapter he establishes the complexity of the referential aesthetic of the genre, the intricate interplay of fact and fiction in such texts. In subsequent chapters he explores some of the major contexts of reference in autobiography: the biographical, the social and cultural, the historical, and finally, underlying all the rest, the somatic and temporal dimensions of the lived experience of identity. In his discussion of contemporary theories of the self, Eakin draws especially on cultural anthropology and developmental psychology.

Useful Toil Professor John Burnett, John Burnett, 2013-09-13 *Useful Toil* engages freshly and directly with the 'ordinary' people of the nineteenth century. John Burnett has assembled twenty seven telling extracts from the diaries and autobiographies of working people - wheelwrights and stone-masons, miners and munition workers, butlers and kitchen maids, navvies, carpenters, potters and ship assistants to list only a few. The men and women who speak in these pages concentrate on their working experiences, though they also write about their homes and their fears. They thus reveal, often unconsciously, the essence of their attitudes, values and beliefs. Burnett's broad and sympathetic introductions focus and contextualise the wealth of material. These stories provide the antithesis of 'great name' history, yet they constantly touch on human experiences that are timeless and universal.

Taking the Hard Road Mary Jo Maynes, 2000-11-09 *Taking the Hard Road* is an engaging history of growing up in working-class families in France and Germany during the Industrial Revolution. Based on a reading of ninety autobiographical accounts of childhood and adolescence, the book explores the far-reaching historical transformations associated with the emergence of

modern industrial capitalism. According to Mary Jo Maynes, the aspects of private life revealed in these accounts played an important role in historical development by actively shaping the authors' social, political, and class identities. The stories told in these memoirs revolve around details of everyday life: schooling, parent-child relations, adolescent sexuality, early experiences in the workforce, and religious observances. Maynes uses demographics, family history, and literary analysis to place these details within the context of historical change. She also draws comparisons between French and German texts, men's and women's accounts, and narratives of social mobility and political militancy.

Artful Histories David McCooey, 1996 An important contribution to our understanding of autobiography, its history and the Australian experience.
