The Sum of Us Heather McGhee, 2021-02-16 NEW YORK TIMES BESTSELLER • LONGLISTED FOR THE NATIONAL BOOK AWARD • One of today's most insightful and influential thinkers offers a powerful exploration of inequality and the lesson that generations of Americans have failed to learn: Racism has a cost for everyone—not just for people of color. WINNER OF THE PORCHLIGHT BUSINESS BOOK AWARD • ONE OF THE BEST BOOKS OF THE YEAR: Time, The Washington Post, St. Louis Post-Dispatch, Ms. magazine, BookRiot, Library Journal “This is the book I've been waiting for.”—Ibram X. Kendi, #1 New York Times bestselling author of How to Be an Antiracist Look for the author's new podcast, The Sum of Us, based on this book! Heather McGhee's specialty is the American economy—and the mystery of why it so often fails the American public. From the financial crisis of 2008 to rising student debt to collapsing public infrastructure, she found a root problem: racism in our politics and policymaking. But not just in the most obvious indignities for people of color. Racism has costs for white people, too. It is the common denominator of our most vexing public problems, the core dysfunction of our democracy and constitutive of the spiritual and moral crises that grip us all. But how did this happen? And is there a way out? McGhee embarks on a deeply personal journey across the country from Maine to Mississippi to California, tallying what we lose when we buy into the zero-sum paradigm—the idea that progress for some of us must come at the expense of others. Along the way, she meets white people who confide in her about losing their homes, their dreams, and their shot at better jobs to the toxic mix of American racism and greed. This is the story of how public goods in this country—from parks and pools to functioning schools—have become private luxuries; of how unions collapsed, wages stagnated, and inequality increased; and of how this country, unique among the world's advanced economies, has thwarted universal healthcare. But in unlikely places of worship and work, McGhee finds proof of what she calls the Solidarity Dividend: the benefits we gain when people come together across race to accomplish what we simply can't do on our own. The Sum of Us is not only a brilliant analysis of how we arrived here but also a heartfelt message, delivered with startling empathy, from a black woman to a multiracial America. It leaves us with a new vision for a future in which we finally realize that life can be more than a zero-sum game. LONGLISTED FOR THE ANDREW CARNEGIE MEDAL

(P)rescription Narratives Stephanie Peebles Tavera, 2022 Examines how women writers of medical fiction rewrite cultural narratives of the female body against censorship under the Comstock Law (P)rescription Narratives reveals how the act of narrative creates the subjects of disability, race, and gender during a period of censorship in American history. In a Crip Affect reading of woman-authored medical fiction from the Comstock Law era, this book astutely argues that women writers of medical fiction practice storytelling as a form of narrative medicine that prescribes various forms of healing as an antidote to the shame engineered by an American culture of censorship. Woman-authored medical fiction exposes the limitations of social construction and materiality in conversations about the female body since subject formation relies upon multiple force relations that shape and are shaped by one another in ongoing processes that do not stop despite our efforts to interpret cultural artifacts. These multiple failures - to censor, to resist, to interpret - open up a space for negotiating how we engage the world with greater empathy. Stephanie Peebles Tavera is Assistant Professor of English at Texas A&M University, Central Texas.

A Scene in Between (Revised Edition) Sam Knee, 2021-10 'A glorious photographic compendium of styles and street cultures from a bygone era'. -- The Guardian 'An artist's image and music is inextricably tethered and A Scene In Between draws these threads together beautifully'. -- Vice Magazine 'A visual manifestation of Knee's personal obsession and acute knowledge of the scene - in particular, the underground style - whilst mirroring the general mood of the era'. -- Dazed Magazine A revised edition of this cult classic photographic exploration of 1980s music and fashion. A Scene In Between sets out to excavate the sartorial treasures of the UK's 1980s guitar scenes. Using original archive photography from scenesters, band members and amateur photographers of the time, Sam Knee takes you on a fashion trip through the visual racket of pivotal indie bands including Primal Scream, Spacemen 3, The Smiths, My Bloody Valentine, The Jesus and Mary Chain, Tallulah Gosh, the Vaselines and countless others. Charity shop chic, anoraks, bowlcuts, leather trousers and stripy tees are all de-riguer in this evocative photographic historical capsule. Seven years on from the release of the first edition, Sam Knee has expanded his photographic contact base, and built a loyal Instagram following of over 60,000 (including many big names in fashion and music). This revised edition features a new cover and intro, interviews with Johnny Marr, Deb Googe and Lawrence from Felt, alongside hundreds of never-seen-before photographs that will delight both fans of Sam's work and new music and fashion aficionados.

Disrupting the Digital Humanities Dorothy Kim, Jesse Stommel, 2018 All too often, defining a discipline becomes more an exercise of exclusion than inclusion. Disrupting the Digital Humanities seeks to rethink how we map disciplinary terrain by directly confronting the gatekeeping impulse of many other so-called field-defining collections. What is most beautiful about the work of the Digital Humanities is exactly the fact that it can't be tidily anthologized. In fact, the desire to neatly define the Digital Humanities (to filter the DH-y from the DH) is a way of excluding the radically diverse work that actually constitutes the field. This collection, then, works to push and prod at the edges of the Digital Humanities - to open the Digital Humanities rather than close it down. Ultimately, it's exactly the fringes, the outliers, that make the Digital Humanities both lovely and rigorous. This collection does not constitute yet another reservoir for the new Digital Humanities canon. Rather, our aim is less about assembling content as it is about creating new conversations. Building a truly communal space for the digital humanities requires that we all approach that space with a commitment to: 1) creating open and non-hierarchical dialogues; 2) championing non-traditional work that might not otherwise be recognized through conventional scholarly channels; 3) amplifying marginalized voices; 4) advocating for students and learners; and 5) sharing generously to support the work of our peers. Wealth and Poverty in Jewish Tradition Leonard J. Greenspoon, 2015-10-15 Economic inequity is an issue of worldwide concern in the twenty-first century. Although these issues have not troubled all people at all times, they are nonetheless not new. Thus, it is not surprising that Judaism has developed many perspectives, theoretical and practical, to explain and ameliorate the circumstances that produce serious economic disparity. This

volume offers an accessible collection of articles that deal comprehensively with this phenomenon from a variety of approaches and perspectives. Within this framework, the fourteen authors who contributed to *Wealth and Poverty in Jewish Tradition* bring a formidable array of experience and insight to uncover interconnected threads of conversation and activities that characterize Jewish thought and action. Among the questions raised, for which there are frequently multiple responses: Is the giving of tzedakah (generally, although imprecisely, translated as charity) a command or an impulse? Does the Jewish tradition give priority to the donor or to the recipient? To what degree is charity a communal responsibility? Is there something inherently ennobling or, conversely, debasing about being poor? How have basic concepts about wealth and poverty evolved from biblical through rabbinic and medieval sources until the modern period? What are some specific historical events that demonstrate either marked success or bitter failure? And finally, are there some relevant concepts and practices that are distinctively, if not uniquely, Jewish? It is a singular strength of this collection that appropriate attention is given, in a style that is both accessible and authoritative, to the vast and multiform conversations that are recorded in the Talmud and other foundational documents of rabbinic Judaism. Moreover, perceptive analysis is not limited to the past, but also helps us to comprehend circumstances among today's Jews. It is equally valuable that these authors are attuned to the differences between aspirations and the realities in which actual people have lived.

Each agribusiness leader profiled in *From Farms to Incubators* tells her own story of how she used agtech innovation to solve specific business problems and succeed. These business cases demonstrate the influence of female innovation, the new technologies applied to agribusiness problems, and the career opportunities young women can find in agribusiness. *From Farms to Incubators* also documents the sweeping changes happening in American food production. Growers in the United States and around the world face rising challenges, including climate change, limited water and land supply, uncertainties in immigration policy, a severe labor shortage, and the problem of feeding a rising population estimated at 9 billion in 2050. The entrepreneurs profiled in *From Farms to Incubators* are the new leaders in tackling these problems through tech innovation. The women profiled speak frankly on the advantages and drawbacks of technological solutions to agriculture and offers lessons in making technology productive in real work. Offering both exhilarating role models for young women seeking high technology careers and a provocative glimpse into the future of food production, *From Farms to Incubators* documents how women leaders are profitably disrupting the world's oldest industry.
