**Intelligence in Ape and Man (Psychology Revivals)** David Premack,2014-01-27 What is language and what is the nature of the intelligence that can acquire it? This volume, originally published in 1976, describes 10 years of research devoted to these questions. The author describes his programmatic research of decomposing language into atomic constituents, designing and applying training programs for teaching these to chimpanzees, and for teaching chimps major human ontological categories, as well as for interrogative, declarative, and imperative sentence forms. The volume details the progress from teaching apes simple predicates such as same-different, to more complex predicates such as if-then, and the success of the program led to the following questions directly related to intelligence: What made the training program effective? What is the cognitive equipment of the species which enables it to learn language? What does this tell us about human intelligence? The answers were suggested in terms of conceptual structure, representational capacity, memory and the ability to handle second-order relations. The results of this experimentation, which resulted in synonymy in some animals, shed light not only on the nature of language, but the nature of intelligence as well. One of the earliest ape language and intelligence studies, today this classic can be read and enjoyed again in its historical context.

**East-West Symbioses** Eugene Eoyang,2019-03-15 This book explores the encounters between “East” and “West”, studying how “they get along”. These exchanges involve deliberate exoticizations and incommensurabilities, as well as creative fusions, such as Matteo Ricci, a Jesuit monk in the late 16th-early 17th centuries who learned Chinese in Beijing well enough to compose works in Chinese, and Octavio Paz, the Mexican Nobel Laureate, who admired Chinese civilization. The book also

considers the effect of the West on Asian countries, the cases of Japan and Turkey, who tried to “modernize” by becoming more “Western”, and the examples of China and Korea, who adopted Western forms of theatre to advance a distinctly Asian aesthetic. It will appeal to anyone seeking more than a superficial understanding of the encounters between “East” and “West”.

### **The Phenomenological Heart of Teaching and Learning**

Katherine Greenberg, Brian Sohn, Neil Greenberg, Howard R Pollio, Sandra Thomas, John Smith, 2019-01-10 This book presents a carefully constructed framework for teaching and learning informed by philosophical and empirical foundations of phenomenology. Based on an extensive, multi-dimensional case study focused around the ‘lived experience’ of college-level teaching preparation, classroom interaction, and students’ reflections, this book presents evidence for the claim that the worldviews of both teachers and learners affect the way that they present and receive knowledge. By taking a unique phenomenological approach to pedagogical issues in higher education, this volume demonstrates that a truly transformative learning process relies on an engagement between consciousness and the world it ‘intends’.

**Feral Children and Clever Animals** Douglas K. Candland, 1993 A comparison of accounts of attempts to civilize feral children with studies of the exploits of apes who communicate in sign language offers insights into the essence of

human nature and attempts to communicate with other members of the animal kingdom.

### Gebrauchsanweisung Chinesisch Françoise

Hauser, 2015-03-18 Eine Gebrauchsanweisung für alle, die sich für die chinesische Sprache interessieren oder interessiert werden sollten: Touristen, Geschäftsreisende, angehende wie fortgeschrittene Lerner finden hier eine Unmenge nützlicher Informationen. Wie ist das Chinesische strukturiert? Wo tun sich Europäer besonders schwer? Mit welchen Tricks umschiffen man diese Problembereiche? Und vor allem: Was muss man wirklich können, um den Einstieg in die Sprache zu schaffen? Im Zentrum steht die praktische Anwendbarkeit des Gelernten: von der Anleitung wie schreibe ich ein Zeichen im Wörterbuch nach bis zur Frage wie kommt die Schrift in den Computer. Ein vergleichbares Werk existiert auf Deutsch bisher nicht.

**Anthology** Wan Zhen, 2022-12-22 Zheng Xiaoguang was a huge fan of online games. Although she did not have much money to splash out on the games, she had a big brother to take care of her. With the help of her capable big brother, she always enjoyed herself when exploring the gaming world. One day, his big brother suddenly allied himself with another powerful and rich player Bluegreen-Clad, the gang boss of the League of Strong Families, and married her off to this Bluegreen-Clad without telling her beforehand. At first, she thought gleefully, Well, lucky me. Bluegreen-Clad has been voted The Most Desirable Husband and Most Desirable Lover by the female players of this zone. By marrying him in the game and going around with the attractive title 'Bluegreen-Clad's wife', I'll surely court a lot of envy. Beyond her expectations, she got a lot more than that. She quickly became the target of malicious envy and the common enemy of nearly all the female players on the server Watery South. Gradually, a rumor went around. Zheng Xiaoguang was stunned and wondered, i°What? It looks like that I am not a lucky heroin

of a romantic story but a vicious girl who has stolen someone else's finance.

Zuo Tradition / Zuozhuan ,2017-05-01 Zuo Tradition (Zuozhuan; sometimes called The Zuo Commentary) is China's first great work of history. It consists of two interwoven texts - the Spring and Autumn Annals (Chunqiu, a terse annalistic record) and a vast web of narratives and speeches that add context and interpretation to the Annals. Completed by about 300 BCE, it is the longest and one of the most difficult texts surviving from pre-imperial times. It has been as important to the foundation and preservation of Chinese culture as the historical books of the Hebrew Bible have been to the Jewish and Christian traditions. It has shaped notions of history, justice, and the significance of human action in the Chinese tradition perhaps more so than any comparable work of Latin or Greek historiography has done to Western civilization. This translation, accompanied by the original text, an introduction, and annotations, will finally make Zuozhuan accessible to all.
