Treaty Series 2956/Recueil des Traités 2956 Office of Legal Affairs,2020-10-02 In accordance with Article 102 of the Charter and the relevant General Assembly Resolutions, every treaty and international agreement registered or filed and recorded with the Secretariat since 1946 is published in the United Nations Treaty Series. At present, the collection includes about 30,000 treaties reproduced in their authentic languages, together with translations into English and French, as necessary.
The Elements of Sugar Refining Charles Frederick Bardorf,J. A. B. Ball,1925
Process and Plant Safety Ulrich Hauptmanns,2020-10-01 Accidents in industrial installations are random events. Hence they cannot be totally avoided. Only the probability of their occurrence may be reduced and their consequences be mitigated. The book proceeds from hazards caused by materials and process conditions to indicating engineered and organizational measures for achieving the objectives of reduction and mitigation. Qualitative methods for identifying weaknesses of design and increasing safety as well as models for assessing accident consequences are presented. The quantitative assessment of the effectiveness of safety measures is explained. The treatment of uncertainties plays a role there. They stem from the random character of the accident and from lacks of knowledge of some of the phenomena to be addressed. The reader is acquainted with the simulation of accidents, with safety and risk analyses and learns how to judge the potential and limitations of mathematical modelling. Risk analysis is applied amongst others to “functional safety” and the determination of “appropriate distances” between industry and residential areas (land-use planning). This shows how it can be used as a basis for safety-relevant decisions. Numerous worked-out examples and case studies addressing real plants and situations deepen the understanding of the subjects treated and support self-study.
Inter cives necnon peregrinos Jan Hallebeek,Martin Schermaier,Roberto Fiori,Jean-Pierre Coriat,Ernest Metzger,2014-07-16 The contributions to this volume are concerned with the Roman law of antiquity in its broadest sense, covering both private and public law from the Roman Republic to the Byzantine era, including legal papyrology. They also examine the reception of Roman law in Western Europe and its colonies (specifically the Dutch East Indies) from the Middle Ages to the promulgation of the German Bürgerliche Gesetzbuch in 1900. They reflect the wide interests of Professor Boudewijn Sirks, whom the volume honours on the occasion of his retirement and whose work and career have transcended frontiers and nations.

Power And Prejudice Paul Gordon Lauren,2018-02-21 Since it first appeared, Power and Prejudice has been hailed as a bold, pioneering work dealing with one of the central and most controversial issues of our time?the relationship between racial prejudice and global conflict. Powerfully written and based on documents from archives on several continents, this award-winning book convincingly demonstrates that the racial issue, or what W.E.B. Du Bois called ?the problem of the twentieth century,? has profoundly influenced most major developments in international politics and diplomacy.Lauren begins with a thought-provoking discussion of the heavy burden of history's pattern of conquest and slavery wherein skin color identified master and slave, conqueror and conquered. He then examines bitter twentieth-century conflicts over race, including immigration exclusion and the ?Yellow Peril,? the ?Final Solution? of the Holocaust, decolonization, the impact of the Cold War on the civil rights movement, and the global struggle against racial prejudice. In this new edition, Lauren adds dimensions about Asia, Latin America, and the Pacific, exploring the racial dimensions of immigration exclusion and warfare. He contributes significant new material about international issues regarding indigenous peoples around the world, including self-determination, sovereignty, and discrimination. And finally, he examines the dramatic events surrounding the end of apartheid in South Africa.Eloquent, provocative, and informed by first-rate scholarship, the insights of this highly original work will appeal to general readers as well as to students and scholars from a broad range of disciplines.
