Happiness Across Cultures Helaine Selin, Gareth Davey, 2012-02-28 Different cultures experience happiness differently. Traditionally, the West is considered materialistic, and happiness is said to come from achievement and acquisition. The East is said to be more people-oriented, where happiness is a result of deep personal interactions. Thus, poor people can be happier in the East than the West, because they are not so concerned with possession and more with society. This book considers happiness and quality of life in non-Western countries and cultures. Its coverage is diverse and spans the breadth of the non-Western world, revealing unique perspectives of happiness and life quality embedded in rich cultural traditions and histories.

Incongruous Entertainment Steven Cohan, 2005-10-20 With their lavish costumes and sets, ebullient song and dance numbers, and iconic movie stars, the musicals that mgm produced in the 1940s seem today to epitomize camp. Yet they were originally made to appeal to broad, mainstream audiences. In this lively, nuanced, and provocative reassessment of the mgm musical, Steven Cohan argues that this seeming incongruity—between the camp value and popular appreciation of these musicals—is not as contradictory as it seems. He demonstrates that the films' extravagance and queerness were deliberate elements and keys to their popular success. In addition to examining the spectatorship of the mgm musical, Cohan investigates the genre's production and marketing, paying particular attention to the studio's employment of a largely gay workforce of artists and craftspeople. He reflects on the role of the female stars—including Judy Garland, Debbie Reynolds, Esther Williams, and Lena Horne—and he explores the complex relationship between Gene Kelley's dancing and his masculine persona. Cohan looks at how, in the decades since the 1950s, the marketing and reception of the mgm musical have negotiated the more publicly recognized camp value attached to the films. He considers the status of *Singin' in the Rain* as perhaps the first film to be widely embraced as camp; the repackaging of the musicals as nostalgia and camp in the *That's Entertainment!* series as well as on home video and cable; and the debates about Garland's legendary gay appeal among her fans on the Internet. By establishing camp as central to the genre, *Incongruous Entertainment* provides a new way of looking at the musical.

Advanced Methods of Electrophysiological Signal Analysis and Symbol Grounding? Carsten Allefeld, Peter Beim Graben, Jürgen Kurths, 2008 What is the origin of meaning? How does the brain achieve symbolic computation? What are the neural correlates of cognitive processes? These challenging questions at the borderline between neuroscience, cognitive science, nonlinear dynamics, and philosophy are related to the symbol grounding problem: How is the meaning of words and utterances grounded in the dynamics of the brain and in the evolution of beings alive interacting with each other and with their environments? Simply by convention? Or is there an inherent correctness of names, of syllables, or even of sounds? This new book examines these important issues and presents probing analyses of the latest research.

Special attention is given to tombs of Westerners and Russians still extant in Greater China, but also to those of some noted Chinese who were involved in transnational history during the 20th century. Tombs have a special

potential to cast familiar things in a new light. The Redemption of Wolf 302 Rick McIntyre, 2021-10-19 From the renowned wolf researcher and author of *The Rise of Wolf 8* and *The Reign of Wolf 21* comes a stunning account of an unconventional alpha male. A lover, not a fighter. That was wolf 302. A renegade with an eye for the ladies, 302 was anything but Yellowstone's perfect alpha male. For starters, he fled from danger. He begged for food from other wolves, ditched females he'd gotten pregnant, and even napped during a heated battle with a rival pack! But this is not the story of 302's failures. This is the story of his dramatic transformation. And legendary wolf writer Rick McIntyre witnessed it all from the sidelines. As McIntyre closely observed with his spotting scope, wolf 302 began to mature, and, much to McIntyre's surprise, became the leader of a new pack in his old age. But in a year when game was scarce, could the aging wolf

provide for his family? Had he changed enough to live up to the legacies of the great alpha males before him? Recounted in McIntyre’s captivating storytelling voice and peppered with fascinating insights into wolf behavior, *The Redemption of Wolf 302* is a powerful coming-of-age tale that will strike a chord with anyone who has struggled to make a change, big or small. “With this third installment of Rick McIntyre’s magnum opus, the scope and ambition of the project becomes clear: nothing less than a grand serialization of the first twenty years of wolves in Yellowstone, a kind of lupine *Great Expectations*.”—Nate Blakeslee, New York Times-bestselling author of *American Wolf*
