*William Harding Carter and the American Army* Ronald Glenn Machoian, 2006 In this first full-length biography of William Harding Carter, Ronald G. Machoian explores Carter's pivotal role in bringing the American military into a new era and transforming a legion of citizen-soldiers into the modern professional force we know today. Machoian follows Carter's career from his boyhood in Civil War Nashville, where he volunteered to carry Union dispatches, through his involvement in bitter campaigns against Apaches in the Southwest, to his participation in the Indian Wars' tragic final chapter at Wounded Knee in 1890. Carter's life and work reflected his times—the Gilded Age and the Progressive era. Machoian shows Carter as an able intellectual, attuned to contemporary cultural trends and tirelessly devoted to ensuring that the U.S. Army kept abreast of them. In collaboration with Secretary of War Elihu Root, he created the U.S. Army War College and pushed through Congress the General Staff Act of 1903, which replaced the office of commanding general with a chief of staff and modernized the staff structure. Later, he championed the replacement of the state militia system with a more capable national reserve and advocated wartime conscription. Since his death in 1925, Carter's important contributions toward modernizing the U.S. Army have been overlooked. Machoian redresses this oversight by highlighting Carter's contributions to the U.S. military's growth as a professional institution and the nation's transition to the twentieth century.

**The Presidency of Warren G. Harding** Eugene P. Trani, David L. Wilson, 1977 In this volume, Eugene P. Trani and David L. Wilson evaluate the presidency of Warren G. Harding by surveying scholarship on the Harding years. Harding—generally considered one of the weakest American presidents—was elected chief executive in 1920, during a time of uncertainty and frustration for many of the American people. The authors assess the critics and defenders of Harding in light of the administration's accomplishments and failures. Both the strengths and weaknesses of the Harding administration came from the people President Harding selected for high office. Charles G. Dawes accomplished much by implementing sound budgetary practices in the federal government for the first time in history. Herbert Hoover became the dominant figure in the Harding administration, using his influence to advance both domestic and foreign policies. And Charles Evans Hughes proved to be an able, if conservative, secretary of state. Yet the accomplishments of these and other capable men tended to be short-term in nature. Trani and Wilson describe the widespread corruption and malfeasance in the Harding administration, pointing out the Harding's erratic judgment of character caused many of his problems as president. His personal habits—philandering, playing poker, and drinking liquor during national prohibition—tainted his reputation and appeared to connect him to the activities of his associates. Tragically, Harding sought to avoid controversy, even if it meant ignoring real problems or evading justice, and thus failed to provide moral leadership for the nation. Harding and his advisers demonstrated little understanding of the social and economic forces at work in the country and abroad. In the early 1920s, the United States continued the transition from a rural society to an urbanized and industrialized society. Rather than adjusting the government to meet the needs of all segments of an industrialized society, Harding instituted normalcy, an attempt to maintain the values of a rural society rapidly disintegrating under the impact of social and economic change. The few real accomplishments of the Harding administration were buried under scandal. and in the end, Harding must be rated as an ineffective leader at a time when the nation would have been better served by a different, more imaginative approach to government.

**First Lady Florence Harding** Katherine Amelia Siobhan Sibley, 2009 Turning to primary sources others have overlooked, Sibley challenges the clichés about Florence Harding's time in the national spotlight. She describes her support for racial equality, lobbying for better treatment for veterans and female prisoners and her lifelong interest in preventing animal cruelty.

*Nova Scotia Immigrants to 1867* , 1992 Col. and Mrs. Smith labored over a decade, to construct this vast index of heretofore widely scattered Nova Scotia immigrants from numerous archives in North America and abroad (Part 1); and from 450 articles in Nova Scotia periodicals (Part 2). Easily the most comprehensive sourcebook on Nova Scotia immigrants ever published, and a great tool for New England ancestral research, whether the ancestor's origins are Scottish, Irish, English, German, or Loyalist.

*The Development of Trans-Jordan 1929-1939* Ma'n Abū Nūwār, 2006 Very little has been written about the 1929-1939 history of Trans-Jordan—a decade of importance in the history of its struggle for independence and sovereignty, its progress and development, its relations with Palestine and the neighboring Arab countries, and the new awakening of Arab nationalism. During the 1930s, although still under the mandate of the League of Nations (which was entrusted to Great Britain), Trans-Jordan began to develop an international

presence. The people remained very poor however, and the government was supported by a grant-in-aid from the British government. The British Resident in Amman, Col. Henry Cox, used that grant-in-aid as a justification for his financial and political control over the new mandated state, which limited its sovereignty. At this time, Great Britain had the largest empire on earth. Her wealth and power, as well as the survival of her empire, depended mainly on her ability to defend her trade routes with her overseas colonies, protectorates, and mandated territories. The Amir Abdullah Ibn al Husain wanted to take Trans-Jordan back from Great Britain and develop it into an independent state. This book examines the decade of that struggle.

**Warren G. Harding** John W. Dean,2004-01-07 In this wise and compelling biography, Dean--no stranger to controversy himself--recovers the truths and explodes the myths surrounding the 29th president's tarnished legacy.

**Dry Diplomacy** Lawrence Spinelli,2007-11 Dry Diplomacy is the first complete treatment of the diplomatic ramifications of Prohibition. Spinelli explores the widespread effects on international law, shipping, foreign policy, and trade. In this context, American interests appeared to be pitted against those of Britain as she sought to recover from the First World War by expanding trade, promoting domestic industries such as whiskey distilling, and reasserting shipping dominance in the sea lanes. American interference with international shipping--undertaken in order to disrupt what Presidents Harding and Coolidge deemed British alcohol smuggling--would lead to a diplomatic crisis in the mid-1920s.

**Dreadnought Gunnery and the Battle of Jutland** John Brooks,2004-08-02 This new book reviews critically recent studies of fire control, and describes the essentials of naval gunnery in the dreadnought era. With a foreword by Professor Andrew Lambert, it shows how, in 1913, the Admiralty rejected Arthur Pollen's Argo system for the Dreyer fire control tables. Many naval historians now believe that, consequently, British dreadnoughts were fitted with a system that, despite being partly plagiarised from Pollen's, was inferior: and that the Dreyer Tables were a contributory cause in the sinking of Indefatigable and Queen Mary at Jutland. This book provides new and revisionist accounts of the Dreyer/Pollen controversy, and of gunnery at Jutland. In fire control, as with other technologies, the Royal Navy had been open, though not uncritically, to innovations. The Dreyer Tables were better suited to action conditions (particularly those at Jutland). Beatty's losses were the result mainly of deficient tactics and training: and his battlecruisers would have been even more disadvantaged had they been equipped by Argo. It follows the development of the Pollen and Dreyer systems, refutes the charges of plagiarism and explains Argo's rejection. It outlines the German fire control system: and uses contemporary sources in a critical reassessment of Beatty's tactics throughout the Battle of Jutland.

**The Professional Ideal in the Victorian Novel** S. Colon,2007-05-14 This book makes the claim that Victorian novels do not simply reflect professional ideology; they also scrutinize its dilemmas, contradictions, and limitations. In this volume, innovative readings of canonical texts like Sybil, Barchester Towers, Romola, and Daniel Deronda accompany groundbreaking work on less familiar texts like Tancred and My Lady Ludlow to illuminate the Victorians' own struggles with the emerging professional ideology. The Victorians' engagement with fundamental ideas of professional identity such as autonomy, meritocracy, and the service ethic reveal professionalism's dual basis in materialist and idealist rationalities.
