Backgammon For Dummies Chris Bray, 2011-02-14 A

comprehensive and fun guide to Backgammon! Backgammon is one of the oldest games in the world, the origins of which date back some 5000 years – and it's still going strong. It enjoyed a huge resurgence in the 1970s, and then again in the 1990s with the popularity of the Internet, where millions of people play tournaments online every day. Today, backgammon's following in the UK is huge, with a dedicated British Isles Backgammon Association, and hundreds of face-to-face tournaments taking place across the UK every year. In this book, backgammon expert Chris Bray walks you through the basics of setting up a board, opening strategies, middle and end-game tactics, and tips on when to make key moves. You'll also get to grips with basic probabilities, the doubling cube and the 25% rule. And if you want to take your gaming further, there's plenty of advice to get you started in tournament backgammon, as well as playing online. Suitable for both beginners and experienced player looking for more tips and techniques, *Backgammon For Dummies* includes coverage on:

Starting and Playing the Game
Handling the Middle Game
Bearing Off (The Last Lap)
Varying the Play

Hikayat Abi al-Qasim Selove Emily Selove,2016-02-12 Hikayat Abu al-Qasim, probably written in the 11th century by the otherwise unknown al-Azdi, tells the story of a gate-crasher from Baghdad named Abu al-Qasim, who shows up uninvited at a party in Isfahan. Dressed as a holy man and reciting religious poetry, he soon relaxes his demeanour, and, growing intoxicated on wine, insults the other dinner guests and their Iranian hometown. Widely hailed as a narrative unique in the history of Arabic literature, a iKA

yah also reflects a much larger tradition of banquet texts. Painting a picture of a party-crasher who is at once a holy man and a rogue, he is a figure familiar to those who have studied the ancient cynic tradition or other portrayals of wise fools, tricksters and saints in literatures from the Mediterranean and beyond. This study therefore compares a ikA yah, a mysterious text surviving in a single manuscript, to other comical banquet texts and party-crashing characters, both from contemporary Arabic literature and from Ancient Greece and Rome.

Pro Full-Text Search in SQL Server 2008 Hilary Cotter, Michael Coles, 2009-01-29 Businesses today want actionable insights into their data—they want their data to reveal itself to them in a natural and user-friendly form. What could be more natural than human language? Natural-language search is at the center of a storm of ever-increasing web-driven demand for human-computer communication and information access. SQL Server 2008 provides the tools to take advantage of the features of its built-in enterprise-level natural-language search engine in the form of integrated full-text search (iFTS). iFTS uses text-aware relational queries to provide your users with fast access to content. Whether you want to set up an enterprise-wide Internet or intranet search

engine or create less ambitious natural-language search applications, this book will teach you how to get the most out of SQL Server 2008 iFTS: Introducing powerful iFTS features in SQL Server, such as the FREETEXT and CONTAINS predicates, custom thesauruses, and stop lists Showing you how to optimize full-text query performance through features like full-text indexes and iFilters Providing examples that help you understand and apply the power of iFTS in your daily projects

As in paint-by-number, each template is divided into dozens of spaces, each with a number that corresponds to a particular sticker. Find the sticker, peel it, place it. And then the next, and the next, and the next, until your “poster” comes to life. *Paint by Sticker: Travel* includes everything you need to create twelve vibrant, nostalgic travel posters—the stickers, the templates, the intuitive directions. The works include Moscow, home of St. Basil’s Cathedral and its candy-colored onion domes. India and the Taj Mahal, crown jewel in a world of fascinating destinations. Bermuda. Monaco. Japan and its cherry blossoms and pagodas. Bon voyage!
