To keep things quick and accessible, the book is built around 50 fun and informative tips, covering everything from resistant starches to the glycemic index. Meant to be picked up and read piecemeal, every page is packed with interesting tips designed to improve nutrition and relieve stress and guilt. Over 100 million people in the United States have prediabetes or diabetes, and nearly half of all Americans have at least one risk factor for heart disease. In chronic conditions like these, improved nutrition and weight loss can sometimes prevent, delay, or improve long-term complications. This book is filled with diet strategies for weight loss and overall better health that can help any one, on any schedule, eat and feel better.

Knowledge of alarming risks from toxic chemicals provided in an entire chapter of this book helps prevent birth defects, still birth, childhood and adult chronic diseases, e.g., ADD, Autism, Asthma, Cancer, Parkinson s, Multiple Sclerosis, learning deficits, poor memory and a whole host of other ailments, which can surface 10 to 30 years after exposure by breathing, ingestion, or absorption through the skin. Shockingly doctors in Canada warn after research that genetics, i.e., DNA interference by toxins used in the garden can appear in the next generation as mental and physical defects, disabilities, disease and more. An entire Resource Directory Chapter with contact information is dedicated to helping those wishing to find safer, non-toxic ready-made gardening and home alternatives. A wonderful gift for Mother s or Father s Day, Christmas, birthdays, bridal registry, PTA groups, organic gardener networks and pet owners. About the Author Author, Tui Rose, began listening to handy hints on the radio in New Zealand since the age of 10, before the family on a dairy farm got TV. As a married woman, she and her husband were avid gardeners and landscapers. Neighbors and weekend drivers would drive slowly by and even stop to admire and photograph their garden scene, a little paradise. Tui was tragically widowed in her early 30 s and left to raise two young children as a single mother. She worked as a registered nurse, having broad experience for over 35 years. Tui is widely travelled, having been accepted for the prestigious position of private nurse for Lady Winston Churchill in London from 1972 to 1973. When Tui, sustained a spinal cord injury requiring surgeries 15 years ago, she could no longer work in her trained capacity, so turned her attention to prevention by drawing upon her medical knowledge and experience to research non-toxic alternatives in her goal to provide a series of books for her upcoming Wholesome Living Collection. Preventing illness and disease, and making life easy, safe, natural and thrifty is her prime focus. Tui is also author of an Amazon 5-star book and multiple times publisher s best monthly seller titled: *Going Green Using Diatomaceous Earth How-To Tips*. She is the first author in the world to write a consumer book on this subject, a companion book to natural, non-toxic gardening.
