**Here Comes the Garbage Barge!** Jonah Winter, 2010-02-09 This New York Times Best Illustrated Book is a mostly true and completely stinky story that is sure to make you say, "Pee-yew!" Teaching environmental awareness has become a national priority, and this hilarious book (subtly) drives home the message that we can't produce unlimited trash without consequences. Before everyone recycled . . . There was a town that had 3,168 tons of garbage and nowhere to put it. What did they do? Enter the Garbage Barge! Amazing art built out of junk, toys, and found objects by Red Nose Studio makes this the perfect book for Earth Day or any day, and photos on the back side of the jacket show how the art was created. Here Comes the Garbage Barge was a New York Times Best Illustrated book of 2010, a Huffington Post Best Picture Book of the Year,

and a School Library Journal Best Book of the Year. The Washington Post said, "Cautionary? Yes. Hilarious? You betcha!" and the New York Times Book Review raved, "[A] glorious visual treat."

**Mustang Boss 302** Donald Farr, 2011-08-29 Of the legendary names in the history of the Ford Mustang, one stands apart: Boss. Originally created to homologate the new Boss 302 engine for SCCA Trans-Am racing, the Boss 302 Mustang was built in limited numbers for the street. Designed by legend Larry Shinoda, the Boss cars were easily distinguished from their less potent stable mates by their unique front and rear spoilers, rear window slats, and the omission of the standard Mustang's (fake) rear fender brake ducts. Also standard was a shaker hood scoop and bold graphics. Though Mustang performance faded to all-time lows as the 1970s rolled on, there was good news on the way. The pairing of the venerable 302 Windsor engine with the new Fox-body platform for the 1979 Mustang might not have seemed significant at the time, but it was the first edition of what would become a performance institution in the late 20th century: the 5-liter Mustang was an overwhelming force on the streets and tracks through the end of its production in 1995. With no small amount of fanfare, Ford is paying homage to its performance past with the re-introduction of the 5.0 liter powerplant in the Mustang GT for 2011.

*Coming Through* Genevieve W. Chandler, 2008 *Coming Through* marks the first

complete publication of these interviews with former slaves and their descendants living in the Waccamaw Neck region of South Carolina as collected by Genevieve W. Chandler in the 1930s as part of the WPA Federal Writers' Project. Between 1936 and 1938 Chandler interviewed more than one hundred individuals in and around All Saints Parish, a portion of Horry and Georgetown counties located between the Waccamaw River and the Atlantic Ocean. Her subjects spoke freely with her on topics ranging from slave punishment to folk medicine, from conditions in the Jim Crow South to the exploits of Brer Rabbit. *Coming Through* consists primarily of interviews with forty-nine Gullah-speaking African American informants sharing life experiences with Chandler. The subjects range in age from 9-year-old George Kato Singleton to 104-year-old Welcome Bees. A biography of each subject accompanies the interviews. Collectively these interviews form an intimate portrait of a fascinating subculture of the Carolina coast and the Sea Islands as shared with a remarkable woman who had special access to converse with the people of this traditionally insular world. Moreover they provide an unparalleled firsthand account of the African American experience in South Carolina in the words of those who lived it.--BOOK JACKET.

**Deconstructing Organized Crime** Joseph L. Albin, Jeffrey Scott McIlwain, 2012-09-11 What is organized crime? There have been many answers over the decades from scholars, governments, the media, pop culture and criminals themselves. These answers cumulatively created a Mafia Mystique that dominated discourse until after the Cold War, when transnational organized crime emerged as a pronounced, if nebulous, threat to global security and stability. The authors focus both on the American experience that dominated organized crime scholarship in the second half of the 20th

century and on the more recent global scene. Case studies show that organized crime is best understood not as a series of famous gangsters and events but as a structure of everyday life formed by numerous political, social, economic and anthropological variables. Instructors considering this book for use in a course may request an examination copy here.

**The Customer is Boss** John Tschohl, 1993 If all that's been written about customer service in recent years is true, then why don't businesses provide good service on a consistent basis? Tschohl contends the reason is because not enough customers demand it on a consistent basis. His practical advice and guidelines will show consumers how to effectively challenge bad customer service and gain satisfaction in dealing with all types of service providers, including airlines, retailers, and restaurants. Your Boss Is Not Your Mother Debra Mandel, 2009-03-01 Your Boss is Not Your Mother is an essential new guide to uprooting and solving the underlying problems that cause office drama, with positive guidance for improving workplace relationships. Most people who are unhappy at work attribute it to their relationship with coworkers. By continually getting sucked into workplace drama, they're usually replicating problems they had with parents, siblings, or others in childhood. Dr. Debra Mandel attacks these workplace problems at the roots. Using real-life stories and anecdotes, she demonstrates how to respond to people in the workplace with a clear head. This warm and insightful guide is full of interactive features—self-tests, exercises and checklists—designed to help you explore and assess your workplace interactions, let go of negative influences, and take charge of your work life.

**Ranching and the American West: A History in Documents** Susan

Nance,2021-09-17 The transformation of the American West is one of the key topics in the study of both US history and global environmental history. The role of ranching in the West is also central to the growing field of animal history. This volume covers the periods between the early Indigenous acquisition of horses in the eighteenth century, to the introduction of Hispanic horsemanship techniques and market cattle in the "Old West," and finally to the work of twentieth- and twenty-first-century ranching families sustaining their ways of life. The documents in this volume reveal not simply the human past but also the distinct histories of cattle, horses, and the land. Readers will explore intersecting themes of capitalism and beef, environmental change, rural labor, and gender and racial politics as debated by westerners themselves, as well as the meaning and power of the cowboy myth in American life. The introduction incorporates recent scholarship and provides a fresh look at this key topic in American history, while informative headnotes and rich annotations help orient the reader within the historical sources.

*Dual Narrative Dynamics* Dan Shen,2022-12-30 Combining narratological and stylistic methods, this book theorizes dual narrative dynamics consisting of plot development and covert progression and demonstrates the consequences for the interpretation of literary works. In narratives with such dynamics, writers work simultaneously with overt and covert trajectories of signification, establishing a range of relationships between them. The two parallel narrative movements may complement, contradict or even subvert each other, and these relationships significantly influence readers' understanding not just of events but also of characters, themes, and aesthetic values. The book provides a systematic theoretical account of such previously neglected

dual narrative dynamics, substantiated and enriched by the textual analysis of works by Ambrose Bierce, Kate Chopin, Franz Kafka, and Katherine Mansfield. The study explores the many ways that these authors have used dual dynamics to increase the power of their narratives. In addition, the book identifies the challenges such dual dynamics present not only for narratology but also for stylistics and translation studies, and it develops sound and provocative proposals for meeting those challenges. In taking an interdisciplinary approach, this book will appeal to scholars and students in the fields of narrative and literary theory, literary criticism, literary stylistics, and translation studies.

Managing Your Boss Rashmi Datt, 2015-07-08 This book provides valuable insight and practical tips through case studies and examples based on real life experiences of middle and senior managers. While endless material (books, training workshops, seminars and studies) is churned out on leaderships skills, followership, the art of working effectively and harmoniously with superiors is underestimated. Valuable time and energy are spent (at the office water-cooler or family dinner-table) in crying, Why can't my boss be like me/like my ex-boss -- more appreciative; more enterprising more considerate; more communicative; less rigid...
