**Greek Text of Jeremiah** Sven Soderlund,1987-03-01 This work contributes to the growing body of work on the Septuagint and specifically to the book of Jeremiah and in turn critiques and evaluates the work that has grown up around the Greek translation. Soderlund focuses specifically on chapter 29 as, he argues, this chapter epitomizes the issues and concerns of the text as a whole. The examination of the inner-Greek critical problem can be plentifully analysed in this chapter, while the oracles against the Philistines and Edom are representative of the important textual decisions relevant to this book. Thus does Soderlund include a history of the Greek Text of Jeremiah as well as an in-depth analysis of the methodology in Jeremiah in this careful and systematic work.

**Stalin's Nomads** Robert Kindler,2018-08-24 Robert Kindler's seminal work is a comprehensive and unsettling account of the Soviet campaign to forcefully sedentarize and collectivize the Kazakh clans. Viewing the nomadic life as unproductive, and their lands unused and untilled, Stalin and his inner circle pursued a campaign of violence and subjugation, rather than attempting any dialog or

cultural assimilation. The results were catastrophic, as the conflict and an ensuing famine (1931-1933) caused the death of nearly one-third of the Kazakh population. Hundreds of thousands of nomads became refugees and a nomadic culture and social order were essentially destroyed in less than five years. Kindler provides an in-depth analysis of Soviet rule, economic and political motivations, and the role of remote and local Soviet officials and Kazakhs during the crisis. This is the first English-language translation of an important and harrowing history, largely unknown to Western audiences prior to Kindler's study.
