For Instructors: Teaching supplements are available for this title.

Radio's Hidden Voice Hugh Richard Slotten,2009 A detailed study of American public radio's early history

Hidden Talent Tom Kemper,2009-11-03 Katharine Hepburn, John Wayne, Lauren Bacall—behind each of these stars was a hidden force: the talent agent. In this first-ever history of Hollywood agents, Tom Kemper mines agency archives to present an insider's view on their tooth-and-claw rise to power during the studio era. It's a tale of ambitious characters, savvy calculation, muckraking, financial ruin, and ultimate triumph, and establishes the agent's vital role in the Hollywood business world. Existing studies characterize agents as a product of the 1950s, but Kemper revises the record to show how agents emerged from the primordial film industry during the late 1920s and carved themselves a permanent niche. Through case studies of key figures like Myron Selznick and Charles Feldman, we see that the agent's character and social relationships functioned within a business structure—a good reputation and powerful connections were his most precious assets. With wit and precision, Kemper locates Hollywood agents at the crossroads of talent and profit, and captures their central and enduring role in the burgeoning film industry.

Military Medicine and the Hidden Costs of War Tanisha M. Fazal,2024-03-15 A highly original comprehensive history of US military medicine. Decisions to go to war are often framed in cost-benefit terms, and typically such assessments do not factor in longer term costs. However, recent dramatic improvements in American military medicine have had an unanticipated effect: saving more soldiers' lives has vastly increased long-term, downstream costs of war with profound consequences for global politics in an era of heightened great power competition. In *Military Medicine and the Hidden Costs of War*, Tanisha M. Fazal traces the modern history of medical treatment and casualty rates in American conflicts from the Civil War to the more recent counterinsurgency wars. As she shows, wars became increasingly survivable for wounded troops, to the point now where a large majority of wounded soldiers survive. Yet the human and financial implications of this steep increase in the wounded-to-killed ratio are dramatic, and her powerful analysis of this shift provides a necessary corrective to how we understand the costs of war. For each major conflict, Fazal analyzes the weapons used, injuries sustained, and policies put in place for veterans' care and pensions. As she argues, these improvements have significant financial and deeply personal implications for the returned wounded and their families, as well as the US government and its citizenry. Fazal's analysis highlights the significance of policymakers underestimating the costs of war, which in turn makes it easier both to initiate and continue military action abroad, contributing to Americas' penchant for engaging in so-called endless wars. A sweeping political history, *Military Medicine and the Hidden Costs of War* will fundamentally change our understanding of the lasting consequences of America's wars.

Mac OS X 10.6 Snow Leopard Robin Williams,John Tollett,2009-09-25 The latest update of Robin Williams's bestselling guide will have you working miracles in no time with Snow Leopard, the fastest and most reliable version of the Mac OS X ever. With this book, you can learn in your own way, whether it's working through the lessons from start to finish, jumping straight to step-by-step exercises about new features, or looking up just what you need to know at that moment. There are hundreds of exciting tools and hidden gems in your Macintosh. And with the gentle, yet expert, hand of Robin Williams guiding you along the way, you will learn to take full advantage of all that Snow Leopard has to offer. If you are new to Mac OS X, you'll learn to use your Mac with help from a world-renowned teacher. From there, you can move on to customize it to suit the way you work. And if you've been using Mac OS X already, you'll learn to use all of the new features in Snow Leopard.

Introduction to Information Retrieval Christopher D. Manning,Prabhakar Raghavan,Hinrich Schütze,2008-07-07 Class-tested and coherent, this textbook teaches classical and web information retrieval, including web search and the related areas of text classification and text clustering from basic concepts. It gives an up-to-date treatment of all aspects of the design and implementation of systems for gathering, indexing, and searching documents; methods for evaluating systems; and an introduction to the use of machine learning methods on text collections. All the important ideas are explained using examples and figures, making it perfect for introductory courses in information retrieval for advanced undergraduates and graduate students in computer science. Based on feedback from extensive classroom experience, the book has been carefully structured in order to make teaching more natural and effective. Slides and additional exercises (with solutions for lecturers) are also available through the book's supporting website to help course instructors prepare their lectures.

Windows 7 For Dummies Andy Rathbone,2009-08-13 The perfect plain-English guide to the much-anticipated release of Windows 7 Whether you're new to computers or just eager to start using the newest version of Windows, *Windows For Dummies*, Enhanced Edition answers all your questions about the changes and new tools in Windows 7, enhanced with detailed video tutorials. Windows expert Andy Rathbone walks you step by step through the most common Windows 7 tasks, including managing files, applications, media, and Internet access. You'll learn how to navigate the interface, customize the desktop, and work with the file system.

You'll then go deeper into the system, discovering new features and improvements, and finding tips and techniques for getting the most out of Windows 7. Covers basic management of applications, files, and data; creating and printing documents; setting up an Internet connection and e-mail account; and online security Includes specially produced videos explaining features and illustrating techniques in greater depth Explores using Windows to edit and manage audio, video, and photo files, and how to create CDs, DVDs, and playlists with Media Center Helps you tweak and customize Windows 7 to operate your way and set up user accounts, build a home network, and maintain your PC Provides troubleshooting advice, helps you find missing files and use the Help system, and explains common error messages Windows 7 For Dummies, Enhanced Edition will have you up and running on the newest version of Windows quickly and easily.

Hidden Power James Cockayne,2017-10-01 What should we make of the outsized role organized crime plays in conflict and crisis, from drug wars in Mexico to human smuggling in North Africa, from the struggle in Crimea to scandals in Kabul? How can we deal with the convergence of politics and crime in so-called 'mafia states' such as Guinea-Bissau, North Korea or, as some argue, Russia? Drawing on unpublished government documents and mafia memoirs, James Cockayne discovers the strategic logic of organized crime, hidden in a century of forgotten political--criminal collaboration in New York, Sicily and the Caribbean. He reveals states and mafias competing - and collaborating -- in a competition for governmental power. He discovers mafias influencing elections, changing constitutions, organizing domestic insurgencies and transnational terrorism, negotiating peace deals, and forming governmental joint ventures with ruling groups. And he sees mafias working with the US government to spy on American citizens, catch Nazis, try to assassinate Fidel Castro, invade and govern Sicily, and playing unappreciated roles in the Bay of Pigs fiasco and the Cuban Missile Crisis.

How to Hide an Empire Daniel Immerwahr,2019-02-19 Named one of the ten best books of the year by the Chicago Tribune A Publishers Weekly best book of 2019 | A 2019 NPR Staff Pick A pathbreaking history of the United States' overseas possessions and the true meaning of its empire We are familiar with maps that outline all fifty states. And we are also familiar with the idea that the United States is an "empire," exercising power around the world. But what about the actual territories—the islands, atolls, and archipelagos—this country has governed and inhabited? In *How to Hide an Empire*, Daniel Immerwahr tells the fascinating story of the United States outside the United States. In crackling, fast-paced prose, he reveals forgotten episodes that cast American history in a new light. We travel to the Guano Islands, where prospectors collected one of the nineteenth century's most valuable commodities, and the Philippines, site of the most destructive event on U.S. soil. In Puerto Rico, Immerwahr shows how U.S. doctors conducted grisly experiments they would never have conducted on the mainland and charts the emergence of independence fighters who would shoot up the U.S. Congress. In the years after World War II, Immerwahr notes, the United States moved away from colonialism. Instead, it put innovations in electronics, transportation, and culture to use, devising a new sort of influence that did not require the control of colonies. Rich with absorbing vignettes, full of surprises, and driven by an original conception of what empire and globalization mean today, *How to Hide an Empire* is a major and compulsively readable work of history.

Windows 7 For Dummies Quick Reference Greg Harvey,2009-09-22 Offers an overview of the fundamentals of the new operating system, as well as information on such topics as computer management, networking, security, accessories, Internet Explorer 8, Media Center, and Windows Live Essentials.

Cocoa Programming for Mac OS X For Dummies Erick Tejkowski,2009-03-03 Cocoa programming is not only the favored development environment for Mac OS X, it's also a primary tool for creating iPhone and iPod Touch software. That makes this a great time to learn Cocoa, and *Cocoa Programming for Mac OS X For Dummies* is the ideal place to start! This book gives you a solid foundation in Cocoa and the unusual syntax of Objective-C. You'll learn what's new in Cocoa frameworks and create an application step by step. For example, you can: See how Xcode underlies your applications as the main component of Apple's IDE Examine the basics of the Objective-C language, the elements of a Cocoa interface, and object-oriented programming Use Xcode and Interface Builder Spruce up your apps with audio, video, Internet features, stylized text, and more Create applications with the stunning graphics for which Macs are famous See how to build apps with multiple documents and even executables that aren't traditional Mac apps Use all the exciting new Cocoa features Work with Cocoa numbers, arrays, Booleans, and dates Build document-based applications Simplify with key-value coding The better you understand Cocoa programming, the better the applications you can create for Mac OS X, iPhone, and iPod Touch. *Cocoa Programming for Mac OS X For Dummies* makes it easy and fun! Note: CD-ROM/DVD and other supplementary materials are not included as part of eBook file.

The Atrocity of Hunger Helene J. Sinnreich,2023-02-16 During World War II, the Germans put the Jews in Nazi-occupied Poland into ghettos which restricted their movement and, most crucially for their survival, access to food. The Germans saw the Jews as 'useless eaters,' and denied them sufficient food for survival. The hunger which resulted from this intentional starvation impacted every aspect of Jewish life inside the ghettos. This book focuses on the Jews in the Łódź, Warsaw, and Kraków ghettos as they struggled to survive the deadly Nazi ghetto and, in particular, the genocidal famine conditions. Jews had no control over Nazi food policy but they attempted to survive the deadly conditions of Nazi ghettoization through a range of coping mechanisms and survival strategies. In this book, Helene Sinnreich explores their story, drawing from diaries and first-hand accounts of the victims and survivors. This title is also available as Open Access on Cambridge Core.

Hide Folders 2009 36 Introduction

In todays digital age, the availability of Hide Folders 2009 36 books and manuals for download has revolutionized the way we access information. Gone are the days of physically flipping through pages and carrying heavy textbooks or manuals. With just a few clicks, we can now access a wealth of knowledge from the comfort of our own homes or on the go. This article will explore the advantages of Hide Folders 2009 36 books and manuals for download, along with some popular platforms that offer these resources. One of the significant advantages of Hide Folders 2009 36 books and manuals for download is the cost-saving aspect. Traditional books and manuals can be costly,

especially if you need to purchase several of them for educational or professional purposes. By accessing Hide Folders 2009 36 versions, you eliminate the need to spend money on physical copies. This not only saves you money but also reduces the environmental impact associated with book production and transportation. Furthermore, Hide Folders 2009 36 books and manuals for download are incredibly convenient. With just a computer or smartphone and an internet connection, you can access a vast library of resources on any subject imaginable. Whether youre a student looking for textbooks, a professional seeking industry-specific manuals, or someone interested in self-improvement, these digital resources provide an efficient and accessible means of acquiring knowledge. Moreover, PDF books and manuals offer a range of benefits compared to other digital formats. PDF files are designed to retain their formatting regardless of the device used to open them. This ensures that the content appears exactly as intended by the author, with no loss of formatting or missing graphics. Additionally, PDF files can be easily annotated, bookmarked, and searched for specific terms, making them highly practical for studying or referencing. When it comes to accessing Hide Folders 2009 36 books and manuals, several platforms offer an extensive collection of resources. One such platform is Project Gutenberg, a nonprofit organization that provides over 60,000 free eBooks. These books are primarily in the public domain, meaning they can be freely distributed and downloaded. Project Gutenberg offers a wide range of classic literature, making it an excellent resource for literature enthusiasts. Another popular platform for Hide Folders 2009 36 books and manuals is Open Library. Open Library is an initiative of the Internet Archive, a non-profit organization dedicated to digitizing cultural artifacts and making them accessible to the public. Open Library hosts millions of books, including both public domain works and contemporary titles. It also allows users to borrow digital copies of certain books for a limited period, similar to a library lending system. Additionally, many universities and educational institutions have their own digital libraries that provide free access to PDF books and manuals. These libraries often offer academic texts, research papers, and technical manuals, making them invaluable resources for students and researchers. Some notable examples include MIT OpenCourseWare, which offers free access to course materials from the Massachusetts Institute of Technology, and the Digital Public Library of America, which provides a vast collection of digitized books and historical documents. In conclusion, Hide Folders 2009 36 books and manuals for download have transformed the way we access information. They provide a cost-effective and convenient means of acquiring knowledge, offering the ability to access a vast library of resources at our fingertips. With platforms like Project Gutenberg, Open Library, and various digital libraries offered by educational institutions, we have access to an ever-expanding collection of books and manuals. Whether for educational, professional, or personal purposes, these digital resources serve as valuable tools for continuous learning and self-improvement. So why not take advantage of the vast world of Hide Folders 2009 36 books and manuals for

download and embark on your journey of knowledge?

FAQs About Hide Folders 2009 36 Books

1. Where can I buy Hide Folders 2009 36 books? Bookstores: Physical bookstores like Barnes & Noble, Waterstones, and independent local stores. Online Retailers: Amazon, Book Depository, and various online bookstores offer a wide range of books in physical and digital formats.
