**The Popol Vuh** Lewis Spence, 1908

*Blindsight* Peter Watts, 2006-10-03 Hugo and Shirley Jackson award-winning Peter Watts stands on the cutting edge of hard SF with his acclaimed novel, *Blindsight* Two months since the stars fell... Two months of silence, while a world held its breath. Now some half-derelict space probe, sparking fitfully past Neptune's orbit, hears a whisper from the edge of the solar system: a faint signal sweeping the cosmos like a lighthouse beam. Whatever's out there isn't talking to us. It's talking to some distant star, perhaps. Or perhaps to something closer, something en route. So who do you send to force introductions with unknown and unknowable alien intellect that doesn't wish to be met? You send a linguist with multiple personalities, her brain surgically partitioned into separate, sentient processing cores. You send a biologist so radically interfaced with machinery that he sees x-rays and tastes ultrasound. You send a pacifist warrior in the faint hope she won't be needed. You send a monster to command them all, an extinct hominid predator once called vampire, recalled from the grave with the voodoo of recombinant genetics and the blood of sociopaths. And you send a synthesist—an informational topologist with half his mind gone—as an interface between here and there. Pray they can be trusted with the fate of a world. They may be more alien than the thing they've been sent to find. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

**Teaching English as a Foreign Language** Dr Geoffrey Broughton, Geoffrey Broughton, Christopher Brumfit, Anita Pincas, Roger D. Wilde, 2002-09-11 For the many categories of EFL teachers throughout the

world, this book examines the main principles which concern them. By drawing upon their experience the authors have indicated a modern and practical approach.

The Practice of the Wild Gary Snyder,2020-09-08 A collection of captivatingly meditative essays that display a deep understanding of Buddhist belief, wildness, wildlife, and the world from an American cultural force. With thoughts ranging from political and spiritual matters to those regarding the environment and the art of becoming native to this continent, the nine essays in *The Practice of the Wild* display the deep understanding and wide erudition of Gary Snyder. These essays, first published in 1990, stand as the mature centerpiece of Snyder's work and thought, and this profound collection is widely accepted as one of the central texts on wilderness and the interaction of nature and culture.

The Second Machine Age: Work, Progress, and Prosperity in a Time of Brilliant Technologies Erik Brynjolfsson,Andrew McAfee,2014-01-20 A pair of technology experts describe how humans will have to keep pace with machines in order to become prosperous in the future and identify strategies and policies for business and individuals to use to combine digital processing power with human ingenuity.

**Archaeology Anthropology and Interstellar Communication** Douglas A. Douglas A. Vakoch,2015-03-24 Addressing a field that has been dominated by astronomers, physicists, engineers, and computer scientists, the contributors to this collection raise questions that may have been overlooked by physical scientists about the ease of establishing meaningful communication with an extraterrestrial intelligence. These scholars are grappling with some of the enormous challenges that will face humanity if an information-rich signal emanating from another world is detected. By drawing on issues at the core of contemporary archaeology

and anthropology, we can be much better prepared for contact with an extraterrestrial civilization, should that day ever come.

**Declining Grammar and Other Essays on the English Vocabulary** Dennis E. Baron, 1989 This book contains 25 essays about English words, and how they are defined, valued, and discussed. The book is divided into four sections. The first section, Language Lore, examines some of the myths and misconceptions that affect attitudes toward language--and towards English in particular. The second section, Language Usage, examines some specific questions of meaning and usage. Section 3, Language Trends, examines some controversial trends in English vocabulary, and some developments too new to have received comment before. The fourth section, Language Politics, treats several aspects of linguistic politics, from special attempts to deal with the ethnic, religious, or sex-specific elements of vocabulary to the broader issues of language both as a reflection of the public consciousness and the U.S. Constitution and as a refuge for the most private forms of expression. *Understanding Relations Between Scripts II* Philippa M. Steele, Philip J. Boyes, 2019-10-10 Contexts of and Relations between Early Writing Systems (CREWS) is a project funded by the European Research Council under the European Union's Horizon 2020 research and innovation programme (grant agreement No. 677758), and based in the Faculty of Classics, University of Cambridge. *Understanding Relations Between Scripts II: Early Alphabets* is the first volume in this series, bringing together ten experts on ancient writing, languages and archaeology to present a set of diverse studies on the early development of alphabetic writing systems and their spread across the Levant and Mediterranean during the second and

first millennia BC. By taking an interdisciplinary perspective, it sheds new light on alphabetic writing not just as a tool for recording language but also as an element of culture.

New York Magazine ,1981-07-20 New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country. With award-winning writing and photography covering everything from politics and food to theater and fashion, the magazine's consistent mission has been to reflect back to its audience the energy and excitement of the city itself, while celebrating New York as both a place and an idea.

**Book Arts of Isfahan** Alice Taylor,John Walsh,1995-12-01 In the seventeenth century, the Persian city of Isfahan was a crossroads of international trade and diplomacy. Manuscript paintings produced within the city's various cultural, religious, and ethnic groups reveal the vibrant artistic legacy of the Safavid Empire. Published to coincide with an exhibition at the Getty Museum, **Book Arts of Isfahan** offers a fascinating account of the ways in which the artists of Isfahan used their art to record the life around them and at the same time define their own identities within a complex society.

**The C++ Programming Language** Bjarne Stroustrup, 2013-07-10 The new C++11 standard allows programmers to express ideas more clearly, simply, and directly, and to write faster, more efficient code. Bjarne Stroustrup, the designer and original implementer of C++, has reorganized, extended, and completely rewritten his definitive reference and tutorial for programmers who want to use C++ most effectively. The C++ Programming Language, Fourth Edition, delivers meticulous, richly explained, and integrated coverage of the entire language—its facilities, abstraction mechanisms, standard libraries, and key design techniques. Throughout, Stroustrup presents concise, “pure C++11” examples, which have been carefully crafted to clarify both usage and program design. To promote deeper understanding, the author provides extensive cross-references, both within the book and to the ISO standard. New C++11 coverage includes Support for concurrency Regular expressions, resource management pointers, random numbers, and improved containers General and uniform initialization, simplified for-statements, move semantics, and Unicode support Lambdas, general constant expressions, control over class defaults, variadic templates, template aliases, and user-defined literals Compatibility issues Topics addressed in this comprehensive book include Basic facilities: type, object, scope, storage, computation fundamentals, and more Modularity, as supported by namespaces, source files, and exception handling C++ abstraction, including classes, class

hierarchies, and templates in support of a synthesis of traditional programming, object-oriented programming, and generic programming Standard Library: containers, algorithms, iterators, utilities, strings, stream I/O, locales, numerics, and more The C++ basic memory model, in depth This fourth edition makes C++11 thoroughly accessible to programmers moving from C++98 or other languages, while introducing insights and techniques that even cutting-edge C++11 programmers will find indispensable. This book features an enhanced, layflat binding, which allows the book to stay open more easily when placed on a flat surface. This special binding method—noticeable by a small space inside the spine—also increases durability.

**Ancient Mesopotamia** A. Leo Oppenheim, 2013-01-31 This splendid work of scholarship . . . sums up with economy and power all that the written record so far deciphered has to tell about the ancient and complementary civilizations of Babylon and Assyria.—Edward B. Garside, *New York Times Book Review* Ancient Mesopotamia—the area now called Iraq—has received less attention than ancient Egypt and other long-extinct and more spectacular civilizations. But numerous small clay tablets buried in the desert soil for thousands of years make it possible for us to know more about the people of ancient Mesopotamia than any other land in the early Near East. Professor Oppenheim, who studied these tablets for more than thirty years, used his intimate knowledge of long-dead languages to put together a distinctively personal picture of the Mesopotamians of some three thousand years ago. Following Oppenheim's death, Erica Reiner used the author's outline to complete the revisions he had begun. To any serious student of Mesopotamian civilization, this is one of the most valuable books ever written.—Leonard Cottrell, *Book Week* Leo

Oppenheim has made a bold, brave, pioneering attempt to present a synthesis of the vast mass of philological and archaeological data that have accumulated over the past hundred years in the field of Assyriological research.—Samuel Noah Kramer, *Archaeology A*. Leo Oppenheim, one of the most distinguished Assyriologists of our time, was editor in charge of the *Assyrian Dictionary of the Oriental Institute* and John A. Wilson Professor of Oriental Studies at the University of Chicago.

Popol Vuh Dennis Tedlock, 2013-02 *Popol Vuh*, the Quiché Mayan book of creation is not only the most important text in the native language of the Americas, it is also an extraordinary document of the human imagination. It begins with the deeds of Mayan Gods in the darkness of a primeval sea and ends with the radiant splendor of the Mayan Lords who founded the Quiché Kingdom in the Guatemalan highlands. Originally written in Mayan hieroglyphs, it was translated into the Roman alphabet in the 16th century. The new edition of Dennis Tedlock's unabridged, widely praised translation includes new notes and commentary, newly translated passages, newly deciphered hieroglyphs, and over 40 new illustrations.

**A Grammar of Karbi** Linda Konnerth, 2020-06-08 This is a comprehensive grammar of the Hills Karbi variety spoken predominantly in the Karbi Anglong districts. Karbi belongs to the Trans-Himalayan (Tibeto-Burman) family but its exact phylogenetic status has remained unclear. By providing a diachronically-oriented functional analysis of all structural levels of Karbi, this grammar offers a reference work that provides a thorough account of this language. The data in this grammar come from fieldwork that was primarily carried out in the district capital of Diphu although the corpus includes recordings of speakers from all over the two Karbi Anglong districts. This corpus is freely available both as fully glossed

text in *Himalayan Linguistics* (Konnerth and Tisso 2018) and as original media files in ELAR (SOAS University of London). Now also including a glossary, this grammar is a thoroughly revised version of the 2014 dissertation of the author, which won the 2015 Pāṇini Award of the Association for Linguistic Typology (ALT). In this revised version, a few new sections have been added and numerous other sections have been thoroughly updated.

*Language, Society and Power* Annabelle Mooney, Jean Stilwell Peccei, Suzanne LaBelle, Berit Engøy Henriksen, Eva Eppler, Anthea Irwin, Pia Pichler, Siân Preece, Satori Soden, 2010-12-14 *Language, Society and Power* is the essential introductory text for students studying language in a variety of social contexts. This book examines the ways in which language functions, how it influences thought and how it varies according to age, ethnicity, class and gender. It seeks to answer such questions as: How can a language reflect the status of children and older people? Do men and women talk differently? How can our use of language mark our ethnic identity? It also looks at language use in politics and the media and investigates how language affects and constructs our identities, exploring notions of correctness and attitudes towards language use. This third edition of this bestselling book has been completely revised to include recent developments in theory and research and offers the following features: a range of new and engaging international examples drawn from everyday life: beauty advertisements, conversation transcripts, newspaper headlines reporting on asylum seekers, language themed cartoons, and excerpts from the television programme *South Park* and satirical news website *The Onion* new activities designed to give students a real understanding of the topic a new chapter covering 'Student Projects' – giving readers

suggestions on how to further explore the topics covered in the book updated and expanded further reading sections for each chapter and a glossary. While it can be used as a stand-alone text, this edition of *Language, Society and Power* has also been fully cross-referenced with the new companion title: *The Language, Society and Power Reader*. Together these books provide the complete resource for students of English language and linguistics, media, communication, cultural studies, sociology and psychology.

Repertoires and Choices in African Languages Friederike Lüpke,Anne Storch,2013-05-28 Most African languages are spoken by communities as one of several languages present on a daily basis. The persistence of multilingualism and the linguistic creativity manifest in the playful use of different languages are striking, especially against the backdrop of language death and expanding monolingualism elsewhere in the world. The effortless mastery of several languages is disturbing, however, for those who take essentialist perspectives that see it as a problem rather than a resource, and for the dominating, conflictual, sociolinguistic model of multilingualism. This volume investigates African minority languages in the context of changing patterns of multilingualism, and also assesses the status of African languages in terms of existing influential vitality scales. An important aspect of multilingual praxis is the speakers' agency in making choices, their repertoires of registers and the multiplicity of language ideology associated with different ways of speaking. The volume represents a new and original contribution to the ethnography of

speaking of multilingual practices and the cultural ideas associated with them.
