Case Studies in Geriatric Primary Care & Multimorbidity Management - E-Book Karen Dick,Terry Mahan Buttaro,2019-01-29 Gain expertise in primary care of older adults with a case-based approach to geriatric primary care and multimorbidity management. Written by two leading academic and clinical experts in geriatric primary care, *Case Studies in Geriatric Primary Care and Multimorbidity Management*, 1st Edition uses detailed Exemplar Case Studies and Practice Case Studies to teach you how to think like an expert geriatric clinician. Because most older adults have more than one condition when seeking care, both Exemplar and Practice Case Studies place a strong emphasis on multimorbidity management, (the management of patients with a host of complex, interacting

conditions). To provide extensive practice in learning how to think like an expert, case studies reflect the reality that care does not necessarily begin or end in the primary care setting. Cases therefore move fluidly from primary care to acute care to inpatient rehabilitation to assisted living to long-term care. Building on foundational introductory chapters, cases also call on you to develop interprofessional collaboration skills and reflect the diversity of today's older adults, in terms of age (young-old to old-old), gender, culture, ethnicity, sexuality, socioeconomic status, and more! As you work through both basic-level and advanced Practice Case Studies, you can make extensive notes in the printed book and then go online to submit answers for grading and receive expert feedback for self-reflection. NEW! Introductory unit on the core principles of caring for older adults gives you a strong foundation in the principles of geriatric primary care and multimorbidity management. NEW! and UNIQUE! Exceptionally detailed, unfolding Exemplar Case Studies demonstrate how an expert advanced practitioner thinks clinically to provide care to older adults with multiple conditions. NEW and UNIQUE! Exceptionally detailed, unfolding Practice Case Studies emphasize patient diversity and multimorbidity management across healthcare settings to help you develop advanced clinical reasoning skills for geriatric primary care. NEW and UNIQUE! Strong emphasis on multimorbidity management focuses on caring for older adults with multiple chronic conditions. NEW! Emphasis on the continuum of care across settings reflects the reality that care does not necessarily begin or end in the primary care setting but can move from primary care to acute care to inpatient rehabilitation to assisted living to long-term care, and so forth. NEW! Online answer submission for grading and expert feedback for self-reflection. NEW! Emphasis on patient

diversity reflects the makeup of today's older adult, population in terms of age (young-old to old-old), gender, culture, ethnicity, sexuality, socioeconomic status, and more. NEW! Emphasis on interprofessional collaboration use Exemplar Case Studies and Practice Case Studies to allow you to demonstrate your interprofessional collaboration skills.

Fundamentals of Nursing - E-Book Patricia A. Potter, Anne Griffin Perry, Patricia Stockert, Amy Hall, 2016-02-02 It's your complete guide to nursing — from basic concepts to essential skills! Fundamentals of Nursing, 9th Edition prepares you to succeed as a nurse by providing a solid foundation in critical thinking, evidence-based practice, nursing theory, and safe clinical care in all settings. With illustrated, step-by-step guidelines, this book makes it easy to learn important skills and procedures. Care plans are presented within a nursing process framework, and case studies show how to apply concepts to nursing practice. From an expert author team led by Patricia Potter and Anne Griffin Perry, this bestselling nursing textbook helps you develop the understanding and clinical reasoning

you need to provide excellent patient care. 51 skills demonstrations provide illustrated, step-by-step instructions for safe nursing care — and include rationales for each step. 29 procedural guidelines provide streamlined, step-by-step instructions for performing basic skills. UNIQUE! Critical Thinking Models in each clinical chapter show how to apply the nursing process and critical thinking to achieve successful clinical outcomes. Evidence-Based Practice chapter shows how nursing research helps in determining best practices. UNIQUE! Caring for the Cancer Survivor chapter prepares nurses to care for cancer patients who may still face physical and emotional issues. Case studies include unique clinical application questions and exercises, allowing you to practice using care plans and concept maps. The 5-step nursing process provides a consistent framework for care, and is demonstrated in more than 20 care plans. 15 review questions in every chapter test your retention of key concepts, with answers available in the book and on the Evolve companion website. Practical study tools on Evolve include video clips of skills, skills checklists, printable key points, a fluid & electrolytes tutorial, a concept map creator, an audio glossary, and more. UNIQUE! Clear, streamlined writing style makes complex material more approachable. More than 20 concept maps show care planning for clients with multiple nursing diagnoses. Key points and key terms in each chapter summarize important content for more efficient review and study. Unexpected Outcomes and Related Interventions for each skill alert you to potential problems and appropriate nursing actions. Delegation coverage clarifies which tasks can and cannot be delegated. A glossary provides quick access to definitions for all key terms.

Arthurian Literature XXXVIII Kevin S. Whetter, Megan G.

Leitch, 2023-04-04 Arthurian Literature has established its position as the home for a great diversity of new research into Arthurian matters. It delivers fascinating material across genres, periods, and theoretical issues. TIMES LITERARY SUPPLEMENT This issue offers stimulating studies of a wide range of Arthurian texts and authors, from the Middle Ages to the nineteenth century, among which is the first winner of the Derek Brewer Essay Prize, awarded to a fascinating exploration of Ragnelle's strangeness in *The Weddyng of Syr Gawen and Dame Ragnelle*. It includes an exploration of Irish and Welsh cognates and possible sources for Merlin; Bakhtinian analysis of Geoffrey of Monmouth's playful discourse; and an account of the transmission of Geoffrey's text into Old Icelandic. In the Middle English tradition, there is an investigation of material Arthuriana in *Sir Gawain and the Green Knight*, followed by explorations of shame in Malory's *Morte Darthur*. The post-medieval articles see one paper devoted to the paratexts of sixteenth-century French Arthurian publishers; one to eighteenth-century Arthuriana; and one to a range of nineteenth-century rewritings of the virginity of Galahad and Percival's Sister. Two Notes close this volume: one on Geoffrey's Vita Merlini and a possible Irish source, and one on a likely source for

Malory's linking of Trystram with the Book of Hunting and Hawking in an early form of The Book of St Albans.
