Dialogue in Spanish Dale A. Koike, Lidia Rodríguez-Alfano, 2010-06-21 *Dialogue in Spanish* provides a strong theoretical and empirical foundation for the study of dialogue. This edited collection of twelve original studies contributes to a broad comprehension of dialogue in two general contexts: personal interactions among friends and family; and public speech, such as political debates, medical interviews, court translations and service encounters. The studies, written by authors from Canada, Mexico, Spain, Sweden, the United States and Venezuela, present an in-depth look at issues and elements of dialogue such as irony, narrativity, discourse markers, coherence, conflict and expectations. Background research on dialogue grounds the articles in such areas as discourse analysis, pragmatics, philosophy, sociology, anthropology and linguistics. The book will prove useful to those who study conversational interaction, pragmatics, and discourse analysis as applied to various functions and contexts, and it will be of particular interest to researchers and students of linguistics, anthropology, sociology, philosophy, communications and education.

Problems of Polysynthesis Nicholas Evans, Hans-Jürgen Sasse, 2014-09-05 The papers deal with a range of questions raised for linguistic theory and description by polysynthetic languages. Prototypical polysynthetic languages, found among unrelated language families in such varied parts of the world as North America, Meso-America, Siberia, northern Australia, and Papua New Guinea, display remarkably similar suites of grammatical characteristics. But, nearly two centuries after Humboldt and Kleinschmidt began to make the existence and interest of polysynthetic languages widely known among linguistics, languages of this type continue to pose a challenge to every major linguistic theory.

All In Josh Levs, 2015-05-12 When journalist Josh Levs was denied fair parental leave by his employer after his child was born, he fought back—and won. Since then, he's become an advocate for modern families and working fathers. In *All In*, he explores the changing face of fatherhood and what it means for our individual lives, families, workplaces, and society. Fatherhood today is far different from previous generations. Stay-at-home dads are increasingly common, and growing numbers of men are working part-time or flextime schedules to spend more time with their children. Even the traditional breadwinner-dad is being transformed. Dads today are more emotionally and physically involved on the home front. They are "all in" and—like mothers—they are struggling with work-life balance and doing it all. Journalist and "dad columnist" Josh Levs explains that despite these

unprecedented changes, our laws, corporate policies, and gender-based expectations in the workplace remain rigid. They are preventing both women and men from living out the equality we believe in—and hurting businesses in the process. Women have done a great job of speaking out about this, Levs—whose fight for parental leave made front page news across the country—argues. It's now time for men to join in. Combining Levs' personal experiences with investigative reporting and frank conversations with fathers about everything from work life to money to sex, *All In* busts popular myths, lays out facts, uncovers the forces holding all of us back, and shows how we can all join together to change them.

Fassbinder Christian Braad Thomsen, 2004 Rainer Werner Fassbinder was the most innovative practitioner of New German Cinema. He worked at breakneck speed and in fourteen years made forty-four films, including *Ali: Fear Eats the Soul* (1973) and *The Marriage of Maria Braun* (1978). Fassbinder ruthlessly attacked both German bourgeois society and the larger limitations of humanity, and his films detail the desperate yearning for love and freedom and the many ways in which society defeats that desire. In *Fassbinder*, Christian Thomsen, a close friend of the director, illuminates Fassbinder's body of work while revealing his insider views of a man who, despite a furious temper, manic working habits, and rampant drug addiction, supported an extended family- including his mother, a string of male lovers, lovelorn women, and even a pair of frustrated wives-with his intoxicating and prolific imagination. This book, like Fassbinder's often-used image of the mirror, brilliantly reflects the sexual, political, and overwhelmingly human contradictions inherent in the life of this intensely creative man and the remarkable films he directed. Christian Braad Thomsen is a Danish filmmaker and scholar.

The Ashes of Waco Dick J. Reavis,1998-04-01 This is the story the daily press didn't give us. It may be the definitive book about what happened at Mt. Carmel, near Waco, Texas, examined from both sides—the Bureau of Alcohol and Tobacco and Firearms (ATF) and the FBI on one hand, and David Koresh and his followers on the other. Dick J. Reavis contends that the government had little reason to investigate Koresh and even less to raid the compound at Mt. Carmel. The government lied to the public about most of what happened—about who fired the first shots, about drug allegations, about child abuse. The FBI was duplicitous and negligent in gassing Mt. Carmel-and that alone could have started the fire that killed seventy-six people. Drawing on interviews with survivors of Koresh's movement (which dates back to 1935), as well as from esoteric religious tracts and audiotapes, and previously undisclosed government documents, Reavis uncovers the real story of the burning at Waco, including the trial that followed. The author quotes from Koresh himself to create an extraordinary portrait of a movement, an assault, and an avoidable tragedy.
