📖 **Screenwriting** Andrew Horton, Julian Hoxter, 2014-08-23 Screenwriters often joke that “no one ever paid a dollar at a movie theater to watch a screenplay.” Yet the screenplay is where a movie begins, determining whether a production gets the “green light” from its financial backers and wins approval from its audience. This innovative volume gives readers a comprehensive portrait of the art and business of screenwriting, while showing how the role of the screenwriter has evolved over the years. Reaching back to the early days of Hollywood, when moonlighting novelists, playwrights, and journalists were first hired to write scenarios and photoplays, screenwriting illuminates the profound ways that screenwriters have contributed to the films we love. This book explores the social, political, and economic implications of the changing craft of American screenwriting from the silent screen through the classical Hollywood years, the rise of independent cinema, and on to the contemporary global multi-media marketplace. From The Birth of a Nation (1915), Gone With the Wind (1939), and Gentleman's Agreement (1947) to Chinatown (1974), American Beauty (1999), and Lost in Translation (2003), each project began as writers with pen and ink, typewriters, or computers captured the hopes and dreams, the nightmares and concerns of the periods in which they were writing. As the contributors take us behind the silver screen to chronicle the history of screenwriting, they spotlight a range of key screenplays that changed the game in Hollywood and beyond. With original essays from both distinguished film scholars and accomplished screenwriters, screenwriting is sure to fascinate anyone with an interest in Hollywood, from movie buffs to industry professionals.

📖 **Being There and the Evolution of a Screenplay** Aaron Hunter,2022-08-25 Being There and the Evolution of a Screenplay provides an insightful look at the drafting of one of Hollywood history's greatest scripts. Being There (1979) is generally considered the final film in Hal Ashby's triumphant 1970s career, which included the likes of Harold and Maude (1971) and Shampoo (1975). The film also showcases Peter Sellers's last great performance. In 2005, the Writers Guild of America included Being There on its list of 101 Best Scripts. Being There and the Evolution of a Screenplay features three versions of the script: an early draft by Jerzy Kosinski, based on his 1970 novel; a second by long-time Ashby collaborator and Oscar-winner Robert C. Jones, which makes substantial changes to Kosinski's; and a final draft written by Jones with Ashby's assistance, which makes further structural and narrative changes. Additionally, the book features facsimile pages from one of Kosinski's copy of the scripts that include handwritten notes, providing readers with valuable insight into the redrafting process. For each version, Ashby scholar Aaron Hunter adds perceptive analysis of the script's development, the relationships of the writers who worked on it, and key studio and production details. This is both a presentation of the script of Being There, and a record of the process of crafting that script – a text that will be of interest to film fans and scholars as well as writers and teachers of screenwriting. Evolution of a Screenplay is the first book of its kind to so amply demonstrate the creative development of a Hollywood script.
