The Battlecruiser HMS Hood Bruce Taylor,2008-04-30 "A wonderfully illustrated biography" of one of history's greatest warships whose sinking "signaled the end of the surety that Britannia ruled the waves" (War History Online). Unmatched for beauty, unequalled for size, for twenty years the HMS Hood was the glory ship of the Royal Navy, flying the flag across the world in the twilight years of the British Empire. Here, in words, photos and color illustrations, is the story of her life, her work and her people from keel-laying on the Clyde in 1916 to destruction at the hands of the Bismarck in 1941. Among the eye-catching strengths of the book is a unique gallery of photos, including stills from a recently discovered piece of color footage of the ship, plus a spectacular set of computer-generated images of both the exterior and interior by the world's leading exponent of the art—a man who worked with the film director James Cameron (of Titanic fame). A wealth of new information on Hood's structure and operation make it essential reading for the enthusiast, modeler and historian alike. Hugely successful from its first publication, this is the third printing of the ultimate book on the ultimate ship of the pre-war era. Bracing for the Apocalypse Anna Maria Bounds,2020-06-04 Increasing American fear about terrorism, environmental catastrophes, pandemics, and economic crises has fueled interest in prepping: confronting disaster by mastering survivalist skills. This trend of self-reliance is not merely evidence of the American belief in the power of the individual; rather, this pragmatic shift away from expecting government aid during a disaster reflects a weakened belief in the bond between government and its citizens during a time of crisis. This ethnographic study explores the rise of the urban preppers' subculture in New York City, shedding light on the distinctive approach of city dwellers in preparing for disaster. With attention to the role of factors such as class, race, gender and one's expectations of government, it shows that how one imagines Doomsday affects how one prepares for it. Drawing on participant observation, the author explores preppers' views on the central question of whether to bug out or hunker down in the event of disaster, and examines the ways in which the prepper economy increases revenue by targeting concerns over developing skills, building networks, securing equipment and arranging a safe locale. A rich qualitative study, *Bracing for the Apocalypse* will appeal to scholars of sociology and anthropology with interests in urban studies, ethnography and subcultures.
