The Art of Thinking Clearly Rolf Dobelli, 2014-05-06 A world-class thinker counts the 100 ways in which humans behave irrationally, showing us what we can do to recognize and minimize these “thinking errors” to make better decisions and have a better life. Despite the best of intentions, humans are notoriously bad—that is, irrational—when it comes to making decisions and assessing risks and tradeoffs. Psychologists and neuroscientists refer to these distinctly human foibles, biases, and thinking traps as “cognitive errors.” Cognitive errors are systematic deviances from rationality, from optimized, logical, rational thinking and behavior. We make these errors all the time, in all sorts of situations, for problems big and small: whether to choose the apple or the cupcake; whether to keep retirement funds in the stock market when the Dow tanks, or whether to take the advice of a friend over a stranger. The “behavioral turn” in neuroscience and economics in the past twenty years has increased our understanding of how we think and how we make decisions. It shows how systematic errors mar our thinking and under which conditions our thought processes work best and worst. Evolutionary psychology delivers convincing theories about why our thinking is, in fact, marred. The neurosciences can pinpoint with increasing precision what exactly happens when we think clearly and when we don’t. Drawing on this wide body of research, *The Art of Thinking Clearly* is an entertaining presentation of these known systematic thinking errors—offering guidance and insight into everything why you shouldn’t accept a free drink to why you SHOULD walk out of a movie you don’t like it to why it’s so hard to predict the future to why shouldn’t watch the news. The book is organized into 100 short chapters, each covering a single cognitive error, bias, or heuristic. Examples of these concepts include: Reciprocity, Confirmation Bias, The It-Gets-Better-Before-It-Gets-Worse Trap, and the Man-With-A-Hammer Tendency. In engaging prose and with real-world examples and anecdotes, *The Art of Thinking Clearly* helps solve the puzzle of human reasoning.

**The Magic Numbers of Dr. Matrix** Martin Gardner, 2020-10-06 Martin Gardner's Mathematical Games columns in *Scientific American* inspired and entertained several generations of mathematicians and scientists. Gardner in his crystal-clear prose illuminated corners of mathematics, especially recreational mathematics, that most people had no idea existed. His playful spirit and inquisitive nature invite the reader into an exploration of beautiful mathematical ideas along with him. These columns were both a revelation and a gift when he wrote them; no one--before Gardner--had written about mathematics like this. They continue to be a marvel. This volume is a collection of Irving Joshua Matrix columns published in the magazine from 1960-1980. There were several collections of Dr. Matrix, the first in 1967; they were revised as Gardner reconnected with the good doctor over the years. This is the 1985 Prometheus Books edition and contains all the Dr. Matrix columns from the magazine.

**Signs of the Zodiac** Mary Ellen Snodgrass, 1997-09-23 The zodiacal signs impact art, advertising, literature, history, mythology, psychology, health, and language with their evocative imagery, symbols and scientific and religious lore. This fact-filled reference guide pulls together applications of the zodiacal signs in those fields and others. Each sign is explicated in a separate chapter which discusses its origin and importance in diverse cultures, including its history, artistic applications, traditions, literary and religious interpretations, psychological significance, and application to notable historical and contemporary figures. An organized overview with cross-references and indexing allows the zodiac to be studied from numerous points of view. Artistic representations of each of the 12 houses accompany the text. Introductory chapters on the origins of the zodiacal signs, the historical foundation of astrology, the zodiac in the first millennium A.D., and the zodiac in the arts and sciences provide a thorough overview and comparative examination of the influence of the zodiac in human history and thought. A detailed timeline synchronizes discoveries and development of zodiacal associations and thought around the world. Appendices list planetary correspondences in jewels, metals, herbs, color, flavor, form, shapes, food preferences, and senses, and the symptoms and pathologies associated with birth signs. The work also contains an extensive bibliography and index.

The Field Lynne McTaggart, 2009-10-13 “A big, bold, brilliantly crafted page-turner with HUGE ideas that challenge every last view about how the world works. This is both a primer to understand the law of attraction and the essential book of our age.” – Jack Canfield, author of *The Success Principles*(TM) and featured teacher on *The Secret*(TM) “One of the most powerful and enlightening books I have ever read. A magnificent job of presenting the hard evidence for what spiritual masters have been telling us for centuries.” – Wayne W. Dyer During the past few years science and medicine have been converging with common sense, confirming a widespread belief that everything—especially the mind and the body—is far more connected than traditional physics ever allowed. *The Field* establishes a new biological paradigm: it proves that our body extends electromagnetically beyond ourselves and our physical body. It is within this field that we can find a remarkable new way of looking at health, sickness, memory, will, creativity, intuition, the soul, consciousness, and spirituality. *The Field* helps to bridge the gap that has opened up between mind and matter, between us and the cosmos. Original, well researched, and well documented by distinguished sources, this is the mind/body book for a new millennium.

**Secrets of the Soil** Peter Tompkins,Christopher Bird,1989 This book,a fascinating companion to The Secret Life of Plants by the same authors, tells the story of the innovative, nontraditional, often surprising things that certain scientists, farmers, and mystics are doing to prevent the slow degradation of our planet. For example, using the techniques of Rudolf Steiner s biodynamic agriculture with its reliance on ethereal forces from the planets,Dan Carlson s growth stimulating Sonic Bloom, and rock dust fertilizer to revitalize depleted soils; or gardening with the help of truly amazing new technologies to reverse serious agricultural problems.The authors illustrate,in a truly enlightening and convincing manner, the pivotal role that the natural elements play in ourlives, and the necessity of cultivating and sustaining a relationship with one most basic of them the soil.

High Magic U. D. (Frater),Frater U.:D.:,2005 Of course, Magic is Magic wherever. But Ceremonial Magic - with or without a k ending - is perceived as largely European in origin and practice. The Golden Dawn, Aurum Solis, O.T.O were European and even AMORC, B.O.T.A., G.B.G. were mostly European inspired. As valid as these esoteric orders were and are, they are at best schools and the knowledge taught is now widely available. What is key is not the knowledge but the self-accomplishment that comes only through personal experience (otherwise known as ''self-initiation''). The essence of Magic is a simple formula based on the exercise of Will, Imagination, and Gnosis or Magical Trance. It is a ''technology'' and must be mastered like any technology through understanding and practice. Like playing the piano, it takes discipline to continue practicing basic exercises until it all becomes second nature and can function as an art as well. And, what for? Not to perform tricks or miracles. Not to wear fancy robes and chant barbarous words. Not to reach high degrees with grand titles in a secret order. No, it is to transform and transmute your own self and thus to become more than you were, not merely to accelerate normal human evolution but to actually move beyond and be a co-creator. And to finally answer those questions: Who am I? Where did I come from? Where am I going? High Magic is an active program for self-discovery and Self-Realization. This book by a famed contemporary German magician self-instructs the student through a series of basic exercises and real magical practices that train the magician through a consistent program combined with examples and explanations. Each step is thorough without extravagance; the program is effective and entirely self-directed (as must be all real learning); the book is encyclopedic in depth and inclusive even of chaos and cyber magic. Tables and Charts simplify the learning process. The system starts with immediate immersion in ritual practice starting with the Kabbalistic Cross and Lesser Banishing Ritual of the Pentagram and moves through beginning to advanced levels of Practical Sigil Magic, Ritual Magic, Elemental Magic, the Greater Ritual of the Pentagram, Planetary Magic, the Hexagram Ritual, Mantra Meditation, the Magical Gaze, Magical Trance, the Pan Ritual, Money Magic, Talisman Magic, Moon Magic, Chaos Magic and Cyber Magic. In each case, practice is used to instruct - nothing is presented as ''theory only.'' You will find everything analyzed, explained and justified with refreshing and truly uncommon common sense! The author fully dispels the myths and subterfuges of archaic magical orders and explores the role of the Unconscious Mind, the issues of Religion and Mysticism, the nature of High and Low Magic, the function of Myth and the role of Drama in Ritual, the Magical Nature of Reality and Magical Perception, Dream Work in relation to Magical Training, the Magical Imagination and training for Visualization, Psychic Protection, Invocation and Evocation, the Calling and Movement of Energies, Charging, Paradigm Shifting, what is really means ''to Keep Silent, '' the power of Intention & definition of Magical Goals, the ritual use of Symbols and Gestures, the power of Words, the Magician's Universe, the magical pronunciation of Hebrew Letters, the Magician's Tools, Mantric Sigils, the IAO formula, and much more. High Magic is as central to Western culture as are science, technology, the rule of law, democracy and the entrepreneurial economy. Its practice and application should be part of your daily life starting now.

**High Magic II** Frater U.:D.:,2008 Europe's best-known mage and contemporary occult author, Frater U.:D.:, shares his extensive magical expertise in the companion volume to his highly acclaimed High Magic. Previously unavailable in English, High Magic II has been eagerly awaited by ceremonial magicians, mages, and Hermetic practitioners. This comprehensive guide explores a variety of magical topics--mirror magic, sigil magic, shamanism, magical orders, mudras, folk magic, and divination--in a modern, non-dogmatic way. The integrated, progressive approach of this book on high magic is designed to help the reader develop a holistic understanding of the underlying magical theories and a true mastery of the magical techniques. Themes in the text recur, focusing on different aspects of core topics but taking the reader further along each time, using the format proven effective in High Magic. High Magic II also delves into magic and yoga, magic in the Bible, the Kabbalah, forms of initiation, and the magic of ancient Egypt and the late Hellenistic period. Many provocative practices are addressed, including demonic magic and combat magic. Some of the techniques have never before appeared in an English-language book.

*Happier than God* Neale Donald Walsch,2011-04-01 A Master's Manual for Spiritual Awakening You are a spiritual master, and you may not know it. This is your manual. It was created for you, by you. This, too, you may not know right now, but soon you will . . . Neale Donald Walsch not only tells us how we can make it through the week in these tough times, he shows us how we can face each day overflowing with joy and optimism. The good news, he tells us, is that each of us was meant to be happy - happier than god! Walsch's warm and soothing words encourage the reader to look for the hidden resources that are deep inside each of us. He shows how each of us have the power within us to manifest everything we need and want. This is not a book of spiritual theory. It provides a plan that can change lives. Included here is a programme that Walsch calls '17 Steps to being Happier Than God', a plan that combines the best of the conceptual truths of his 10-book Conversations with God series with the clearest description yet of how to turn those concepts into practical tools for altering life for the better - forever.

**The Incredible Dr. Matrix** Martin Gardner,1976

*The Black Swan* Nassim Nicholas Taleb,2009-10-13 In the author's point of view, a black swan is an improbable event with three principal characteristics - It is unpredictable; it carries a massive impact; and, after the fact, we concoct an explanation that makes it appear less random, and more predictable, than it was. Why do we not acknowledge the phenomenon of black swans until after they occur? Part of the answer, according to Taleb, is that humans are hardwired to learn specifics when they should be focused on generalities. We concentrate on things we already know and time and time again fail to take into consideration what we don't know. We are, therefore, unable to truly estimate opportunities, too vulnerable to the impulse to simplify, narrate, and categorize, and not open enough to rewarding those who can imagine the 'impossible'.
