**Family Child Care Record-Keeping Guide, Ninth Edition** Tom Copeland, 2014-10-06 For home-based family child care (daycare) providers, taking care of the children is only half of the job. The other half is taking care of the business—tracking expenses, being profitable, filing taxes, and meeting government requirements. This resource covers everything family child care providers need to keep accurate business records. If a family child care provider pays close attention to the recommendations in this book, he or she will be able to claim the maximum allowable deductions and pay the lowest possible federal taxes. Since the previous edition of Family Child Care Record-Keeping Guide, Congress and the IRS have made many changes to tax rules that affect family child care providers. There have been changes in depreciation rules, adjustments to food and mileage rates, and clarifications on how to calculate the Time-Space percentage. Author Tom Copeland has been involved in many IRS audits and represented providers in several Tax Court cases that have also clarified numerous rules. Further necessitating this ninth edition, the IRS issued two significant new rules in 2013. These updates, new rules, and

clarifications are detailed in this book; all of the information is applicable to child care providers in every state, regardless of local regulations. Tom Copeland, is a writer, trainer, lawyer, and consultant focusing on family child care business issues. He has conducted record-keeping, tax preparation, and business workshops for family child care providers across the country since 1981.

**Hobbies** Steven M. Gelber, 1999-06-25 Whether it's needlepoint or woodworking, collecting stamps or dolls, everyone has a hobby, or is told they need one. But why do we fill our leisure time with the activities we do? And what do our hobbies say about our culture? Steven Gelber here traces the history and significance of hobbies from the mid-nineteenth century through the 1950s. Although hobbies are often touted as a break from work, Gelber demonstrates that they reflect and reproduce the values and activities of the workplace by bringing utilitarian rationality into the home, imitating the economic stratification of the marketplace, and reinforcing traditional gender roles. Drawing on a wide array of social

and cultural theory, Hobbies fills a critical gap in American cultural history and provides a compelling new perspective on the meaning of leisure.

Enter Kim Brophey, award-winning canine behavior consultant. Using cutting-edge research, Brophey has developed a groundbreaking system that allows owners to identify what their dog is struggling with, why, and how they can fix it. Brophey's approach is unlike anything that has been published before and will give dog owners a new understanding of what motivates and affects their dog's behavior.
