Healing Cancer: A Homoeopathic Approach Vol-I& Ii Dr. Farokh J Master,2022-12-01 Homeopathic Book for Cancer Treatment - As a homeopath one should not deter oneself in dealing with any type of cases, be it cancer. But for executing that an ultimate guidance is needed. Cancer is so much prevalent and challenging medical problem of today that a trustworthy source of accurate information becomes pertinent and this work of Dr. Farokh Master immediately propels at the top of quality books for cancer. Based on Master's 40 years of experience this book was written for students to understand the basis of oncology and for practitioners for brushing-up of their knowledge in this growing discipline. Author says that to get a grasp on cancer cases we should believe in the potential of the homeopathic treatment, that healing from cancer refers to internal process of becoming whole and feeling harmonious with yourself and your

environment. To even start with handling the cases of cancer one should be aware of understanding of cancer, its cause, pathophysiology, different types, conventional treatment and their side effects, integrative medicines, social problems in the treatment, such topics are well casted by Volume 1 of the book. Peak points of Volume 1- • A full chapter is dealing with Iscador, a relatively old method, very effective but unfortunately underemployed. • Published papers about Homeopathy in the treatment of cancer are presented before the last chapter which is on some of most used allopathic drugs in cancer with a focus on their side-effects. After the coverage of basic information on oncology in Volume 1 comes the Volume 2 which explores topics like understanding cancer from homoeopathic point of view, constitutional remedies, therapeutics of individual cancers, nutrition, general management. Peak points of Volume 2- • A whole chapter on Cadmium salts and cancer. • 51 “lesser known remedies” are briefly quoted and their usefulness in different situations and types of cancer exposed. • A long chapter deals with the “Indian drugs”, it is important that these remedies are used mostly in tincture or low potencies, as herbal or Ayurvedic remedies or food supplements relieving the patients. • The choice and differentiation between the remedies is then helped by the “Repertory of Cancer”, very well compiled and a highly useful section. “Clinical tips from my practice” given as a sub-chapter. • It ends with recommendations on how to deal with radiation illness and the side-effects of conventional treatment, as well as the treatment of pain and help with palliative care. For fighting and curing cancer and improving the quality and quantity of life of people, knowledge of Homeopathy, both philosophically and scientifically is needed which this work of art portrays delightfully.
