The Japanese On Trial Philip R. Piccigallo, 2013-08-26 This comprehensive treatment of post-World War II Allied war crimes trials in the Far East is a significant contribution to a neglected subject. While the Nuremberg and, to a lesser degree, Tokyo tribunals have received considerable attention, this is the first full-length assessment of the entire Far East operation, which involved some 5,700 accused and 2,200 trials. After discussing the Tokyo trial, Piccigallo systematically examines the operations of each Allied nation, documenting procedure and machinery as well as the details of actual trials (including hitherto unpublished photographs) and ending with a statistical summary of cases. This study allows a completely new assessment of the Far East proceedings: with a few exceptions, the trials were carefully and fairly conducted, the efforts of defense counsel and the elaborate review procedures being especially noteworthy. Piccigallo's approach to this emotion-filled subject is straightforward and evenhanded throughout. He concludes with a discussion of the broader implications of such war crimes trials, a matter of interest to the general reader as well as to specialists in history, law, and international affairs.

The Ha-Ha Dave King,2005-01-01 Howard Kapostash has not spoken in thirty years. The small repertory of gestures and simple sounds that he uses to communicate lead most people to assume he is disturbed. No one understands that Howard is still the same man he was before his tragic injury. But when he agrees to help an old girlfriend by opening his home to her nine-year-old son, the presence of this nervous, resourceful boy in his life transforms Howard utterly. He is afforded a rare glimpse of life outside his shell? With all its exuberant joys and crushing sorrows.

The Comfort Women: Japan's Brutal Regime of Enforced Prostitution in the Second World War George Hicks,1997-10-17 The most extensive record available in English of the ugly story.—Elisabeth Rubinfein, New York Newsday Over 100,000 women across Asia were victims of enforced prostitution by the Japanese Imperial Forces during World War II. Until as recently as 1993 the Japanese government continued to deny this shameful aspect of its wartime history. George Hicks's book is the only history in English regarding this terrible enslavement of women.

The Rape of Nanking Iris Chang,2014-03-11 The New York Times bestselling account of one of history's most brutal—and forgotten—massacres, when the Japanese army destroyed China's capital city on the eve of World War II, piecing together the abundant eyewitness reports into an undeniable tapestry of horror. (Adam Hochschild, Salon) In December 1937, one of the most horrific atrocities in the long annals of wartime barbarity occurred. The Japanese army swept into the ancient city of Nanking (what was then the capital of China), and within weeks, more than 300,000 Chinese

civilians and soldiers were systematically raped, tortured, and murdered. In this seminal work, Iris Chang, whose own grandparents barely escaped the massacre, tells this history from three perspectives: that of the Japanese soldiers, that of the Chinese, and that of a group of Westerners who refused to abandon the city and created a safety zone, which saved almost 300,000 Chinese. Drawing on extensive interviews with survivors and documents brought to light for the first time, Iris Chang's classic book is the definitive history of this horrifying episode.

Hidden Horrors Toshiyuki Tanaka, 2018 Now in a significant new edition, this landmark book documents little-known wartime Japanese atrocities during World War II, including cannibalism; the slaughter and starvation of prisoners of war; the rape, enforced prostitution, and murder of noncombatants; and biological warfare experiments.

Hirohito and War Peter Wetzler, 1998-02-01 The debate over Emperor Hirohito's accountability for government decisions and military operations up to the end of the World War II began before the end of the war and has continued even after his death. This book documents this controversy while providing insights into the Showa emperor's role in military planning in imperial Japan. It argues that Hirohito both knew of and participated in such planning and offers evidence that he was informed well in advance of the planned attack on Pearl Harbor. Using Japanese primary sources, this text aims to show that Hirohito's participation in the decision-making process was entirely consistent with his intellectual background and his passionate belief in the significance of the imperial tradition for the Japanese polity (kokutai) in prewar Japan.

Nanking Masahiro Yamamoto, 2000-08-30 The December 1937 incident that has come to be known as the Rape of Nanking is, without doubt, a tragedy that will not soon be forgotten. While acknowledging that a tremendous loss of life occurred, this study challenges the current prevailing

notion that the incident was a deliberate, planned effort on the part of the Japanese military and analyzes events to produce an accurate estimate of the scale of the atrocities. Drawing on Chinese, Japanese, and English sources, Yamamoto determines that what happened at Nanking were unfortunate atrocities of conventional war with precedents in both Eastern and Western military history. He concludes that post-war events such as the war crimes trials and the impact of the Holocaust in Europe affected public opinion regarding Nanking and led to a dramatic reinterpretation of events. The Rape of Nanking consisted of two distinct phases: the mass execution of prisoners of war (as well as conscription age men who appeared to be combatants) and the delinquent acts of individual soldiers. The first phase, which occurred immediately after Nanking's fall and which claimed most of the atrocity victims, was the result of the Japanese military's attempt to clear the city of Chinese soldiers thought to be in plain clothes. The second phase, which lasted approximately six weeks, was horrible, but resulted in a much smaller number of fatalities. It was characterized by numerous criminal acts, ranging from rape and murder to arson and theft, committed by unrestrained Japanese soldiers. The root cause for both phases was the Japanese military's bureaucratic inefficiency and command irresponsibility. While both Chinese and American contemporary sources initially attributed the incident to these causes, subsequent Japanese atrocities against both military and civilian Allied personnel during World War II and evidence presented at war crimes trials would come to reshape perceptions of the Nanking events as an Asian counterpart to the Nazi Holocaust.
