Horse Racing Betting Secret System M C Horrocks, Introduction I must thank you for buying my book and appreciate any comments on the system. I have inserted my email address at the end of the book. Plus feel free to email me if you have any questions or need any help. This horse racing system took me approximately 12 months to computer model and test primarily around UK handicap horse races. This would have not been possible without my 10 years database of horse form and my I.T. computer skills. Handicap horse racing fascinates me I find it a great puzzle to solve and love form variables like weight, official rating and many more. This horse racing system has four simple steps that find winners daily and I have outlined tips to get more profit. I like using this system for betting singles and doubles which are lethal and produce massive profits! In the book I have covered a horse race in extensive detail so that you understand the system and how to apply the horse racing system to each race quickly and thus finding winners easily.

UK Horse Racing Betting Systems Mark Horrocks, I graduated from University with a computer science degree many years ago when a degree meant something! I was always interested in horse racing and was fascinated in solving the UK horse racing form puzzle. I started my own computer business in my early 20's where I made good money and travelled across Europe. It was at this point in my life I decided to start a horse tipping business where I had weekly full page colour adverts in the Racing Post at £2K per advert and offices. I left the running of this horse tipping business to staff who were responsible for all parts of the business while I concentrated on my computer business. In my late 30's around 1990 I decided to use my computer skills to computerise and model UK horse racing form using a database built with 10 years of detailed horse racing form. It was over a period of 2 years that I concentrated my efforts on UK handicap races in conjunction with the betting exchange Betfair. This is where I believed maximum profit could be gained. The computer model allowed me to process 100's of handicap races per day and then formulate my system tweaking a horse's weight and BHB or OR (Official Rating). I must confess this was a difficult puzzle to crack even with a computer program that I wrote to crunch the data. I eventually found the correct weight and BHB rating for a horse based on it's last performances in handicap races. This eBook outlines this system and can be manually applied easily using the Racing Post on the internet.

The Best Sports and Horse Racing Betting Systems That Work! Ken Osterman, 2018-04-12 This book contains the best sports and horse racing betting systems from Ken Osterman previously published in two separate books: Sports and Horse Racing Betting Systems That Work! and More Sports and Horse Racing Betting Systems That Work!. These are systems that Ken Osterman has used successfully at race and sports books. The rules for each system are clearly explained, so it is understood why they work. Tips for improving these systems are also provided. There are 10 systems in the first half of the book that cover horse racing, football and baseball. Here is a list of the systems with the sport that is covered and the title of the system. Horse racing Quarter Horse - The Hidden Speed Horse Angle Thoroughbred - Best Jockey - Long shot Method Thoroughbred - Bet the Fastest Horse Thoroughbred - Show a profit down under Harness - The qualifier advantage Harness - Morning Line Overlay Sports Betting NFL Football - The Injured Star NFL Football - The Hat Trick Baseball - The AAA Surprise Baseball - The Underdog Advantage The second half of the book continues with more horse racing systems, and then expands the offering of sports betting angles with a profitable method for NHL hockey that focuses on underdogs playing on the road. His other method involves a fascinating angle on college basketball. In fact, this method does not involve handicapping teams at all. You are handicapping the betting public, so you don't need to be an expert to use this system. There are plenty of examples that allow you to follow this method in step-by-step fashion. Here is the list of systems included in the second half of the book. Horse racing The Quarter Horse Speed Index Method The B6 Sprint System for Thoroughbreds The Quick Rating Method for Harness Racing Betting Favorites Using the Modified d'Alembert Betting Method Sports Betting The NHL Road Dog Method College Basketball The Betting Odds Analysis Method

The Two Step Horse Racing System M C Horrocks, The system works for UK Handicap and Non Handicap races but I tend to favour Handicap races as the prices are larger. I will concentrate only on Handicap races in this book. In summary the system works on two form variables that can be obtained from the Racing Post website and a race can be assessed in 5 minutes. This horse racing system can find winners of a UK horse race very quickly and allows punters who have busy lives to assess horse form very quickly. I wrote this horse racing system as I had many emails from punters who wanted to have a bet on Saturday or day at the races but did not want to spend hours reading horse form. This system can benefit novice to professional punters.

Horse Racing Jim Oddo, 2012-07-28 I wrote this book after getting numerous questions from both experienced and occasional horse players regarding horse racing systems or handicapping tips they wanted when they would visit the local race track. Let's face it, if you are going to spend a day at the track, you'd rather come out a few bucks ahead then making the typical "donation". The first question I ask anyone looking for advice is "What is your

expectation?" By that I mean so you want to walk into the track with \$50 and leave with a remarkable return of 10-50%, or do you want to walk in with \$50 and leave with 10 times that amount? If your answer is the 10-50% return, then this is the book for you. I do have a jackpot system, but that is a different book. Horse racing betting can be confusing, but my system makes it simple and easy for anyone to use. So to all you conservative players. looking to have some fun and earn a smart return let's get started!

19 Valuable Horse Racing Betting Systems Ken Osterman, 2019-04-20 The methods and angles that follow have been among Ken Osterman's favorites over the years. They have been developed and tested on races at racetracks all over the country. There are systems that cover all three main breeds of horse racing: thoroughbreds, quarter horses, and standardbreds. The rules of the handicapping angle are clearly explained and easy to find horses that qualify for a bet. There are a couple of systems that use that tote board and require no past performances. These are systems that Ken Osterman has used successfully at race and sports books. The rules for each system are clearly explained, so it is understood why they work. Tips for improving these systems are also provided. Most Profitable Horse Racing System M C Horrocks, This UK and Irish Handicap horse racing betting system contains 4 simple steps to identify potential winning horses in a horse race. I wrote this system so that busy punters using the excellent racing post on the internet for free can find profitable horses quickly in handicap horse races. I like this book because I have added some optional extra filters to the horse racing system to improve the quality of selections and to achieve a better strike rate. I have written numerous books on horse racing but this is my favourite and most profitable UK and Irish horse racing system.

Horse Racing Betting Dutching System M C Horrocks, Introduction I have written many books around UK horse racing systems and this one I really enjoyed due to the simplicity of this horse racing dutching system and how easy it is to apply. The system uses the excellent free racing post website where you can obtain all the form data you need to use this system. Plus you do not have to be a form expert to understand it. You should aim at using Betfair to place your dutch bets due to the better prices and the ability to get even better prices pre-off the race. Understand the system before placing your horse dutching bets, I hope you enjoy it!

I started my own computer business in my early 20's where I made good money and travelled across Europe. This eBook outlines this system and can be manually applied easily using the Racing Post on the internet. Punter's can be fickle people which 95% of them have no understanding of horse form and probability. If you can back horses at higher prices then you will make money! I regularly back horses that have a starting price of 2/1 and get 10/1! Most punters want winners everyday regardless of the price and the horse's real chance of winning that race, this is where the bookmakers clean up.

Picking Winners No Problem M C Horrocks, Introduction The title of this book is a bold statement and one cannot really state this unless you put your money where your mouth is! I have written many books around UK horse racing systems and this one I really enjoyed due to the simplicity of this horse racing system and how easy it is to apply. The system uses the excellent free racing post website where you can obtain all the form data you need to use this system. Plus you do not have to be a form expert to understand it. I personally think horse racing pundits make heavy weather of horse racing form, i.e. looking at a horse's breeding and many other factors. I think this information just confuses the average punter. I have added a special bonus horse laying system in this book and I think you will enjoy it! This laying system is so easy to follow you will look back at all the bets you have placed in the past and wonder how did I get it so wrong! Yes it will hurt knowing how much money you lost when you should have not. Moving back onto the horse backing system, picking winners will be very easy for you and

even more you will gain confidence and control in your betting. This horse racing system normally picks 2 to 3 horses per day in UK handicap horse racing markets. You should aim at using Betfair to place your bets due to the better prices and in-play tactic I will show you in this book. Understand the system before placing bets, I hope you enjoy it!

UK Longshot Horse Racing System M C Horrocks, 2021-05-06 I will make this bold statement straight away, This book finds big priced winners in UK handicap horse races easily and consistently! I need to make a very important statement here backing double figure priced horses can return some huge profits but you must remember they all do not win, more will lose races which is to be expected. There is a reason why the horse is such a big price it is mainly due to the fact the horse has not won for a long time. Another reason is that a horse could be out of its depth in other words running in a higher class of race. Most punters want winners every day at any odds this makes them feel good. They think they are making a profit, how wrong they are and the bookmakers take their money every day with a smile on their faces. Another mistake the average punter makes is that they will take current SP starting price of a horse and not look for a larger price. So say a horse is 2/1 that's decimal odds 3.0 on the Betfair betting exchange. They will readily take these odds. A more profitable approach is to take higher odds like decimal odds 3.5. Ok you might think there is not much difference between decimal odds 3.0 and 3.5 but it adds up over a year and that is where your profit is. The only way to profit in horse racing is to back horses at larger odds than what is being offered. The betting exchanges show the true odds of a horse just before the race starts. As these odds are derived from many punters and bookmakers who are using the betting exchanges then the price of the horse before the race starts is its true odds. This price is a consolidated view and it is normally correct and near the mark. This system also finds large priced horses that are placed 1st 2nd 3rd or 4th regularly in a horse race and these can be exploited in the Betfair place market at some juicy odds. I have taken decimal odds of 7.0 on four places in a horse race and mopped up.

Small Track Betting C N Richardson, 2007-10-17 This authoritative guide will make horseplayers a lot of money. Respected racing author C.N. Richardson takes would-be winners through his eight-point system for betting. Most important, by working his strategy at small tracks (including Finger Lakes Racetrack, Great Lakes Downs, Lone Star Park, and Turf Paradise) rather than their larger counterparts, Richardson shows the fantastic results of his system in real situations. His key rules for doing a top-notch analysis of the odds include having knowledge of the trainers, limiting betting to no more than five races at any given track, and choosing exotic betting options, like trifectas, to maximize the investment's return. He also includes and explains personal idiosyncrasies like never betting on a race he can't see!

Easy Money Jake Lamont, 2019-01-07 I bought the rights to sell these unique horse racing systems and now am sharing them at a great price. Highly reviewed by Phillips Racing Newsletter, this booklet provides three great horse racing systems with detailed rules and examples. In Phillips Racing Newsletter's tests they found a 42% win rate at an average price of \$6.40 (36% ROI) for Jim's ATM method and a 28% win rate for the Jim's Fast system at an average price of \$9.80 (37% ROI). Jim's 7-Word System was not reviewed. Phillips Racing Newsletter gave this collection of systems a 7 1/2 (out of 10) point rating, one of the highest ratings they ever give out. The systems are mechanical, but of course you can use your own twists if you please. I have had many enjoyable days at the races using these systems, especially with the Jim's Fast Angle. I believe there is value in this book at the low price it is being offered for. I'm offering it at a great price to share it with my fellow horse players. I hope you will give it a positive review. This book is available in both hard copy and an electronic version. Thank you and good luck at the races!
