The Architecture and Geography of Sound Studios Even Smith Wergeland, 2024-06-21 This is a book about sound studios, focusing on their architectural and geographical aspects. It explores how music is materialized under specific spatial and technological conditions and the myths associated with this process. Through ten in-depth studies, it examines the design, evolution and current function of sound studios amidst economic and technological shifts in the music industry. Traditional studios are in flux between the past and future. The industry, while steeped in romanticism and nostalgia, also embraces forward-driven pragmatism and an extensive reuse culture, encompassing heritage audio, building materials and existing buildings. A surprisingly diverse architectural heritage, the most significant feature is the host building, the framework around the studio capsule. Many traditional studios adapt to digitalization with hybrid solutions, reflecting a shift toward smaller, more versatile spaces. In a time when recordings in theory can happen anywhere, destination studios must excel to attract clients, balancing historical legacies with diversification. Although they may be easy to deconstruct, many of the myths endure, sustaining ideas of landmark recordings, unique locations and distinct remnants of sonic heritage. Courtesy of their capacity to keep the past alive in the present, traditional sound studios are best described as museums that work. This book aims to reach scholars and students with an interest in history, theory and preservation, as well as practicing architects and architectural students who wish to find out more about the relationship between sound and space, acoustic design and retrofitting of historical buildings into specialized functions. It also aims to reach practicing musicians, producers, music students and music scholars.

Record Plant, Sausalito Studios Katiana Giacona, 2023-06-26

The Record Plant studio in Sausalito, California, was one of America's top-of-the-line music recording facilities. Opened in 1972, Record Plant was known as the resort studio, just across the Golden Gate Bridge in Northern California and away from the big city. One of three studios, the first Record Plant was opened in New York City in 1968 by Chris Stone and Gary Kellgren. The second studio in Los Angeles opened in 1969, followed by the third studio in Sausalito. San Francisco Bay Area-based radio station KSAN FM hosted live studio broadcasts from the Sausalito studio. With its nautical-inspired interior wood artistry, the building known as the Plant had a groovy aesthetic that drew in some of the most iconic musical artists of all time, including Fleetwood Mac, Bob Marley, the Grateful Dead, Sly and the Family Stone, Prince, Tom Petty, Metallica, Santana, Aretha Franklin, Mariah Carey, Whitney Houston, Dave Matthews Band, and many more. Katiana Giacona, a Marin County native, was resident DJ at the former Sausalito Studio location when it was a spa and yoga event center called Harmonia. For Record Plant, Sausalito Studio she has assembled a collection of discography and photographs from the studio as well as interviews from former receptionists, managers, audio engineers, producers, and staff. Ken Caillat was the producer of Fleetwood Mac's Rumours album, one of the greatest rock and roll

Live Your Life Amanda Kloots, Anna Kloots, 2021-06-15 Amanda Kloots bravely reflects on love, loss, and life with her husband, Broadway star, and Tony Award nominee Nick Cordero, whose public battle with COVID-19 and tragic death made headlines around the world. In March 2020, Broadway star and Tony Award nominee Nick Cordero was hospitalized for what he and his wife, Amanda Kloots, believed to be a severe case of pneumonia. Entering the hospital, they had every reason to believe that Nick—a young father and otherwise healthy man—would return home. After an eventual diagnosis of COVID-19 that led to Nick's being placed on a ventilator, Amanda took to documenting their journey on social media, showing the dangers COVID-19 posed to everyone, regardless of age. Her updates quickly captivated millions, inspiring people around the globe to dance each day to

Nick's song "Live Your Life" and offer positive thoughts and prayer. When he passed away after ninety-five grueling days in the ICU, the world grieved for Amanda, her infant son, Elvis, and the future COVID-19 had snatched away from them. *Live Your Life* is the story of Nick and Amanda's life together—of their beautiful relationship, of Nick's dramatic fight for survival, of those sudden tragic months that permanently changed her world and ours—and of their interrupted future as a family. From the confusing early days of his illness to searching for signs of hope in every update from the doctors to the healing sound of Elvis's laughter, Amanda details how she approached even the most devastating moments with the personal optimism and faith that have shaped her life. Written with her sister Anna Kloots, who was with her every step of this journey, *Live Your Life* explores how Amanda's willingness to accept help from an entire community of people—friends, family, and even total strangers—played a vital role in enduring this hardship. In the process, she offers a touching meditation on how even the worst times have silver linings that deepen our connections to the world around us and to the people who matter most. What emerges is an inspiring and unexpectedly uplifting message for life in the time of COVID, a vision of courage for anyone coping with overwhelming loss or the collective trauma of what the pandemic has taken from us. A poignant reflection on love, hope, motherhood, and the transformational power of music, *Live Your Life* is a love letter to Nick and a reminder that, sometimes, celebrating life today is the only path through tomorrow's darkness. *Live Your Life* includes 16 pages of color photos exclusive to the book.
