The Lost Girl Sangu Mandanna, 2012-08-28 Eva's life is not her own. She is a creation, an abomination—an echo. She was made by the Weavers as a copy of someone else, expected to replace a girl named Amarra, her other, if she ever died. Eva spends every day studying that girl from far away, learning what Amarra does, what she eats, what it's like to kiss her boyfriend, Ray. So when Amarra is killed in a car crash, Eva should be ready. But sixteen years of studying never prepared her for this. Now she must abandon everything and everyone she's ever known—the guardians who raised her, the boy she's forbidden to love—to move to India and convince the world that Amarra is still alive. What Eva finds is a grief-stricken family; parents unsure how to handle this echo they thought they wanted; and Ray, who knew every detail, every contour of Amarra. And when Eva is unexpectedly dealt a fatal blow that will change her existence forever, she is forced to choose: Stay and live out her years as a copy or leave and risk it all for the freedom to be an original. To be Eva. From debut novelist Sangu Mandanna comes the dazzling story of a girl who was always told what she had to be—until she found the strength to decide for herself.

The Guide Peter Heller, 2022-05-10 NATIONAL BESTSELLER • The best-selling author of The River returns with a heart-racing thriller about a young man who is hired by an elite fishing lodge in Colorado, where he uncovers a plot of shocking menace amid the natural beauty of sun-drenched streams and forests. “Peter Heller is the poet laureate of the literary thriller. —Michael Koryta, New York Times best-selling author of Those Who Wish Me Dead Kingfisher Lodge, nestled in a canyon on a mile and a half of the most pristine river water on the planet, is known by locals as Billionaire's Mile and is locked behind a heavy gate. Sandwiched between barbed wire and a meadow with a sign that reads Don't Get Shot! the resort boasts boutique fishing at its finest. Safe from viruses

that have plagued America for years, Kingfisher offers a respite for wealthy clients. Now it also promises a second chance for Jack, a return to normalcy after a young life filled with loss. When he is assigned to guide a well-known singer, his only job is to rig her line, carry her gear, and steer her to the best trout he can find. But then a human scream pierces the night, and Jack soon realizes that this idyllic fishing lodge may be merely a cover for a far more sinister operation. A novel as gripping as it is lyrical, as frightening as it is moving, *The Guide* is another masterpiece from Peter Heller.

Blood and Whiskey Clark Hays, Kathleen McFall, 2012-05 Relationships are always hard, but for a broke cowboy and a newly turned Vampire, true love may be lethal. Our Chemical Hearts Krystal Sutherland, 2016-10-04 John Green meets Rainbow Rowell in this irresistible story of first love, broken hearts, and the golden seams that put them back together again. Henry Page has never been in love. He fancies himself a hopeless romantic, but the slo-mo, heart palpitating, can't-eat-can't-sleep kind of love that he's been hoping for just hasn't been in the cards for him—at least not yet. Instead, he's been happy to focus on his grades, on getting into a semi-decent college and finally becoming editor of his school newspaper. Then Grace Town walks into his first period class on the third Tuesday of senior year and he knows everything's about to change. Grace isn't who Henry pictured as his dream girl—she walks with a cane, wears oversized boys' clothes, and rarely seems to shower. But when Grace and Henry are both chosen to edit the school paper, he quickly finds himself falling for her. It's obvious there's something broken about Grace, but it seems to make her even more beautiful to Henry, and he wants nothing more than to help her put the pieces back together again. And yet, this isn't your average story of boy meets girl. Krystal Sutherland's brilliant debut is equal parts wit and heartbreak, a potent reminder of the bittersweet bliss that is first love.

Performance Autoethnography Norman K. Denzin, 2018-04-20 This book is a manifesto. It is about rethinking performance autoethnography, about the formation of a critical performative cultural politics, about what happens when everything is already performative, when the dividing line between performativity and performance disappears. This is a book about the writing called autoethnography. It is also about what this form of writing means for writers who want to perform work that leads to social justice. Denzin's goal is to take the reader through the history, major terms, forms, criticisms and issues confronting performance autoethnography and critical interpretive. To that end many of the chapters are written as performance texts, as ethnodramas. A single thesis organizes this book: the performance turn has been taken in the human disciplines and it must be taken seriously. Multiple informative performance models are discussed: Goffman's dramaturgy; Turner's performance anthropology; performance ethnographies by A. D. Smith, Conquergood, and Madison; Saldana's ethnodramas; Schechter's social theatre; Norris's playacting; Boal's theatre of the oppressed; and Freire's pedagogies of the oppressed. They represent different ways of staging and hence performing ethnography, resistance and critical pedagogy. They represent different ways of imagining, and inventing and hence performing alternative imaginaries, alternative

counter-performances to war, violence, and the globalized corporate empire (Schechner 2015). This book provides a systematic treatment of the origins, goals, concepts, genres, methods, aesthetics, ethics and truth conditions of critical performance autoethnography. Denzin uses the performance text as a vehicle for taking up the hard questions about reading, writing, performing and doing critical work that makes a difference.

The Rare Find George Anders, 2011-10-18 One of the nation's biggest music labels briefly signed Taylor Swift to a contract but let her go because she didn't seem worth more than \$15,000 a year. At least four book publishers passed on the first Harry Potter novel rather than pay J. K. Rowling a \$5,000 advance. And the same pattern happens in nearly every business. Anyone who recruits talent faces the same basic challenge, whether we work for a big company, a new start-up, a Hollywood studio, a hospital, or the Green Berets. We all wonder how to tell the really outstanding prospects from the ones who look great on paper but then fail on the job. Or, equally important, how to spot the ones who don't look so good on paper but might still deliver extraordinary performance. Over the past few decades, technology has made recruiting in all fields vastly more sophisticated. Gut instincts have yielded to benchmarks. If we want elaborate dossiers on candidates, we can gather facts (and video) by the gigabyte. And yet the results are just as spotty as they were in the age of the rotary phone. George Anders sought out the world's savviest talent judges to see what they do differently from the rest of us. He reveals how the U.S. Army finds soldiers with the character to be in Special Forces without asking them to fire a single bullet. He takes us to an elite basketball tournament in South Carolina, where the best scouts watch the game in a radically different way from the casual fan. He talks to researchers who are reinventing the process of hiring Fortune 500 CEOs. Drawing on the best advice of these and other talent masters, Anders reveals powerful ideas you can apply to your own hiring. For instance: Don't ignore the jagged résumé-people whose background appears to teeter on the edge between success and failure. Such people can do spectacular work in the right settings, where their strengths dramatically outweigh their flaws. Look extra hard for talent that whispers- the obscure, out-of-the-way candidates who most scouting systems overlook. Be careful with talent that shouts-the spectacular but brash candidates who might have trouble with loyalty, motivation, and team spirit. Each field that Anders explores has its own lingo, customs, and history. But the specific stories fit together into a bigger mosaic. In any field, there's an art to clearing away the clutter and focusing on what matters most. It's not necessarily hard, but it requires the courage to take a different approach in pursuit of the rare find.
