Chinese Migration and Families-At-Risk Ko Ling Chan,2015-10-05 Migration has played a significant role throughout Chinese history. Over the past few decades, the movements of the Chinese people, representing as they do a huge proportion of the world population, have attracted increasing attention both domestically and globally. Chinese migration is often a particularly complex phenomenon. On one hand, its characteristics have been shaped in many ways by numerous social, political and economic changes throughout the world, while, on the other, it has profound influences on the host countries and on China itself. Detailed investigation of the changing profiles of Chinese migrants, the reasons behind their movements, the challenges they face, and the strategies they use to cope with these problems will have significant implications for future policy making and practice. *Chinese Migration and Families-At-Risk* contributes to a better understanding of the various facets of Chinese migration. Its chapters address different concerns related to Chinese migration in the modern world, including the patterns and influences of internal migration within China; the issues related to migration from mainland China to Hong Kong, a special administrative region in China; and the history, features, and impact of Chinese migration to Western countries. Grounded in recent and contemporary research and scholarly inquiry, *Chinese Migration and Families-At-Risk* provides a comprehensive and critical review of the essential issues related to Chinese migrant families, and is undoubtedly a vital book for all who want to have a deeper understanding of the trends and current situation of Chinese migration.

The (Re)Making of the Chinese Working Class Elly Leung,2021-09-18 This book engages with Foucault's theoretical works to understand the (re-) making of the working-class in China. In so doing, the author applies Foucault's genealogical (historicalization) method to explore the ways the Chinese Communist Party (CCP) develop Chinese governmentality (or government of mentalities) among everyday workers in its thought management system. Through the investigation of the key events in Chinese history, she presents how China's stable political party is sustained through the CCP's ability to retain, update and incorporate many Confucian discourses into its contemporary form of thought management system using social networks, such as families and schools, to continuously (re-) shape workers' consciousness into one that maintains their docility. This book will bring a new voice to the debate of Chinese working-class politics and labour movements. It will serve as a gateway to comprehensive knowledge about China for students and academics with interests in Chinese employment relations, Chinese politics, labourist activist culture, and social movements.
