The Manchurian Candidate Richard Condon,2013-11-25 The classic thriller about a hostile foreign power infiltrating American politics: "Brilliant . . . wild and exhilarating." –The New Yorker A war hero and the recipient of the Congressional Medal of Honor, Sgt. Raymond Shaw is keeping a deadly secret—even from himself. During his time as a prisoner of war in North Korea, he was brainwashed by his Communist captors and transformed into a deadly weapon—a sleeper assassin, programmed to kill without question or mercy at his captors' signal. Now he's been returned to the United States with a covert mission: to kill a candidate running for US president . . . This "shocking, tense" and sharply satirical novel has become a modern classic, and was the basis for two film adaptations (San Francisco Chronicle). "Crammed with suspense." –Chicago Tribune "Condon is wickedly skillful." –Time

Archaeology, Anthropology, and Interstellar Communication National Aeronautics Administration,Douglas Vakoch,2014-09-06 Addressing a field that has been dominated by astronomers, physicists, engineers, and computer scientists, the contributors to this collection raise questions that may have been overlooked by physical scientists about the ease of establishing meaningful communication with an extraterrestrial intelligence. These scholars are grappling with some of the enormous challenges that will face humanity if an information-rich signal emanating from another world is detected. By drawing on issues at the core of contemporary archaeology and anthropology, we can be much better prepared for contact with an extraterrestrial civilization, should that day ever come.

Being the Mountain Productora,Carlos Bedoya,Wonne Ickx,Victor Jaime,Abel Perles,Jesús Vassallo,2020-03-30 The result of research PRODUCTORA initiated as winners of the Mies Crown Hall Americas Prize for Emerging Practice at Illinois Institute of Technology, Being the Mountain examines the relationship between architecture and the ground

it occupies, an interaction so obvious-a building must touch the ground-that it often remains underexplored. Richly illustrated contributions by Carlos Bedoya, Frank Escher, Wonne Ickx, Véronique Patteeuw, and Jesús Vassallo revisit significant moments in architectural history that cast new light on the techniques and legacies of modernism, especially in settings like Mexico and California, where architects such as Ricardo Legorreta and John Lautner incorporated dramatic natural topography in their agendas. Additional essays investigate the role of the ground in the thought of Kenneth Frampton in the 1980s and Luis Moreno Mansilla in the 1990s, as well as point to important parallels between premodern land practices, twentieth-century art, and today's architecture.

Deception Point Dan Brown,2019-07-30 From the #1 New York Times bestselling author of *The Da Vinci Code*, *Angels & Demons*, and *Inferno* and the “master of smart thrills” (People) comes a “rocket-fast thriller” (Vince Flynn) about an astonishing NASA discovery that unravels a deadly conspiracy that leads all the way to the White House. When a NASA satellite spots evidence of an astoundingly rare object buried deep in the Arctic ice, the floundering space agency proclaims a much-needed victory—one that could have profound implications for US space policy and the impending presidential election. With his re-election hanging in the balance, the President sends White House Intelligence analyst Rachel Sexton to the Milne Ice Shelf to verify the authenticity of the find. Accompanied by a team of experts, including the charismatic academic Michael Tolland, Rachel uncovers the unthinkable: evidence of scientific trickery. Before she can contact the President, she and Michael are attacked by a deadly team of assassins controlled by a mysterious power broker who will stop at nothing to hide the truth. Fleeing for their lives in an environment as desolate as it is lethal, their only hope for survival is to find out who is behind this masterful ploy. The truth, they will learn, is the most shocking deception of all in this “taut, fast-paced, barn-burner of a book” (St. Petersburg Times).

Christmas at Highclere The Countess of Carnarvon,2019-09-05 Highclere Castle, known as 'the real Downton Abbey' bustles with activity at the best of times, but it is never more alive than at Christmas. Christmas at Highclere is a look behind the scenes at the routines and rituals that make the castle the most magical place to be throughout the festive season. Lady Carnarvon will guide you through Advent, Christmas preparations and Christmas Eve all the way through to the day itself, and beyond. Learn how the castle and grounds are transformed by decorations, including the raising of a twenty-foot tree in the saloon, the gathering of holly and mistletoe from the grounds. All the intricacies of the perfect traditional Christmas are here: from crackers and carol singers. The festive feeling is carried through to Highclere's Boxing Day traditions, the restorative middle days and the New Year's Eve celebrations. This book also tells the story of historic Christmases at Highclere - of distinguished guests warming themselves by the fire after a long journeys home through the snow, unexpected knocks on the door, and, always, the joy of bringing family - and staff - together after a busy year. As well as telling the stories of Highclere Christmases past and present, Lady Carnarvon provides recipes, tips and inspiration from her kitchen so that readers can bring a quintessentially British festive spirit to their own home. Lady Carnarvon divulges the secret to perfectly flakey mince pies, the proper way to wrap presents so that you and your guests are guaranteed a Christmas to remember. Lavish, celebratory and utterly enchanting, Christmas at Highclere is celebration of one of the UK's most beloved historic houses and is the perfect gift for any Downton Abbey fan.

Launch! Advertising and Promotion in Real Time Michael Solomon,2009 Launch! Advertising and Promotion is written for advertising and promotion courses taught to students in the business school and journalism & mass communication students. This textbook is the first of its kind to teach advertising concepts by reverse engineering a real advertising campaign from beginning to end. In April 2007, SS+K, an innovative New York City communications agency, launched the first ever branding campaign for msnbc.com with the tag A Fuller Spectrum of News. Launch! follows that campaign from initial agency pitch through roll-out of print and media assets to post-campaign analysis. Throughout, it exposes readers to the theory and concepts of advertising and promotion, and the personalities and decisions that drove this campaign. The book takes a rare look behind the curtain - even letting you see some of the paths not chosen by the agency and client. Students get a realistic sense of how theory plays out in practice, and get a flavor for the exciting field of advertising and promotion. And, they consistently learn the perspectives of both the advertising agency (where many journalism and communications students will work) and the client (where many marketing majors will work). This is a unique book, with a unique perspective, by a unique author team, and you won't find this kind of insight in any other text on the market. We think you're going to love it! This textbook has been used in classes at: Ball State University, Emerson College, Florida Institute of Technology, Grand Valley State University, Johnson County Community College, Manchester Business School, McLennan Community College, Michigan State University, North Hennepin Community College, Pierce College, Rochester Institute of Technology, Saint Louis University, Salem State College, South Dakota State University, Texas State University, Texas Tech University, University of New Hampshire, University of North Carolina, University of Notre Dame, University of South Florida, Virginia Tech, Western Kentucky University.
