Checkout 19 Claire-Louise Bennett, 2023-02-28 A NEW YORK TIMES 10 BEST BOOKS OF THE YEAR AND A NEW YORKER ESSENTIAL READ NAMED A BEST BOOK OF THE YEAR BY THE NEW YORKER AND VOGUE "Bennett writes like no one else. She is a rare talent, and Checkout 19 is a masterful novel." –Karl Ove Knausgaard From the author of the "dazzling. . . and daring" Pond (O magazine), the adventures of a young woman discovering her own genius, through the people she meets—and dreams up—along the way. In a working-class town in a county west of London, a schoolgirl scribbles stories in the back pages of her exercise book, intoxicated by the first sparks of her imagination. As she grows, everything and everyone she encounters become fuel for a burning talent. The large Russian man in the ancient maroon car who careens around the grocery store where she works as a checkout clerk, and slips her a copy of *Beyond Good and Evil*. The growing heaps of other books in which she loses—and finds—herself. Even the derailing of a friendship, in a devastating violation. The thrill of learning to conjure characters and scenarios in her head is matched by the exhilaration of forging her own way in the world, the two kinds of ingenuity kindling to a brilliant conflagration. Exceeding the extraordinary promise of Bennett's mold-shattering debut, *Checkout 19* is a radical affirmation of the power of the imagination and the magic escape those who master it open to us all.

Department 19 Will Hill, 2011-03-31 Jamie Carpenter's father is dead, his mother is missing, and he was just rescued by an enormous creature named Frankenstein. Now Jamie is pulled into a secret organization responsible for policing the supernatural, founded more than a century ago by Abraham Van Helsing. . . . Department Nineteen takes us through history, across Europe, and beyond - from the cobbled streets of Victorian London to prohibition-era New York, from the icy wastes of Arctic Russia to the treacherous mountains of Transylvania. Part modern thriller, part classic horror, it's packed with mystery, mayhem, and a level of suspense that makes a Darren Shan novel look like a romantic comedy.

Computational Modeling and Data Analysis in COVID-19 Research Chhabi Rani Panigrahi, Bibudhendu Pati, Mamata Rath, Rajkumar Buyya, 2021-05-10 This book covers recent research on the COVID-19 pandemic. It includes the analysis, implementation, usage, and proposed ideas and models with architecture to handle the COVID-19 outbreak. Using advanced technologies such as artificial intelligence (AI) and machine learning (ML), techniques for data analysis, this book will be helpful to mitigate exposure and ensure public health. We know prevention is better than cure, so by using several ML techniques, researchers can try to predict the disease in its early stage and develop more effective medications and treatments. Computational technologies in areas like AI, ML, Internet of Things (IoT), and drone technologies underlie a range of applications that can be developed and utilized for this purpose. Because in most cases there is no one solution to stop the

spreading of pandemic diseases, and the integration of several tools and tactics are needed. Many successful applications of AI, ML, IoT, and drone technologies already exist, including systems that analyze past data to predict and conclude some useful information for controlling the spread of COVID-19 infections using minimum resources. The AI and ML approach can be helpful to design different models to give a predictive solution for mitigating infection and preventing larger outbreaks. This book: Examines the use of artificial intelligence (AI), machine learning (ML), Internet of Things (IoT), and drone technologies as a helpful predictive solution for controlling infection of COVID-19 Covers recent research related to the COVID-19 pandemic and includes the analysis, implementation, usage, and proposed ideas and models with architecture to handle a pandemic outbreak Examines the performance, implementation, architecture, and techniques of different analytical and statistical models related to COVID-19 Includes different case studies on COVID-19 Dr. Chhabi Rani Panigrahi is Assistant Professor in the Department of Computer Science at Rama Devi Women's University, Bhubaneswar, India. Dr. Bibudhendu Pati is Associate Professor and Head of the Department of Computer Science at Rama Devi Women's University, Bhubaneswar, India. COVID-19 and Existential Positive Psychology (PP2.0): The New Science of Self-Transcendence Paul T. P. Wong, Claude-Hélène Mayer, Gökmen Arslan, In the era of COVID-19, many people have suffered high levels of stress and mental health problems. To cope with the widespread of suffering (physical, psychological, social, and economical) the positive psychology of personal happiness is no longer the sole approach to examine personal wellbeing. Other approaches such as Viktor Frankl's theory of self-transcendence provide a promising framework for research and intervention on how to achieve resilience, wellbeing, and happiness through overcoming suffering and self-transcendence. The existential positive psychology of suffering complements the positive psychology of happiness, which is championed by Martin Seligman, as two equal halves of the circle of wellbeing and optimal mental health. This Research Topic aims to examine the different approaches to Positive Psychology and their influence on individual wellbeing during the COVID-19 era. One of the exciting development in the positive psychology of wellbeing is the mounting research on the adaptive benefits of negative emotions, such as shame, guilt, and anger, as well as the dialectical process of balancing negative and positive emotions. As an example, based on all the empirical research and Frankl's self-transcendence model, Wong has developed the existential positive psychology of suffering (PP2.0) as the foundation for flourishing. Here are a few main tenets of PP2.0: (1) Life is suffering and a constant struggle throughout every stage of development, (2) The search for self-transcendence is a primary motive guided by the meaning mindset and mindful mindset. (3) Wellbeing cannot be sustainable without overcoming and transforming suffering. In this Research Topic we welcome diverse approaches discussing the following points: • The dialectic process of overcoming the challenges of every stage of development as necessary for personal growth and self-transcendence; • The role of self-transcendence in resilience, virtue, meaning, and happiness; • The upside of negative emotions; • The new science of resilience based on cultivating the resilient mindset and character; • How to make the best use of suffering to achieve out potentials & mental health.

COVID-19 Assemblages Niharika Banerjea, Paul Boyce, Rohit K. Dasgupta, 2022-01-20 This book documents and analyzes the effects of the COVID-19 pandemic through queer

and feminist perspectives. A testament of dispossessions as well as a celebration of various forms of resilience, community building and critical responses, it chronicles the social history of queer and trans persons and women in South Asia and the diasporas. Through a creative and collaborative form of ethnographic writing, the book enters in conversation with the worlds of domestic helps, caregivers, cultural workers, students, sex workers and other precariously employed people. It examines the confining effects of the pandemic on the lived realities of many queer and trans individuals, the caste-oppressed and women across socio-economic backgrounds. The chapters in the volume piece together narratives of prejudice, hardship, self-expression and resistance from interviews, personal accounts, as well as poems and stories from activists, artists and other collaborators. The book pays particular attention to issues of power and asymmetrical relationships amidst COVID-19 and offers critiques to deepen the understanding of the uneven fault lines within which historically oppressed persons reside in South Asia. Exploring themes of migration, disability and sexual politics, this book is an essential reading for scholars and researchers of gender and sexuality studies, cultural studies, South Asian studies, sociology and social anthropology.
