Income is the consumption and saving opportunity gained by an entity within a specified timeframe, which is generally expressed in monetary terms.[1][2][3] For households and individuals, income is the sum of all the wages, salaries, profits, interest payments, rents, and other forms of earnings received in a given period of time.[4] (also known as gross income). Net income is defined as the gross income minus taxes and other deductions (e.g., mandatory pension contributions), and is usually the basis to calculate how much income tax is owed.

1. **EARNED (ACTIVE) INCOME** Definition: Earned income is money earned from working that requires your time. This is the income you receive from actively

working. You work and you are paid for your work. Examples: Salary; wages; bonuses; contract work. Tax implications: Earned income is taxed higher than any other income, at a rate of 10%-35%, plus Medicare, Social Security, and other taxes, which can reach close to 50% based on tax calculators and estimators. Characteristics: It's hard to become wealthy solely from earned income for a few reasons. First, it's taxed at the highest rate, and second, there are only so many hours in the day for you to work (you can work and work and work, but if you have to be there to make the money, there's a cap on your income because time is limited). Another downside besides taxes is that once you stop working, the money stops coming in. On the upside, earned income is the easiest type of income to make. You can just go get a job or side job pretty easily in the US and make some money. This is why most people make money this way—it's easy to do. A great way to switch over into better types of income is to use earned income by putting it into a portfolio or to start a side hustle or business (this is what I did by starting a blog, which is now my full time business).

2. PORTFOLIO INCOME Definition: Portfolio income is money you receive from selling an investment for more than what you paid for it

(portfolio income is also referred to as capital gains). Examples: 1) trading assets, like stocks, bonds, and mutual funds, 2) buy and selling real estate, and 3) buying and selling other assets, like a car. Tax implications: Portfolio income is taxed at 10%-20% for investments held over 12 months and taxed as earned income if held less than 12 months. However, portfolio income is not taxed for Medicare or Social Security. Capital gains can be offset by losses on other investments, which is a huge plus. Characteristics: One downside is that for the average person, investing can seem intimidating. This often keeps people away from doing it. It wasn't until I became a Certified Financial Planner that I really understood what was going on with respect to portfolio income. If you're just getting started with investing, read this post – 21 tips for investing in your 30's. Also, this type of income can take a long time to generate if you believe in many of the widely held investing concepts that require buying and holding for years. If you're a trader and attempt to do it much faster, you better be really good at it, because otherwise, it's sort of like gambling. You have to have money to invest upfront to create portfolio income. This is a huge reason why people say they don't invest. You can start with a small

amount and contribute to your investments over time, but it requires you to have the capital to do it. If you want to get started with hiring someone to help you with your money, read this post on questions you should ask your financial advisor before hiring her. I like using investing as a supplemental income strategy. I don't want to retire, but I like the idea that I could if I ever change my mind or it became medically necessary. So, I save and invest as a bit of a safety net, but not as the end goal of retiring as soon as possible. I like contributing to the world through my work, and I also like creating a lot of income. I just don't ever tie my "hard work" or time to income generated. This way, I know my income potential is unlimited.

3. **PASSIVE INCOME** Definition: Passive income is money generated from assets you own, where you are not actively working. Examples: Rental income, business income (as long as it's not earned based on time and effort), creating/selling intellectual property (e.g.: books). Tax implications: Passive income receives the most favorable tax treatment. Characteristics: Passive income is thought to be the key to building wealth. Once you have an investment that generates recurring income, you don't have to do much to maintain it (so time is not a limitation). Typically, there

isn't much start up cost to passive income that you have to provide yourself. For example, you can use your time to create a business or you can get funding from investors for your real estate properties or start up company. It's not as easy as earned income, but it's not as challenging as portfolio income (in terms of start up funds). It takes a lot of money to make a lot of portfolio income, whereas you can generate a lot of passive income with less. I started a blog with the idea of generating passive income (the Smart Passive Income podcast used to be on repeat!). It's one of the best things I ever did! A FINAL NOTE! Understanding how income works is important because it affects how you go about deciding what results you want with money in your future. Do you want to retire? Do you want financial independence early? Do you want to focus on contributing to the world through your work as an entrepreneur? Do you want money just to be a scorecard of the value you provide? Do you believe that "hard work" and time create money? (So many questions!) These are philosophical questions, but whatever you believe will drive your feelings, which will drive your actions, which will drive your results. So, ultimately, your beliefs drive your results (you can read more about this in the 5 step framework to

master your mindset post here). Based on what you choose to believe, you could end up financial independent and retiring very young and living off 4% of your investment portfolio, with frugal values, while traveling, and doing whatever else you want to experience the world while you're alive. Or, you could end up a multimillionaire focusing on serving the world through your work and never retiring. Completely different results. Both involve a lot of money. What you choose matters. What you believe about money matters. What you do matters. The three different types of income are a way of learning how to use money to your advantage to get the results you want most. This is the way our system works. The sooner you understand how money works, the sooner you can make better decisions that will help you achieve financial success (whatever that looks like to you).

10 Legit Ways To Make Money And Passive Income Online Jason Morales, 2022-08-20 Did you know you can actually make money online? yeah that's right, and all you need is a computer or phone with internet access. So in this book, I'm going to show you 10 websites where you can actual start making some side cash or if you are really serious, some good Money! isn't that amazing! On some of

these websites you can actually make as much as a 100 dollars a day or even more, and the best part is, you don't have to quit your 9 - 5 job, you can make this money, working in your free time. On the internet, there are two distinct ways of making money. The first way is active income. With active income, its like your normal 9 -5 job. You only get paid for the work you do. If you do not work, you don't make money, as simple as that. The second way is through passive income. This is my favorite method because, with active income, all you do is put in the work once, and the money in theory should keep rolling in, without you having to do any more work other then maybe promoting what you have made, or in some cases what other people have made.

20 Ways To Make An Online Income RD king, Discover 20 Cool Ways To Make An Online Income! There are many ways to generate income online and a passive income is one of those ways. Being able to generate a passive income takes a special skill. Your audience can be fickle. If they feel you are more concerned about the money than them, you will fail. Your intent needs to be about helping others. Initially you are going to need to put in a lot of time. It's hard work to get a passive income flow going and to build that success. It doesn't come overnight, although many would like you to believe this. Just because you have your product it doesn't mean you can sit back and relax. There

really isn't a 100% passive income, because you always have to be managing what you are doing. You need to build automation, but to do that you first have to create trust with your followers or audience. That's where initially you have a lot of time invested, which will decrease, but you will always be involved. As your passive income builds and you become comfortable in your business, make sure that the profit never becomes your main motivation, because when it does you set yourself up for failure. Passive Income Jeff S. THOMSON, 2018-11-13 Are you searching for a proven, step-by-step system which allows you to make passive income streams automatically - with hardly any experience? Are you ready to begin making passive income, but have no idea where to start? The idea of passive income is simple. You do some work once and generate income for years passively. Passive income is present, and thousands of people already are making money passively! They aren't ways to turn your time into money directly. Instead, they are methods to plant seeds which means that your money shall grow, when you're sleeping or at the park walking your dog even. In other words, even when you're not out trying to create money actively. It's all about the idea of passive income. As being a farmer who

vegetation a crop tends the harvests and fields the produce, you can plant monetary seeds which will produce income. It takes some ongoing build up front and some maintenance on the way, but in the event that you plant passive income seeds that match your climate you may bring in a nice harvest. Passive income differs from attained portfolio and income in many ways. Passive income is thought as a stream of income gained with little effort generally, and it is known as progressive passive income when there is usually little effort needed from the average person receiving the passive income to be able to grow the blast of income. Making passive income isn't unrealistic. But it isn't easy either. It takes effort and time to build a business that will later make you money regularly without spending a lot of time in front of your personal computer. But the significant problem is that most people are not ready to take their business compared to that level plus they quit fast. Earn thousands of dollars every month with these proven ideas. Discover what you should know about generating income online and achieving financial freedom with these top 10 income generating strategies and ideas.

The School of Greatness Lewis Howes, 2015-10-27 When a career-ending injury left elite athlete and professional football player Lewis Howes out of work and living on his sister's couch, he decided he needed to make a change for the better. He started by reaching out to people he admired, searching for mentors, and applying his past coaches' advice from sports to life off the field. Lewis did more than bounce back: He built a multimillion-dollar online business and is now a sought-after business coach, speaker, and podcast host. In *The School of Greatness*, Howes shares the essential tips and habits he gathered in interviewing "the greats" on his wildly popular podcast of the same name. In discussion with people like Olympic gold medalist Shawn Johnson and Pencils of Promise CEO Adam Braun, Howes figured out that greatness is unearthed and cultivated from within. The masters of greatness are not successful because they got lucky or are innately more talented, but because they applied specific habits and tools to embrace and overcome adversity in their lives. A framework for personal development, *The School of Greatness* gives you the tools, knowledge, and actionable resources you need to reach your potential. Howes anchors each chapter with a specific

lesson he culled from his greatness “professors” and his own experiences to teach you how to create a vision, develop hustle, and use dedication, mindfulness, joy, and love to reach goals. His lessons and practical exercises prove that anyone is capable of achieving success and that we can all strive for greatness in our everyday lives.
