This book is meant to be a brief introduction into raising credit. It's short and to the point. In it I outline the steps that I actually completed myself to improve my credit worthiness. Talking about financial issues, credit reports, old bills sent to collections, or any kind of debt can be extremely uncomfortable for some people. It certainly was for me. When I was in my early 20s, I made a lot of financial decisions that I regretted later on. As a single mom working full-time and going to school full-time, I was just trying to keep my head above water. I let my fear lead me into dysfunctional relationships and chose to be in two successive relationships with men that just couldn't take care of themselves. They weren't bad people, just unable to keep jobs, or stay sober, or stay out of some kind of financial trouble . . . the list goes on. This book lays out the steps that I took myself to raise my credit score and improve my credit. I was also able to get rid of the anxiety I had about my depressing financial situation. Start your new financial future today. Scroll up and buy this book.
