Construction Law Julian Bailey,2016-07-22 Now in its second edition, Construction Law is the standard work of reference for busy construction law practitioners, and it will support lawyers in their contentious and non-contentious practices worldwide. Published in three volumes, it is the most comprehensive text on this subject, and provides a unique and invaluable comparative, multi-jurisdictional approach. This book has been described by Lord Justice Jackson as a tour de force, and by His Honour Humphrey LLOYD QC as seminal and definitive. This new edition builds on that strong foundation and has been fully updated to include extensive references to very latest case law, as well as changes to statutes and regulations. The laws of Hong Kong and Singapore are also now covered in detail, in addition to those of England and Australia. Practitioners, as well as interested academics and post-graduate students, will all find this book to be an invaluable guide to the many facets of construction law.

Britain and the Arab-Israeli Conflict, 1948-51 Ilan Pappé,1988-07-26 In an analysis of Britain's policy towards Palestine in the post-mandatory era, the author examines the circumstances which led to the formulation of Britain's policy - the partition of mandatory Palestine between Israel and Jordan - and the stages of its implementation. A major theme emerges: that Britain's Middle East policy was a function of two main features: Britain's close alliance with Transjordan; and its pragmatic adaptability to developments in the area. Based on primary sources made available only recently in British, Israeli and American archives, the book offers new insights into a policy which was to have far reaching-effects.
