Underland: A Deep Time Journey Robert Macfarlane, 2019-06-04 National Bestseller • New York Times “100 Notable Books of the Year” • NPR “Favorite Books of 2019” • Guardian “100 Best Books of the 21st Century” • Winner of the National Outdoor Book Award From the best-selling, award-winning author of Landmarks and The Old Ways, a haunting voyage into the planet’s past and future. Hailed as the great nature writer of this generation (Wall Street Journal), Robert Macfarlane is the celebrated author of books about the intersections of the human and the natural realms. In Underland, he delivers his masterpiece: an epic exploration of the Earth’s underworlds as they exist in myth, literature, memory, and the land itself. In this highly anticipated sequel to his international bestseller The Old Ways, Macfarlane takes us on an extraordinary journey into our relationship with darkness, burial, and what lies beneath the surface of both place and mind. Traveling through “deep time”—the dizzying expanses of geologic time that stretch away from the present—he moves from the birth of the universe to a post-human future, from the prehistoric art of Norwegian sea caves to the blue depths of the Greenland ice cap, from Bronze Age funeral chambers to the catacomb labyrinth below Paris, and from the underground fungal networks through which trees communicate to a deep-sunk “hiding place” where nuclear waste will be stored for 100,000 years to come. Woven through Macfarlane’s own travels are the unforgettable stories of descents into the underland made across history by explorers, artists, cavers, divers, mourners, dreamers, and murderers, all of whom have been drawn for different reasons to seek what Cormac McCarthy calls “the awful darkness within the world.” Global in its geography and written with great lyricism and power, Underland speaks powerfully to our present moment. Taking a deep-time view of our planet, Macfarlane here asks a vital and unsettling question: “Are we being good ancestors to the future Earth?” Underland marks a new turn in Macfarlane’s long-term mapping of the relations of landscape and the human heart. From its remarkable opening pages to its deeply moving conclusion, it is a journey into wonder, loss, fear, and hope. At once ancient and urgent, this is a book that will change the way you see the world.

Safety Management Systems in Aviation Mr Carl D Halford, Mr John J Goglia, Professor Alan J Stolzer, 2012-10-28 Although aviation is among the safest modes of transportation in the world today, accidents still happen. In order to further reduce accidents and improve safety, proactive approaches must be adopted by the aviation community. The International Civil Aviation Organization (ICAO) has mandated that all of its member states implement Safety Management System (SMS) programs in their aviation industries. While some countries (Australia, Canada, members of the European Union, New Zealand) have been engaged in SMS for a few years, it's just now emerging in the United States, and is non-existent in most other countries. This timely and unique book covers the essential points of SMS. The knowledgeable authors go beyond merely defining it; they discuss the quality management underpinnings of SMS, the four pillars, risk management, reliability engineering, SMS implementation, and the scientific rigor that must be designed into proactive safety. This comprehensive work is designed as a textbook for the student of aviation safety, and is an invaluable reference tool for the SMS practitioner in any segment of aviation. The authors introduce a hypothetical airline-oriented safety scenario at the beginning of the book and conclude it at the end, engaging the reader and adding interest to the text. To enhance the practical application of the material, the book also features numerous SMS in Practice commentaries by some of the most respected names in aviation safety.

Securing Ajax Applications Christopher Wells, 2007-07-11 Ajax applications should be open yet secure. Far too often security is added as an afterthought. Potential flaws need to be identified and addressed right away. This book explores Ajax and web application security with an eye for dangerous gaps and offers ways that you can plug them before they become a problem. By making security part of the process from the start, you will learn how to build secure Ajax applications and discover how to respond quickly when attacks occur. Securing Ajax Applications succinctly explains that the same back-and-forth communications that make Ajax so responsive also gives invaders new opportunities to gather data, make creative new requests of your server, and interfere with the communications between you and your customers. This book presents basic security techniques and examines vulnerabilities with JavaScript, XML, JSON, Flash, and other technologies -- vital information that will ultimately save you time and money. Topics include: An overview of the evolving web platform, including APIs, feeds, web services and asynchronous messaging Web security basics, including common vulnerabilities, common cures, state management and session management How to secure web technologies, such as Ajax, JavaScript, Java applets, Active X controls, plug-ins, Flash and Flex How to protect your server, including front-line defense, dealing with application servers, PHP and scripting Vulnerabilities among web standards such as HTTP, XML, JSON, RSS, ATOM, REST, and XDOS How to secure web services, build secure APIs, and make open mashups secure Securing Ajax Applications takes on the challenges created by this new generation of web development, and demonstrates why web security isn't just for administrators and back-end programmers any more. It's also for web developers who accept the responsibility that comes with using the new wonders of the Web.

This Happened Here Paul Street, 2021-12-28 This book examines the Trump phenomenon and presidency as fascist. Fascism here connotes not generically bad politics or a consolidated political-economic regime (Mussolini’s Italy or Hitler’s Germany) but a set of political, movement, and ideological traits understood within the context of the neoliberal-capitalist era. While Trump’s election defeat is a respite, the nation is far from out of the neofascist woods. Defeating the menace will require political and societal restructuring far beyond what is imagined by Democrats. This argument is developed across seven chapters that recount Trump’s assault on the 2020 election, specifically define the meaning of fascism as it is used in this book, demonstrate the neofascist nature of the Trump presidency, engage intellectual class Trumpism-fascism-denial, analyze the Trump base, root Trumpism in a longstanding and indeed founding American white nationalism, examine why Trump rose to power when he did, and suggest paths for fascism-proofing the USA.

A Sea in Flames Carl Safina, 2011-04-19 Carl Safina has been hailed as one of the top 100 conservations of the 20th century (Audubon Magazine) and A Sea in Flames is his blistering account of the months-long manmade disaster that tormented a region and mesmerized the nation. Traveling across the Gulf to make sense of an ever-changing story and its often-nonsensical twists, Safina expertly deconstructs the series of calamitous misjudgments that caused the Deepwater Horizon blowout, zeroes in on BP’s misstatements, evasions, and denials, reassesses his own reaction to the government’s crisis handling, and reviews the consequences of the leak—and what he considers the real problems, which the press largely overlooked. Safina takes us deep inside the faulty thinking that caused the lethal explosion. We join him on aerial surveys across an oil-coated sea. We confront pelicans and other wildlife whose blue universe fades to black. Safina skewers the excuses and the silly jargon—like “junk shot” and “top kill”—that made the tragedy feel like a comedy of horrors—and highlighted Big Oil’s appalling lack of preparedness for an event that was inevitable. Based on extensive research and interviews with fishermen, coastal residents, biologists, and government officials, A Sea In Flames has some surprising answers on whether it was “Obama’s Katrina,” whether the Coast Guard was as inept in its response as BP was misleading, and whether this worst unintended release of oil in history was really America’s worst ecological disaster. Impassioned, moving, and even sharply funny, A Sea in Flames is ultimately an indictment of America’s main addiction. Safina writes: “In the end, this is a chronicle of a summer of pain—and hope. Hope that the full potential of this catastrophe would not materialize, hope that the harm done would heal faster than feared, and hope that even if we didn’t suffer the absolutely worst—we’d still learn the big lesson here. We may have gotten two out of three. That’s not good enough. Because: there’ll be a next time.”

Anglican Women on Church and Mission Judith Berling,2013-04 In the past several decades, the issues of women's ordination and of homosexuality have unleashed intense debates on the nature and mission of the Church, authority and the future of the Anglican Communion. Amid such momentous debates, theological voices of women in the Anglican Communion have not been clearly heard, until now. This book invites the reader to reconsider the theological basis of the Church and its call to mission in the 21st century, paying special attention to the colonial legacy of the Anglican Church and the shift of Christian demographics to the Global South. In addition to essays by the volume editors, this 12-essay collection includes contributions by Jane Shaw, Ellen Wondra and Beverley Haddad, among others.

Falling in Love with America Again Jim DeMint,2014-03-04 Serving within the supposed pinnacles of power as a respected and influential U.S. Senator from South Carolina, Jim DeMint often felt frustrated and powerless to fight against the frightening growth of the federal bureaucracy and refute the mistaken idea that ever-bigger government is the solution to the nation's problems. In his new role as president and CEO of The Heritage Foundation, Jim DeMint has taken on the daunting responsibility of helping to lead Americans themselves to change their country's course, of redirecting us back to our founding principles and restoring and protecting our economy and culture for future generations. He realized that he - and all of us as fellow citizens - must fall in love with America - again. In this book, DeMint illustrates why Americans must rediscover the power, ingenuity and creativity of our little platoons. He then introduces Americans all across the country whose patriotism was nurtured in exactly the same way, recounting example after example of how they're working together locally in what he calls the little platoons - the families, churches, communities and voluntary organizations succeeding on the model that smaller is better. They are the hands-on citizens who make America the exceptional, caring and can-do country it has always been. DeMint illustrates why each of us - regardless of political party, age, race, religion or ethnicity - must rediscover the power we represent. The country's future is at risk, not just because of constant pressure from the Bigs (big government, big banks, big labor, big Wall Street cronies etc.), but because so many of us fear it's too late to solve problems so huge and seemingly intractable. Jim DeMint is here to reassure us that this is not true. In riveting yet plainspoken style, he tells real-life success stories and educates us via logical, historical and fact-based explanations of the issues (education, taxation, regulation, poverty, labor, health-care, environmentalism, Federalism and more). He affirms the compelling truth that conservative ideas are really American ideas, and they must guide us as we turn our institutions upside-down, taking them from the top-down centrally-controlled bureaucracies they've become back to the bottom-up democratic framework the Constitution intended. Through this heartfelt, fascinating and inspiring look inside the America of both yesterday and today, and the everyday citizens who are working tirelessly and selflessly to insure its future fulfills the promise of its beginnings, Jim DeMint is beckoning us to join him on one of the most meaningful and momentous journeys we have ever undertaken together: FALLING IN LOVE WITH AMERICA AGAIN.
