Globalization and Emerging Trends in African States' Foreign Policy-Making Process Rok Ajulu, 2018-02-05 This title was first published in 2002: The resurgence of the democratization movement in Africa in the post-Cold War era is gradually replacing authoritarianism with forms of democratic systems. These changes have put into question the traditional big man image of African states' foreign policy and foreign policy-making. The first book of its kind to focus on the foreign policy-making process of Southern African countries in the era of globalization, these instructive and rewarding case studies contextualize the increasing involvement of other internal actors in African states foreign policy-making process. Foreign policy actors such as the Presidency, Ministries of Defence, Foreign Affairs, Trade, Finance and the Intelligence Community, among others, are examined in a comparative perspective.

The Bourne Ultimatum Robert Ludlum, 2012-06-26 #1 NEW YORK TIMES BESTSELLER At a small-town carnival, two men, each mysteriously summoned by telegram, witness a bizarre killing. The telegrams are signed "Jason Bourne." Only they know Bourne's true identity and understand that the telegrams are really a message from Bourne's mortal enemy, Carlos, known also as the Jackal, the world's deadliest and most elusive terrorist. And furthermore, they know what the Jackal wants: a final confrontation with Bourne. Now David Webb, professor of Oriental studies, husband, and father, must do what he hoped never to do again—assume the terrible identity of Jason Bourne. His plan is simple: to infiltrate the politically and economically omnipotent Medusan group and use himself as bait to lure the cunning Jackal into a deadly trap—a trap from which only one of them will escape.

Contemporary British Television Drama James Chapman, 2020-05-28 The early twenty-first century has seen the emergence of a new style of television drama in Britain that adopts the professional practices and production values of high-end American television while remaining emphatically 'British' in content and outlook. This book analyses eight of these dramas – Spooks, Foyle's War, Hustle, Life on Mars, Ashes to Ashes, Downton Abbey, Sherlock and Broadchurch – which have all proved popular with audiences and in their different ways represent the thematic and formal paradigms of post-millennial drama. James Chapman locates new British drama in its institutional and economic contexts, considers their critical and popular reception, and analyses their social politics in relation to their representations of class, gender and nationhood. He demonstrates how contemporary drama has mobilised both new and residual elements in re-configuring genres such as the spy series, cop show and costume drama for the cultural tastes of modern audiences. And it concludes that television drama has played an integral role in both the economic and the cultural export of 'Britishness'.

Hawaiian Legends of the Guardian Spirits Caren Loebel-Fried, 2002-12-31 Ancient Hawaiians lived in a world where all of nature was alive with the spirits of their ancestors. These aumakua have lived on through the ages as family guardians and take on many natural forms, thus linking many Hawaiians to the animals, plants, and natural phenomena of their island home. Individuals have a reciprocal relationship with their guardian spirits and offer worship and sacrifice in return for protection, inspiration, and guidance. *Hawaiian Legends of the Guardian Spirits* is told in words and pictures by award-winning artist Caren Loebel-Fried. The ancient legends are brought to life in sixty beautiful block prints, many vibrantly colored, and narrated in a lively read-aloud style, just as storytellers of old may have told them hundreds of years ago. Notes are included, reflecting the careful and extensive research done for this volume at the Bishop Museum Library and Archives in Honolulu and at the American Museum of Natural History in New York. A short section on the process of creating the block prints that illustrate the book is also included. The matching poster of A Chance Meeting with the Iiwi measures 22 x 28 inches.

The United Arab Emirates Kristian Coates Ulrichsen, 2016-12-01 Led by Dubai and Abu Dhabi, the UAE has become deeply embedded in the contemporary system of international power, politics, and policy-making. Only an independent state since 1971, the seven emirates that constitute the UAE represent not only the most successful Arab federal experiment but also the most durable. However, the 2008 financial crisis and its aftermath underscored the continuing imbalance between Abu Dhabi and Dubai and the five northern emirates. Meanwhile, the post-2011 security crackdown revealed the acute sensitivity of officials in Abu Dhabi to social inequalities and economic disparities across the federation. *The United Arab Emirates: Power, Politics, and Policymaking* charts the various processes of state formation and political and economic development that have enabled the UAE to emerge as a significant regional power and major player in the post Arab Spring reordering of Middle East and North African Politics, as well as the closest partner of the US in military and security affairs in the region. It also explores the seamier underside of that growth in terms of the condition of migrant workers, recent interventions in Libya and Yemen, and, latterly, one of the highest rates of political prisoners per capita in the world. The book concludes with a discussion of the likely policy challenges that the UAE will face in coming years, especially as it moves towards its fiftieth anniversary in 2021. Providing a comprehensive and accessible assessment of the UAE, this book will be a vital resource for students and scholars of International Relations and Middle East Studies, as well as non-specialists with an interest in the United Arab Emirates and its global position.

Domestic Military Powers, Law and Human Rights Michael Head, 2019-12-05 This book examines the national and international law, human rights and civil liberties issues involved in governments calling out the armed forces to deal with civil unrest or terrorism. The introduction of domestic military powers has become an international trend. Troops already have been seen on the streets in major Western democracies. These developments raise major political, constitutional and related problems. Examining the changes underway in eight comparable countries—the United States, Canada, Britain, France, Italy, Germany, Japan and Australia—this book provides a review and analysis of this trend, including its implications for legal and political rights. The book will be of interest to the general public, as well as students, academics and policy-makers in the areas of human rights and civil liberties, constitutional law, criminal justice and security studies.

Tales From The Time lLoop David Icke, Most comprehensive book yet written about the global conspiracy that is now unfolding all around us. Icke pulls together his fantastic wealth of accumulated knowledge to reveal the multi-levels of the fascist conspiracy, sharing his experiences & details the scientific support for what he learned about the illusion we call daily life.

Political and Military Sociology Karthika Sasikumar, Danijela Dudley, 2018-08-06 This special edition of *Political and Military Sociology: An Annual Review* encompasses a full range of coverage on the European refugee crisis. Contributions include a focus on the characteristics and motivations of modern-day migrants, an analysis of the inconsistent standards displayed by the European Union, and the militarization happening across parts of Europe in response. The volume leads with a discussion on the identity of the refugees: who are they and what are their reasons for leaving their homelands? Following chapters cover the response across Europe in countries including Serbia, Greece, Turkey, and Italy. The penultimate chapter examines the European Union's inadequate response to the unfolding crisis, and the book concludes with a central analysis of the agreements between the EU and transit countries with remarks on the unintended consequences that have emerged.

Engaged Criminology Rena C. Zito, 2022-11-15 *Engaged Criminology* invites students to learn and think like a criminologist by incorporating real-life examples and hands-on activities that get students doing criminology rather than just retaining definitions.

The Global Warming Desk Reference Bruce E. Johansen, 2001-10-30 With global temperatures rising rapidly during the past quarter century, infrared forcing, popularly known as the greenhouse effect, has attracted worldwide concern. This book is a concise, college-level compendium of the research on global warming. It surveys the scientific consensus on the issue, describes recent findings, and also considers the arguments of skeptics who doubt that global warming is a threat. Suggesting that the effects of global warming can be seen in the melting of

glaciers and the dying of coral reefs, the work summarizes the potential impact on human health and on plants and animals worldwide. Concluding with possible solutions, the book contains one of the most comprehensive bibliographies on the subject. A growing field of study with a rapidly expanding literature, global warming should be of interest to everyone on Earth. Evidence of the greenhouse effect, due to emissions of carbon dioxide and other trace gases, has been accumulating for a quarter century. This book covers both research from scientific journals and newspaper and magazine reports of present-day evidence. The book will be a valuable resource for individuals concerned with the environment as well as for students of environmental sciences, meteorology, and earth sciences.

The Politics of Cyberconflict Athina Karatzogianni, 2006-09-27 The Politics of Cyberconflict focuses on the implications that the phenomenon of cyberconflict (conflict in computer mediated environments and the internet) has on politics, society and culture. Athina Karatzogianni proposes a new framework for analyzing this new phenomenon, which distinguishes between two types of cyberconflict, ethnoreligious and sociopolitical, and uses theories of conflict, social movement and the media. A comprehensive survey of content, opinion and theory in several connected fields, relating not only to information warfare and cyberconflict, but also social movements and ethnoreligious movements is included. Hacking between ethnoreligious groups, and the use of the internet in events in China, the Israel-Palestine conflict, India-Pakistan conflict, as well as the antiglobalization and antiwar movements and the 2003 Iraq War are covered in detail. This is essential reading for all students of new technology, politics, sociology and conflict studies.

In the Best Interests of the Child Mili Mass, 2018-05-07 Marshalling her experience as an expert witness in court proceedings on non-consensual, confidential adoption in Israel, Mass describes legal proceedings following the Israeli state petition that declares children eligible for adoption because of alleged parental incapability, and explores the politics of state intervention in the parent/child relationship. The selected case studies present the testimonies of the children, the parents, the designated adoptive parents, and the state's representatives, as well as the author's own testimony.

Women Presidents of Latin America Farida Jalalzai, 2015-08-20 Women are gaining ground as presidents of Latin America. Women leaders in presidential systems (particularly women directly elected by the public) were generally limited to daughters and wives of male executives or opposition leaders. With the election of Michelle Bachelet in Chile, these traditional patterns appeared to be shifting. This book asks: what conditions allowed for a broadening of routes, beyond family ties, for women in Latin America? Do women presidents of Latin America use their powers to enhance women's representation? While providing valuable insight into the big picture of women in presidential politics throughout Latin America over the last several decades, this book more closely analyzes four women presidents gaining office since 2006: Michelle Bachelet (Chile) Cristina Fernández (Argentina) Laura Chinchilla (Costa Rica) and Dilma Rousseff (Brazil). It assesses the paths and impacts of Latin American women presidents and scrutinizes the ways gender shapes both aspects. No other scholar has offered such an in-depth analysis of the paths and actions of women presidents of Latin America. As such, this book offers important contributions to the gender in politics literature. Its multi-methodological approach consisting of original data collection from field work and in person interviews of political elites and experts combined with an analysis of a host of secondary sources including media articles and public opinion data makes this work exceptionally comprehensive. Its findings are applicable to those studying women, gender, and politics as well as comparative politics, Latin American politics, and leadership studies.

Stars and Spies Christopher Andrew, Julius Green, 2021-10-14 A vastly entertaining and unique history of the interaction between spying and showbiz, from the Elizabethan age to the Cold War and beyond. 'A treasure trove of human ingenuity' The Times Written by two experts in their fields, Stars and Spies is the first history of the extraordinary connections between the intelligence services and show business. We travel back to the golden age of theatre and intelligence in the reign of Elizabeth I. We meet the writers, actors and entertainers drawn into espionage in the Restoration, the Ancien Régime and Civil War America. And we witness the entry of spying into mainstream popular culture throughout the twentieth century and beyond - from the adventures of James Bond to the thrillers of John le Carré and long-running TV series such as The Americans. 'Thoroughly entertaining' Spectator 'Perfect...read as you settle into James Bond on Christmas afternoon.' Daily Telegraph

The Silver Bullet Solution James E. Gierach, 2023-11-21 What's been missing the past 30-years that prevented voters and leaders from hearing or acting upon the Gierach call –and the Civil Society call–for legalized, controlled and regulated drugs and drug markets? Why the public repulsion from the Silver Bullet Solution to the many-tentacled, drug-prohibition monster? Have you lost a child to fentanyl or heroin overdose? Are you worried about losing a loved one to drug addiction or drug accident? Is your neighborhood threatened by violent crime and gangs? Is it safe for your child to get to school, go to the park, or play outside? Do you live in a safe, suburban neighborhood but yet feel like you need a firearm to be safe in your own home, car, or traveling on a big-city expressway? Do you believe the World War on Drugs (62 years old) has been a dismal failure and ongoing drug seizures by the ton are evidence of that failure? Regardless of color, does it anger you that Blacks, Latinos, and poor Whites are sitting in American prisons for drug crimes at disparate rates? Did you know that drug prohibition causes needless bullet-holes and that bullet-hole healthcare greatly contributes to an unaffordable healthcare system—whether called Obamacare, Trumpcare or Single-Payer? This book offers answers to these challenges, and it broadcasts the idea that there is something YOU CAN DO about it. You can help the new public opinion evolve.

Security Engineering Ross J. Anderson, 2010-11-05 The world has changed radically since the first edition of this book was published in 2001. Spammers, virus writers, phishermen, money launderers, and spies now trade busily with each other in a lively online criminal economy and as they specialize, they get better. In this indispensable, fully updated guide, Ross Anderson reveals how to build systems that stay dependable whether faced with error or malice. Here's straight talk on critical topics such as technical engineering basics, types of attack, specialized protection mechanisms, security psychology, policy, and more.

Consumer Behaviour Michael R. Solomon, Søren Askegaard, Margaret K. Hogg, Gary Bamossy, 2019 La 4^e de couv. indique : Now in its seventh edition, Consumer Behaviour: A European Perspective provides the most comprehensive, lively and engaging introduction to the behaviour of consumers in Europe and around the world. The new slimline edition has 13 chapters, maintaining its breadth of coverage and making it ideal for second- and third-year undergraduates as well as Master's students. The book links consumer behaviour theory with the real-life problems faced by practitioners in many ways: Marketing opportunity, Marketing pitfalls and Multicultural dimensions boxes throughout the text illustrate the impact consumer behaviour has on marketing activities. Consumer behaviour as I see it boxes feature marketing academics talking about the relevance of consumer behaviour issues to their everyday work. Brand new Case studies about European companies and topics give deep insights into the world of consumer behaviour. New coverage of sustainable consumption, emerging technologies, social media and online behaviour is woven throughout this edition. Online materials including multiple-choice questions and links to useful websites are available on the book's website at www.pearsoned.co.uk/solomon

Scientific and Medical Aspects of Human Reproductive Cloning National Research Council, Division on Earth and Life Studies, Board on Life Sciences, Policy and Global Affairs, Committee on Science, Engineering, and Public

Policy,2002-06-17 Human reproductive cloning is an assisted reproductive technology that would be carried out with the goal of creating a newborn genetically identical to another human being. It is currently the subject of much debate around the world, involving a variety of ethical, religious, societal, scientific, and medical issues. Scientific and Medical Aspects of Human Reproductive Cloning considers the scientific and medical sides of this issue, plus ethical issues that pertain to human-subjects research. Based on experience with reproductive cloning in animals, the report concludes that human reproductive cloning would be dangerous for the woman, fetus, and newborn, and is likely to fail. The study panel did not address the issue of whether human reproductive cloning, even if it were found to be medically safe, would be acceptable to individuals or society.

Freedom of expression and the Internet Prof. Wolfgang Benedek,Dr Matthias C. Kettmann,2014-01-01 With the rise of the Internet, the opportunities to express oneself have grown exponentially, as have the challenges to freedom of expression. From the Arab Spring to the global Occupy movement, freedom of expression on the Internet has had a profound impact on the debates which shape our future. At the same time, an increasing number of states use the Internet to spy on journalists and citizens, to prosecute and jail bloggers, and to censor online information. This book sets out to answer essential questions regarding the extent and limits of freedom of expression online. It seeks to shed light on the often obscure landscape of what we are allowed to say online and how our ideas, and the process of imparting and receiving information, are protected. It shows the large ambit of rights protected by freedom of expression – including freedom of the media and the right to access information via the Internet. It also highlights the importance of the standard-setting, monitoring and promotion activities of international and non-governmental organisations, with a chapter on relevant national practices that illustrates how different states deal with the challenge that the Internet has brought to ensuring freedom of expression for all. As the importance of the Internet in our daily lives grows, readers will find this book to be a valuable resource for understanding the rights and obligations of each actor on the Internet, including states, Internet companies and civil society.
