**Beginning JavaScript Charts** Fabio Nelli,2014-01-24 Beginning JavaScript Charts shows how to convert your data into eye-catching, innovative, animated, and highly interactive browser-based charts. This book is suitable for developers of all experience levels and needs: for those who love fast and effective solutions, you can use the jqPlot library to generate charts with amazing effects and animations using only a few lines of code; if you want more power and need to create data visualization beyond traditional charts, then D3 is the JavaScript library for you; finally, if you need a high-performance, professional solution for interactive charts, then the Highcharts library is also covered. If you are an experienced developer and want to take things further, then Beginning JavaScript Charts also shows you how to develop your own graphics library starting from scratch using jQuery. At the end of the book, you will have a good knowledge of all the elements needed to manage data from every possible source, from high-end scientific instruments to Arduino boards, from PHP SQL databases queries to simple HTML tables, and from Matlab calculations to reports in Excel. You will be able to provide cutting-edge charts

exploiting the growing power of modern browsers. Create all kinds of charts using the latest technologies available on browsers (HTML5, CSS3, jQuery, jqPlot, D3, Highcharts, and SVG) Full of step-by-step examples, *Beginning JavaScript Charts* introduces you gradually to all aspects of chart development, from the data source to the choice of which solution to apply. This book provides a number of tools that can be the starting point for any project requiring graphical representations of data, whether using commercial libraries or your own

**The Oxford Handbook of Musical Theatre Screen Adaptations**

Dominic McHugh,2019-06-14 Hollywood's conversion to sound in the 1920s created an early peak in the film musical, following the immense success of *The Jazz Singer*. The opportunity to synchronize moving pictures with a soundtrack suited the musical in particular, since the heightened experience of song and dance drew attention to the novelty of the technological development. Until the near-collapse of the genre in the 1960s, the film musical enjoyed around thirty years of development, as landmarks such as *The Wizard of Oz*, *Meet Me in St Louis*, *Singin' in the Rain*, and *Gigi* showed the exciting possibilities of putting musicals on the silver screen. *The Oxford Handbook of Musical Theatre Screen Adaptations* traces how the genre of the stage-to-screen musical has evolved, starting with screen adaptations of operettas such as *The Desert Song* and *Rio Rita*, and looks at how the Hollywood studios in the 1930s exploited the

publication of sheet music as part of their income. Numerous chapters examine specific screen adaptations in depth, including not only favorites such as *Annie* and *Kiss Me, Kate* but also some of the lesser-known titles like *Li'l Abner* and *Roberta* and problematic adaptations such as *Carousel* and *Paint Your Wagon*. Together, the chapters incite lively debates about the process of adapting Broadway for the big screen and provide models for future studies.

*Malaysia's 14th General Election and UMNO's Fall* Edmund Terence Gomez, Mohamed Nawab Mohamed Osman, 2019-10-08 The 2018 Malaysian General Election will stand as a major defining event in Malaysian history, when the ruling Barisan Nasional coalition unexpectedly lost power in the country they had ruled for over half a century. This volume brings together scholars who assess one fundamental factor that brought about this game-changing event in Malaysian politics: intra-elite feuding in the leading Malay-based political parties. This study provides an analysis of individual state politics as well as national trends shaped by the actions of leaders in government and the opposition. An indispensable guide for scholars studying the politics of Malaysia and of Southeast Asia more broadly, it will be of great interest for all readers with an interest in Malaysian politics.

**Civil Disobedience in Islam** Muhammad Haniff Hassan, 2017-04-13 This book addresses contemporary debates on civil disobedience in Islam within the rich Sunni tradition, especially during the height of the non-violent people revolution in various Arab countries, popularly known as the Arab Spring. It illustrates the Islamic theological and jurisprudential arguments presented by those who either permit or prohibit acts of civil disobedience for the purpose of changing government, political systems or policy. The book analyses the nature

of the debate and considers how a theological position on civil disobedience should be formulated in contemporary time, and makes the case for alternatives to violent political action such as jihadism, terrorism and armed rebellion.

*Paul Auster's Writing Machine* Evija Trofimova, 2014-08-28 Paul Auster is one of the most acclaimed figures in American literature. Known primarily as a novelist, Auster's films and various collaborations are now gaining more recognition. Evija Trofimova offers a radically different approach to the author's wider body of work, unpacking the fascinating web of relationships between his texts and presenting Auster's canon as a rhizomatic facto-fictional network produced by a set of writing tools. Exploring Auster's literal and figurative use of these tools ? the typewriter, the cigarette, the doppelgänger figure, the city ? Evija Trofimova discovers Auster's writing machine, a device that works both as a means to write and as a construct that manifests the emblematic writer-figure. This is a book about assembling texts and textual networks, the writing machines that produce them, and the ways such machines invest them with meaning. Embarking on a scholarly quest that takes her from

between the lines of Auster's work to between the streets of his beloved New York and finally to the man himself, Paul Auster's Writing Machine becomes not just a critical investigation but a critical collaboration, raising important questions about the ultimate meaning of Auster's work, and about the relationship between texts, their authors, their readers and their critics.

Mission Mars Ajey Lele,2013-07-15 The objective of the book is to find an answer to the rationale behind the human quest for the Mars exploration. As a comprehensive assessment for this query is undertaken, it is realized that the basic question 'Why Mars?' seeks various responses from technological, economic and geopolitical to strategic perspectives. The book is essentially targeted to understand India's desire to reach Mars. In the process, it also undertakes some implicit questioning of Mars programmes of various other states essentially to facilitate the setting up of the context for an assessment. The book is divided into two parts: Part I: This covers both science and politics associated with Mars missions in global scenario and discusses the salient features of various Mars Missions undertaken by various countries. Part II: This provides details in regards to India's Mars Mission.

**We the Who?** Brett H. Lewis, 2013-11 America was formed based on a vision of democracy where supreme power is supposed to be vested in the people. In **We the Who?** author Brett H. Lewis asks if Americans are losing sight of who we the people are and, more importantly, who we need to be in order to regain our collective identity and ensure America's continued growth and greatness. **We the Who?** presents a collection of essays and opinions that probe into the nuts and bolts of current issues facing America today. Lewis tackles the subjects of classism, racism, justice, politics, the military, and the economy. Through these discussions, he encourages the American populace to be alert and aware to ensure that government of the people, by the people, and for the people continues to be at the forefront of today's America. Drawing from history, logic, social inclinations, religious beliefs, and personal experiences, **We the Who?** seeks to inform the public and to encourage them to ask questions, express opinions, and hold elected leaders accountable. It communicates the necessity to be informed in order to make quality decisions about our lives.
