Understanding X.500 David Chadwick,1994 Understanding X.500 The Directory describes, in lay terms, the contents of both the 1988 and 1993 editions of the ISO OSI Directory Standard (CCITT Recommendation X.500). An in-depth account is given of all the features of the Standard and numerous examples of its application are provided throughout. The implications of the Standard are related to implementation details in terms of product usefulness, differentiation and ease of management. Key features of the text are that it is fully up-to-date with all the features of the 1993 edition of the X.500 Standard; it describes clearly all X.500 terminology such as DSA, DUA, DIT; it explains X.500 security features such as asymmetric encryption and access controls; and it describes the use of X.500 by other applications such as EDI and X.400.

AK2904 Aces High Magazine Issue 3 , The third issue of Aces High Magazine takes you on a journey to the Far East. We give in depth coverage to models depicting Japanese aircraft used during World War Two, including the legendary Zero, in two of its best-known variants; a 1/32 A6M5 and 1/72 A6M2. These two key aircraft are complemented by the excellent renditions of another two famous fighters; the J2M3 Raiden and Ki-61 Hien, both in 1/32 scale; and a rarely seen 1/48 Ki-51 Sonia, in a very original camouflage scheme. The obvious subject for our figure painting article is a Kamikaze pilot. To end this issue, we include a 1/48 Type 95 Kurogane light utility vehicle.

Creating Exhibitions Polly McKenna-Cress,Janet Kamien,2013-10-07 “This is a must-read for the nervous novice as well as the world-weary veteran. The book guides you through every aspect of exhibit making, from concept to completion. The say the devil is in the details, but so is the divine. This carefully crafted tome helps you to avoid the pitfalls in the process, so you can have fun creating something inspirational. It perfectly supports the dictum—if you don’t have fun making an exhibit, the visitor won’t have fun using it.” —Jeff Hoke, Senior Exhibit Designer at Monterey Bay Aquarium and Author of The Museum of Lost Wonder Structured around the key phases of the exhibition design process, this guide offers complete coverage of the tools and processes required to develop successful exhibitions. Intended to appeal to the broad range of stakeholders in any exhibition design process, the book offers this critical information in the context of a collaborative process intended to drive innovation for exhibition design. It is indispensable reading for students and professionals in exhibit design, graphic design, environmental design, industrial design, interior design, and architecture.

Back to the Stone Age Edgar Rice Burroughs,2007-06-01 The fifth installment of Edgar Rice Burroughs’s Pellucidar series, Back to the Stone Age recounts the strange adventures of Lieutenant von Horst, a member of the original crew that sailed to Pellucidar with Jason Gridley and Tarzan who is left behind in the inner world. Von Horst wanders friendless and alone from one danger to the next among the Stone Age peoples, mighty reptiles, and huge animals that have been extinct on the outer crust for thousands of years. But woven among the tales of savage cave men in the country of the Basti, the hideous Gorbuses in the caverns beneath the Forest of Death, and the terrible Gaz is the story of the love this cultured hero feels for a barbarian slave girl who has spurned and discouraged him, working instead toward her own mysterious goal.

Political and Economic Analysis of State-Owned Enterprise Reform Huiming Zhang,2021-07-29 In revisiting the forty year history of reforms to China’s state-owned enterprises (SOE), the book assesses the experiences of this process of reform and scrutinizes how this has helped advance the country’s economy overall. The author finds that China’s SOE reform not only commits to institutional innovation within the corporation in terms of operating mechanisms, management structure, legal organization and the economic system of the enterprise; but that it is also underpinned by a series of policies that highlight an increasing market orientation. The measures have given rise to a benign interaction between enterprise reform and market development, while switching the SOE’s role from appendages of government organs under a planned economic system to more autonomous entities that integrate public ownership and the market economy. In this regard, SOE reform’s success in constructing a modern enterprise system serves as the micro-foundation and core of an improved socialist market economic system. The book will appeal to academics and students interested in political economy and the Chinese economy, with particular reference to SOE reform and the recent economic transition in China.

Introduction to Behavioral Research on the Internet Michael H. Birnbaum,2001 Title on accompanying CD-ROM: Behavioral research on the Internet.

Modeling and Optimization for Mobile Social Networks Zhou Su,Qichao Xu,Kuan Zhang,Xuemin (Sherman) Shen,2016-11-25 This book investigates the modeling and optimization issues in mobile social networks (MSNs). Firstly, the architecture and applications of MSNs are examined. The existing works on MSNs are reviewed by specifying the critical challenges and research issues. Then, with the introduction of MSN-based social graph and information dissemination mechanisms, the analytical model for epidemic information dissemination with opportunistic Links in MSNs is discussed. In addition, optimal resource allocation is studied based on a heterogeneous architecture, which provides mobile social services with high capacity and low latency. Finally, this book summarize some open problems and future research directions in MSNs. Written for researchers and academics, this book is useful for anyone working on mobile networks, network architecture, or content delivery. It is also valuable for advanced-level students of computer science.

Disability Policy in China Xiaoyuan Shang,Karen R. Fisher,2015-12-14 Without access to a public social welfare system in parts of China, some families face invidious decisions about the lives of their children with disabilities. In other places, children with disabilities can now expect to participate in their families and communities with the same aspirations as other children.

Understanding how Chinese policy has changed in the places that have addressed these stark situations is vital for the rights of the children and their families who still struggle to find the support they need. This book examines family experiences of child disability policy in China, and is the first to compile research on this area. It applies a child disability rights framework in four domains – care and protection, economic security, development and participation – to investigate families’ experiences of the effectiveness of support to fulfil their children’s rights. Questioning how families experience the interrelationships between these rights, it also considers what the further implications of the policy are. It includes vivid case studies of families’ experiences, and combines these with national data to draw out the likely future policy directions to which the Chinese government has said it is committed. Bringing together a wealth of statistical and qualitative data on children with disabilities, this book will be of great interest to students and scholars of Chinese social welfare, social policy, society and children's studies, as well as policy-makers and NGOs alike.

The Strange Countess Edgar Wallace,2022-05-24 A novel full of intriguing characters who you can never fully trust, if you loved Netflix’s ‘You’ you’ll love this. This shadowy mystery novel follows Lois an unassuming young girl who has just been hired as the secretary for a wealthy countess. As the days progress she begins to notice a man everywhere she goes, following her, relentlessly. Soon she becomes wrapped in a web of secrets, betrayal and deceit that might cost her life. It is a carefully crafted plot that tears ahead with blinding pace never letting you catch your breath. Its fact paced structure make the book perfect for someone on the go looking for a mighty injection of classic mystery in to their lives. Edgar Wallace (1875-1932) was an English writer, poet and journalist. He was such a prolific writer that his publisher claimed his work could account for a quarter of all books sold in England. He wrote countless books, screenplays, poems and historical non-fiction, spawning over one hundred and sixty films based on his work. He unfortunately passed away suddenly before he could see his most famous creation ‘King Kong’ come to life. It has been adapted several times over the years, notably by Peter Jackson of Lord of the Rings fame, and more recently in ‘Godzilla vs Kong’ starring Millie Bobby Brown.

The Yellow Snake, or The Black Tenth Edgar Wallace,2021-11-09 'The Yellow Snake', also known as 'The Black Tenth', is a thriller novel by Edgar Wallace. The story begins at a house in Siangtan, owned by Joe Bray's. Joe was unique even in China, to which so many unusual personalities have drifted since the days of Marco Polo. The house was of stone and had been designed by one Pinto Huello, a drunken Portuguese architect, who had left Portugal in circumstances discreditable to himself, and had drifted via Canton and Wuchau to this immense and untidy town. The general theory is that Pinto drew his plans after a night of delirium in a paradise of smoke, and had amended them in remorse. The change of plans came when the building was half erected, so that the portion of 'Northward' which had so strong a resemblance to the porcelain tower, stood for Pinto in his unregenerate mood, and all that had any likeness to a riverside go-down fairly represented the erratic Portuguese in the period of reaction.
