The Dresden Firebombing Tony Joel, 2014-01-20 The firebombing of Dresden marks the terrible apex of the European bombing war. In just over two days in February 1945, over 1,300 heavy bombers from the RAF and the USAAF dropped nearly 4,000 tonnes of explosives on Dresden's civilian centre. Since the end of World War II, both the death toll and the motivation for the attack have become fierce historical battlegrounds, as German feelings of victimhood complete with those of guilt and loss. The Dresden bombing was used by East Germany as a propaganda tool, and has been re-appropriated by the neo-Nazi far right. Meanwhile the rebuilding of the Frauenkirche- the city's sumptuous eighteenth-century church destroyed in the raid-became central to German identity, while in London, a statue of the Commander-in-Chief of RAF Bomber Command, Sir Arthur Harris, has attracted protests. In this book, Tony Joel focuses on the historical battle to re-appropriate Dresden, and on how World

War II continues to shape British and German identity today.

Foreign Policy at the Periphery Bevan Sewell, Maria Ryan, 2017-01-17 As American interests assumed global proportions after 1945, policy makers were faced with the challenge of prioritizing various regions and determining the extent to which the United States was prepared to defend and support them. Superpowers and developing nations soon became inextricably linked and decolonizing states such as Vietnam, India, and Egypt assumed a central role in the ideological struggle between the United States and the Soviet Union. As the twentieth century came to an end, many of the challenges of the Cold War became even more complex as the Soviet Union collapsed and new threats arose. Featuring original essays by leading scholars, *Foreign Policy at the Periphery* examines relationships among new nations and the United States from the end of the Second World War through the global war on terror. Rather than reassessing familiar flashpoints of US foreign policy, the contributors explore neglected but significant developments such as the efforts of evangelical missionaries in the Congo, the 1958 stabilization agreement with Argentina, Henry Kissinger's policies toward Latin America during the 1970s, and the financing of terrorism in Libya via petrodollars. Blending new, internationalist approaches to diplomatic history with newly released archival materials, *Foreign Policy at the Periphery* brings together diverse strands of scholarship to address compelling issues in modern world history.

Tao of Soldiering Nihar Kuanr, 2020-03-30 Soldiering is all about the growth

and development of human potential in the military organization. The approach to soldiering in China is apparently distinct as compared to Indian or Western military and the shaping of soldiery in China has taken a very unique and somewhat enigmatic course. In the context of PLA, in the ongoing reform era, a clear shift in the approach to HRM is apparent. One of the most important objectives of the ongoing reforms and restructuring of PLA is to appreciably augment its potential and efficiency for the effective prosecution of Integrated Joint operations (IJO) for winning Local Wars under Informationised Condition (LWUIC). This book attempt has been made to take a holistic look at soldiering and development of human potential in PLA thus progressing understanding in the broadly interpreted field of HRM in the context of the Chinese military. The author argues that PLA has been adopting a very systematic, methodical and focussed approach towards identifying the key issues and addressing them in a time-bound manner to enhance the quality of its personnel to include the enlisted personnel, NCOs, officers, and higher leadership. However, success or failure of HR policies depends as much on several tangible factors(educational qualification, technological prowess, economic and social background), as on various intangible aspects (influence of culture, belief system, traditional practices, political and ideological factors impinging on the morale, motivation and value system). The book would enable interested readers to comprehend and grasp the nuances of the development of human potential in the military in general and PLA in

specific. Various HRD themes like organizational culture, leadership, efficient decision making, etc. analyzed in the book can find application in general context as well.

American Yachts in Naval Service Kenneth Howard Goldman, 2020-11-02 Before there was a U.S. Navy, several Colonial navies were all-volunteer--both the crews and the vessels. From its beginnings through World War II, the Navy has relied on civilian sailors and their fast vessels to fill out its ranks of small combatants. Beginning with the birth of the yacht in the Netherlands in the 17th century , this illustrated history traces the development of yacht racing, the advent of combustion-engine power and the contribution privately owned vessels have made to national defense. Vessels conscripted during the Civil War served both the Union and Confederacy--sometimes changing sides after capture. The first USS Wanderer saw the slave trade from both sides of the law. Aboard the USS Sylph, Oscar-winning actor Ernest Borgnine fought the Third Reich's U-boats under sail. USS Sea Cloud made history as the first

racially integrated ship in the Navy, three years before President Truman desegregated the military.

Terror on the Internet Gabriel Weimann, 2006 Drawing on a seven-year study of the World Wide Web and a wide variety of literature, the author examines how modern terrorist organizations exploit the Internet to raise funds, recruit, and propagandize, as well as to plan and launch attacks and to publicize their chilling results.

War 2.0 Thomas Rid, Marc Hecker, 2009-05-14 *War 2.0: Irregular Warfare in the Information Age* argues that two intimately connected grassroots trends—the rise of insurgencies and the rise of the web—are putting modern armies under huge pressure to adapt new forms of counterinsurgency to new forms of social war. After the U.S. military—transformed into a lean, lethal, computerized force—faltered in Iraq after 2003, a robust insurgency arose.

Counterinsurgency became a social form of war—indeed, the U.S. Army calls it armed social work—in which the local population was the center of gravity and public opinion at home the critical vulnerability. *War 2.0* traces the contrasting ways in which insurgents and counterinsurgents have adapted irregular conflict to novel media platforms. It examines the public affairs policies of the U.S. land forces, the British Army, and the Israel Defense

Forces. Then, it compares the media-related counterinsurgency methods of these conventional armies with the methods devised by their irregular adversaries, showing how such organizations as al-Qaeda, the Taliban, and Hezbollah use the web, not merely to advertise their political agenda and influence public opinion, but to mobilize a following and put violent ideas into action.

Soldiers who Rape, Commanders who Condone Juliane Kippenberg, Human Rights Watch (Organization), 2009 In the Democratic Republic of Congo (DRC), tens of thousands of girls and women have suffered horrific acts of sexual violence. The government army is one of the main perpetrators. Commanders, even when confronted with abuses, have frequently failed to stop sexual violence and may themselves be guilty of war crimes or crimes against humanity as a consequence. In this report, Human Rights Watch looks at sexual violence committed by the army and more specifically the 14th brigade whose case illustrates the failure to enforce respect for humanitarian law. The Congolese government and international agencies have taken some measures to deal with the army's poor human rights record, sometimes as part of broader security sector reform. These efforts have so far seen only limited success. For example, while some foot soldiers have been brought to justice, commanders are usually spared prosecution. To end impunity for the military, the Congolese government should strengthen the weak military justice system; establish clear chains of command, remove army officers with responsibility

for past crimes, train military of all ranks on protection of women and girls, and improve pay and living conditions for soldiers. The government should also consider establishing a mixed chamber composed of international and Congolese judges and prosecutors to prosecute military and civilian leaders responsible \ for war crimes and crimes against humanity, including sexual crimes, beyond the few individuals who will be tried by the International Criminal Court.

Air Force Journal of Logistics ,2006

Tales from the North and the South Frances H. Casstevens,2006-11-14 In June 1862, James J. Archer was promoted to the rank of brigadier general by Robert E. Lee. Serving with distinction in prominent battles such as those at Bull Run, Chancellorsville and Harpers Ferry, this lawyer-turned-general earned not only the respect of his superiors but the esteem and admiration of his men. Imprisoned first at Fort Delaware and then at Johnson's Island, Archer was one of the First Fifty (and as it turned out only) officers to be part of a Confederate/Union prisoner exchange. Upon returning to the Confederacy, Archer resumed command and served until his death from battle wounds in October 1864. From doctors to lawyers and privates to generals, this volume records the stories of a few special people--such as General James Archer--who chose to serve their country during the Civil War. Twenty-four individuals from both sides of the Mason-Dixon line are remembered for their extraordinary and often little known contributions to the Confederate and

Union causes. These include Colonel Thomas Rose, who was in charge of the Libby Prison tunnel; Colonel John R. Winston, who was one of the few to escape from the Federal prison on Johnson's Island; Sally Tompkins, who ran a private hospital in Richmond; and Sergeant Richard Kirkland, who risked his life to take water to the Federal troops at Fredericksburg. Other featured individuals include Susie Baker King Taylor, Colonel Hector McKethan, Dr. Mary Walker and Richard Thomas Zarvona. Contemporary sources include a variety of correspondence and diaries from these subjects and those who knew them. Appendices contain a roll of participants in the Great Locomotive Chase; a list of Federal prisoners who escaped through the Libby Prison tunnel; a directory of Confederate officers on board the Maple Leaf; and the history of the Congressional Medal of Honor and the Confederate Roll of Honor. A number of contemporary photographs are also included.

Forgotten Captives in Japanese-Occupied Asia Kevin Blackburn, Karl Hack, 2007-12-14 Experiences of captivity in Japanese-occupied Asia varied enormously. Some prisoners of war (POWs) were sent to work in Japan, others to toil on the 'Death Railway' between Burma and Thailand. Some camps had death rates below 1 per cent, others of over 20 per cent. While POWs were deployed far and wide as a captive labour force, civilian internees were generally detained locally. This book explores differences in how captivity was experienced between 1941 and 1945, and has been remembered since: differences due to geography and logistics, to policies and personalities,

and marked by nationality, age, class, gender and combatant status. Part One has at least one chapter for each 'National Memory', Australian, British, Canadian, Dutch, Indian and American. Part Two moves on to forgotten captivities. It covers women, children, camp guards, internee experiences upon the end of the war, and local heroines who fought back. By juxtaposing such a wide variety of captivity experiences – differentiated both by category of captive and by approach - this book transcends place, to become a collection about captivity as a category. It will interest scholars working on the Asia-Pacific War, on captivities in general, and on the individual histories of the countries and groups covered.

Khomeini'S Warriors Mehran Riazaty, 2016-05-11 This book analyzes Ayatollah Khomeini's ideology, Iran's official and unofficial armed forces, and its allies throughout the world and provides photographs of the regimes' predominant actors. Since 1892, the Shia clergy has played a major role in Iran, such as the tobacco boycott, which led to the withdrawal of the concession given by the Shah to British citizens, Iran's Constitutional Revolution of 1906, as well as organizing opposition to the Shah's policies in the 1979 revolution. Ayatollah Khomeini was a lecturer at Hawza Ilmiyya (Shia seminary of traditional Islamic school of higher learning) of Najaf and Qom for decades before he came on to the Iranian political scene. In 1977, Khomeini assumed the mantle of leadership within the Islamist opposition after the death of Ali Shariati, a leftist intellectual and one of the most

influential Iranian Muslim thinkers of his generation. In 1930, Shariati contributed a new line of thinking in Iran, through his reinterpretation of jihad and shahadat (martyrdom), which was presented in his view of an authentic Islam. Shariatis new authentic Islam centered on a reinterpretation of the story of Karbala, where Imam Hussein was martyred in a battle, refusing to pledge allegiance to Yazid, the Umayyad caliph. Shariati borrowed the Christian concept of martyrdom from the Crucifixion and Resurrection of Jesus as the basis of his new Islamic philosophy. Shariati wrote that when faced with the possibility of ones own death, one must adopt an attitude of freedom-toward-death and thereby experience authentic living. In 1978, Ayatollah Khomeinis reinterpretation of Shia rituals removed the borders between the audience and the actors, turning the entire country into a stage for his casting. He imbued the old passion of the story of Karbala with a new passionate hatred for the Shahs unjust rule in Iran, as well as Israels and the United States influences within the world. Khomeinis memory of Dr. Mohammed Mosaddegh, whose government was toppled by the CIA in 1953, returning the Shah to Iran, resulted in the rise of various political groups such as nationalists, liberals, secularists, and Marxists. These groups were essential in assisting Khomeinis overthrow of the Shah, though they were soon stomped out by the creation of the Islamic Revolutionary Guard Corps (IRGC) in May 1979 in order to protect Khomeinis unique brand of a Shia Islamic Revolution. The Iran-Iraq War initiated the rapid expansion of the IRGCs size

and capabilities. In September 1980, the IRGC had only 30,000 men in lightly armed units. Prior to the war, the IRGC personnel were very young in age and had little to no military experience. By the summer of 1981, the IRGC had organized basic training centers with experienced commanders and a select group of regular officers. They also had 50,000 members, and its strength would jump to 100,000 in 1983 and 250,000 in 1985. In order to meet all its manpower needs on the Iraq war front, the IRGC then turned to its volunteer militia, the Basij. The Basij members provided more troops than the IRGC could arm. The average Basij member came from Iran's rural areas and can be described as poor, uneducated, and ranged in age from twelve to thirty years old. Like the IRGC, the Basij members are motivated by both religion and ideology. After the Iran-Iraq War, the IRGC focused on external threats as the Basij increased its involvement in domestic affairs. In past years, the Basij militia has been active in controlling public gatherings and disrupting demonstrations by civil or student activists.

The Allied Defense of the Malay Barrier, 1941-1942 Tom Womack, 2015-12-01
Though few realize it, the Netherlands East Indies were the object of Japan's attack on Pearl Harbor in December 1941. Likewise, their invasions of Guam, Wake Island and the Philippines were mainly diversionary operations to safeguard their main assault on Dutch and British colonies. Since the end of World War I, Japan had coveted the vast East Indies oil reserves, and the colony had feared invasion since Germany overran Holland in May 1940.

Isolated politically the weakly defended archipelago was a tempting prize. The East Indies government initially maintained a strict policy of neutrality while desperately working to build up its military strength. As Japanese actions pushed the region toward war, the Dutch reluctantly embraced closer ties with America and Britain. For a brief period, the East Indies were key players in Pacific War strategy. This book details for the first time in English the Dutch prewar strategy, their efforts to counter Japanese espionage and their sizable though largely forgotten military contribution in the early months of the Pacific War.

The 51 Day War Max Blumenthal, 2015-07-06 On July 8, 2014, Israel launched air strikes and a ground invasion of Gaza, that lasted 51 days, leaving over 2,000 people dead, the vast majority of whom were Gazan civilians. During the assault, at least 10,000 homes were destroyed and, according to the United Nations, nearly 300,000 Palestinians were displaced. Max Blumenthal was on the ground during what he argues was an entirely avoidable catastrophe. In this explosive work of reportage, Blumenthal reveals the harrowing conditions and cynical deceptions that led to the ruinous war. Here, for the first time, Blumenthal unearths and presents shocking evidence of atrocities he gathered in the rubble of Gaza.

Command Conflicts in Grant's Overland Campaign Diane Monroe Smith, 2012-12-07 This book follows the men of the 5th Corps and the Army of the Potomac through the Wilderness, Spotsylvania and Cold Harbor, with the

army condemned to moving blindly through enemy territory without the benefit of cavalry scouting or screening. It considers the lost opportunities of June 1864, when Grant's masterly movement of the Army of the Potomac across the James to confront the enemy at Petersburg should have ended in victory and the fall of Richmond. Bungling and complacency doomed the attacks on Petersburg's fortifications, and instead of victory, the battered Federals faced a drawn-out siege, and another 10 months of war. Finally, the author considers what happened to a number of the prominent Federal participants in the Overland Campaign during the last year of the war and after. Many of those who lied and cheated their way to the top became government leaders and the authors of policy for years to come.
