Historical Wig Styling Allison Lowery,2013 *These are comments on the overall plan for both volumes. Individual ATI's will be created for both books at RTM* Based on reviewer feedback of our 2010 publication **Wig Making and Styling**, which teaches readers how to construct a wig, **Historical Wig Styling Volumes 1 & 2** focus on how to style wigs in a historically accurate way. Each styling chapter will contain approximate dates of the period, images of historical hairstyles from the period, a list of important artists or style icons from the period, and notes about relevant historical events. How to create each hairstyle is explained in minute detail, beginning with a discussion on the best cut or style of wig to start with for the style and followed by step-by-step instructions for the hairstyle. Each step is illustrated by photographs, including finished front side and back shots of the hairstyle and pictures of variations on this style. The books also cover necessary supplies and styling products needed, notes about proper wig handling, an brief overview of basic styling techniques, guidelines for good wig styling, and a discussion about the differences in styling a person's own hair instead of a wig. Also based on reviewer feedback, we have split the book into two volumes in order to include the most

detailed explanation of how to create the styles while including numerous photographs to visually depict each step. The first volume covers styles from Ancient Egypt through 1820; the second volume covers styles from 1830 to the present. Among others, styles covered include: Ancient Egyptian Ancient Greek Ancient Roman Renaissance Elizabethan Cavalier Biedermeier Romantic/Victorian These books will be included in the new Costume Topics Series from the Theater list. Each book will be 256 pages, a snazzy 8.25 x 7.5 trim size, and spiral bound-a format consistently requested by our audience so that they can lay the book flat while working from it. *Features step-by-step instruction on how to recreate hairstyles from all major epochs *Heavily illustrated with full color images that show each styling step *Spiral bound by popular demand, allows the book to lay flat as students and stylists work from it

Wigs, Hair and Make-Up Helen Casey,2023-01-26 Written by the former Deputy Head of Make-Up and Wigs at the National Theatre, this book opens up a process that very few people will otherwise be privy to, giving perspectives on the preparation before a production and responsibilities during, as well as looking more widely at training, career opportunities and success. It does so through drawing upon some of the most adventurous and challenging productions mounted at the National Theatre and elsewhere. From designing and fitting wigs to managing lighting-fast quick changes, hair, wigs and make-up people are a major part of the creation of any theatrical production. Yet their role and contribution are much less discussed and written about than elements such as writing, directing and acting, despite being critical to defining and executing the aesthetic of a production. Their involvement

requires a great deal of research and creative thinking; collaboration with other members of the creative team; specific knowledge of wig-making and measuring, make-up design and application; and managing all of these elements during the course of the evening. Often required to cover all three elements (and sometimes more), the designer looking after hair, wigs and make-up needs to bring to the production multiple areas of expertise and is a core part of the creative team.

Personas 111 Tomihiro Kono, 2020-03-15 Exploring the possibility of wigs by portraying 111 transformations of Cameron Lee Phan in 111 handmade wigs made by Tomihiro Kono. Hairstyles are closely related to our identity; They create both our inner and outer self. This can reflect our personality or, in some way, can hide our true selves. We can suddenly make ourselves look like a different person by wearing a wig. A wig is a kind of mask, designed on the one hand to make a definite impression upon others, and on the other to conceal the true nature of the individual. Changing how we look is an act of self-reflection, self-assertion, and self-defense. We live in the spirals of the world by defining ourselves and being defined by others. In Latin times a persona was a mask; today our digital masks have turned into persons that amplify our individual digital essence, letting our fake and intangible identities take over. Tomihiro Kono's wigs are a reaction to our digital society and a way to reclaim our physicality: with his creations the artist and designer invites us indeed to go over a physical, rather than digital, transformation. A wig by Tomihiro Kono is therefore a mask-thrix - a mask for the hair (thrix meaning hair in Greek), a symbol of an existential drama and the possibility of taking up not just one role, but multiple ones. By wearing a wig by Tomihiro Kono you can be anything and anyone but yourself. The promise is alluring. Enter the Mask-Thrix.
